INTRODUCTORY SECTION

**TO: HENRY DEAN, EXECUTIVE DIRECTOR, AND
MEMBERS OF THE GOVERNING BOARD**

SUBJECT: COMPREHENSIVE ANNUAL FINANCIAL REPORT – FISCAL YEAR 2004

Florida Statutes require that an external audit of our financial statements be performed by a firm of independent certified public accountants to express an opinion that the basic financial statements of the South Florida Water Management District (the District) are fairly presented in conformance with generally accepted accounting principles (GAAP). Pursuant to this requirement, we hereby issue the comprehensive annual financial report for the District for the fiscal year ended September 30, 2004.

Responsibility for the integrity, objectivity, accuracy, completeness and fairness of presentation of these basic financial statements rests with management. The basic financial statements were prepared in conformity with generally accepted accounting principles for governmental entities. To our knowledge, the information is accurate in all material respects and fairly presents our financial position and operating results. The report includes disclosures required to provide an understanding of our financial affairs.

Management is responsible for maintaining an internal control structure designed to ensure that District assets are protected from loss, theft, or misuse. The concept of reasonable assurance recognizes that the cost of a control should not exceed the expected benefits, and the evaluation of costs and benefits requires management's estimates. The Governing Board and management have a plan of organization and policies in place to safeguard assets, validate the reliability of accounting data, promote operational efficiency and encourage adherence to prescribed managerial policies and procedures. We believe these existing internal accounting controls adequately safeguard assets and provide reasonable, but not absolute, assurance of proper recording and reporting of our finances.

Independent auditors have audited the basic financial statements in accordance with generally accepted auditing standards and included a review of internal accounting controls to the extent necessary to express an opinion on the fairness of these basic financial statements. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the South Florida Water Management District's basic financial statements for the fiscal year ended September 30, 2004 are fairly presented in accordance with GAAP. The independent auditors' report is presented as the first component of the financial section (Section II) of this report.

The independent audit of the District's basic financial statements was part of a broader, federal and state mandated "Single Audit" designed to meet the special needs of federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the basic financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards and state financial assistance. These reports are available in the District's separately issued Single Audit Report.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

DISTRICT BACKGROUND

South Florida's subtropical extremes of hurricane, flood, and drought combined with efforts to populate this "new frontier" led the U.S. Congress to adopt legislation creating the Central and Southern Florida Flood Control Project (C&SF) in 1948.

The project's primary goal was to serve the needs of the region's growing agricultural and urban populations and to protect and manage water resources. The U.S. Army Corps of Engineers (COE) would, over the following decades, design and build a vast network of levees, canals, and other improved waterways, and water control structures designed to help manage the often unpredictable weather extremes of the region.

In 1949 the Florida Legislature created the Central and Southern Florida Flood Control District (FCD) to act as the local sponsor for the project, operating and maintaining the water control network with funding from property taxes levied within the District boundaries. Throughout its history, this regional water resource agency evolved and grew primarily in response to population growth and development and its impact on water resources.

The Florida Water Resources Act of 1972 launched the most significant change in the state's approach to natural resource management. This legislation divided the state into five regional water management districts and greatly expanded the responsibilities of the existing FCD. This included a greater emphasis on water quality and environmental protection initiatives.

The FCD was renamed the South Florida Water Management District in 1976, and new boundaries were drawn to encompass the region's primary watersheds. Since 1949 the District has grown into a multi-faceted agency responsible for most water resource related issues – from providing flood protection and water supply protection to people living in cities and on farms to restoring and managing natural ecosystems.

The District's Governing Board is composed of nine members appointed from specific geographic areas within our boundaries. The members are appointed by the Governor and are confirmed by the Florida Senate. Appointments are made on a staggered basis and members serve without salary for a term of four years. The Board elects its own officers, including a chairman and vice-chairman.

GEOGRAPHIC BOUNDARIES OF THE DISTRICT

Water management district boundaries are based on natural, hydrological basins rather than political or county limits to allow for effective and efficient planning and management. The boundaries of the District encompass all or part of 16 south Florida counties, covering a total area of 17,930 square miles. Nearly 7.1 million people live within the District's boundaries. A map showing the geographic boundaries of the District can be found on page I-10.

GENERAL OPERATIONS

The District's water management system includes roughly 1,800 miles of canals and levees, with 200 primary water control structures operated by the District. Nearly 2,000 smaller structures are in place system-wide to control inflows from secondary sources (local, municipal, or county drainage and/or water control districts) into the District's primary system. The District has 38 pumping stations which can move hundreds of millions of gallons of water in and out of storage areas, providing both water supply and flood protection.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

The man-made water management system undergoes continuous enlargement and refinement with new construction, acquisitions and upgrades to the existing network. This enhances the system's ability to provide flood control and water supply protection as well as preserve water quality and environmental values.

District employees are located at facilities across our 16 county jurisdiction to offer the public more direct and responsive access to permitting and other agency functions. These locations include eight Field Stations located in Kissimmee, Okeechobee, Clewiston, West Palm Beach, Fort Lauderdale, Miami, Homestead, and Naples. District headquarters are in West Palm Beach with Service Centers located in Fort Lauderdale, Fort Myers, Naples, Stuart, Miami, Orlando, Okeechobee, and Islamorada.

The Big Cypress Basin Branch Office and Field Station are headquartered in Naples. Operations and policies for the Basin are directed by a six-member Basin Board and are carried out by Basin staff, under the direction of the Basin Administrator.

REGULATORY POWERS

The District has a number of regulatory programs designed to protect the region's water resources. Under the state's 1993 environmental streamlining initiative, land alteration activities or works affecting water resources are regulated under one type of permit – the Environmental Resource Permit. The water management districts and the Florida Department of Environmental Protection (DEP) have developed uniform wetland delineation, mitigation banking, and environmental resource permitting criteria. The District is also responsible for regulating consumptive uses of water. Types of activities regulated by the District include:

- Projects with impacts on wetlands or other surface waters (dredge and fill),
- Surface Water Improvement and Management (SWIM) "Works of the District",
- Use of District lands, canals, streams or aquifers,
- Drainage system construction or operation, and
- Well construction.

OTHER DISTRICT PROGRAMS

The District's responsibilities reach far beyond regulatory programs and operations. The District acquires, manages, and restores lands through Florida's Save Our Rivers (SOR) and Preservation 2000/ Florida Forever programs.

Water resource education targeted at schools and at the general public is an important District focus. Partnerships and coordination with other levels of government and other agencies help support water resource development projects, development of alternative water supplies, water conservation, reuse, and stormwater management goals.

Research, data collection and analysis help ensure District projects and programs are effective and efficient. Emergency operations and management are a cornerstone of District operations, especially during the hurricane season, or the seven-month dry season when serious water shortages can occur. The District is also a leader in melaleuca, aquatic weeds, and other exotic pest plant control.

REGIONAL ECONOMIC CONDITION AND OUTLOOK

Growth in the local economy affects the District's ability to generate revenues. This is because the District's primary revenue is from ad valorem taxes, which are property taxes based on assessed values of property in the region. Population growth and the associated construction of housing and commercial structures along with low unemployment and interest rates are the primary factors that contribute to the maintenance or increase in property prices, resulting in higher assessed values.

Population in the District has increased significantly in the recent past and this growth is expected to continue over the next five years. Overall, the District's population is expected to grow at a rate of 1.6 percent per year with the largest numerical increases occurring along the southeast coast (Palm Beach, Broward and Miami-Dade Counties) and the highest growth rates occurring in Collier and St. Lucie Counties.

Florida's economic conditions are improving. The September 2004 unemployment rate for Florida was 4.7 percent compared to 5.1 percent for the entire United States. This also compares favorably to the September 2003 unemployment rate for Florida of 5.2 percent. Unemployment claims are up 34 percent from a year ago with many of these new claims being hurricane related.

Economic losses from the hurricanes of 2004 are estimated to be between \$19 billion and \$36 billion. This compares with losses from Hurricane Andrew in 1992 of \$35 billion. Offsetting this loss has been a large increase in construction activity associated with damage repairs. Also, the Federal government has awarded \$75 million in emergency grants to assist recovery efforts. Florida's Department of Revenue estimates the hurricanes will have a \$3.8 billion impact on the tax roll state-wide.

The 2004 real estate market in South Florida was strong prior to the onslaught of the hurricanes. Although a slowdown in real estate activity was experienced for a short time, the current market remains strong with the help of continuing low interest rates.

Economic activity continues strong in South Florida and the above factors are generally promising for the near future. The District has taken steps to prepare for potential terrorism, economic downturns and catastrophic weather events by establishing an Economic Stabilization Fund. As of September 30, 2004, the economic stabilization reserve was \$13.7 million.

MAJOR INITIATIVES

EVERGLADES RESTORATION

Florida's Everglades are the largest subtropical wetlands in the United States and are a unique resource. The Everglades "River of Grass" contains a diversity of plants and wildlife not found anywhere else in the United States. For more than a century, human activities have altered the ecosystem to provide for the development of a growing population, agriculture, and protection against deadly hurricanes and droughts.

Today, the Everglades face critical challenges as a result of more than 100 years of human encroachment. Phosphorus-enriched agricultural and stormwater runoff has threatened the ecosystem's delicate balance. Other threats include changes in the quantity, distribution and timing of freshwater; an infestation of non-native plants; mercury accumulation in the tissue of some Everglades fish, birds and other animals; and a reduction in the size of the Everglades marshes.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

The **Everglades Forever Act** (EFA), passed by the Florida Legislature in 1994, established requirements essential to restore significant portions of the Everglades. The District implemented the Everglades Construction Project and the Everglades Restoration Program in order to meet the requirements of the Everglades Forever Act.

The **Everglades Construction Project** (ECP) is the first major step in Everglades restoration pursuant to the Everglades Forever Act (EFA) passed by the Florida Legislature in 1994. The EFA directs the District to acquire land, design, permit, and construct a series of Stormwater Treatment Areas (STAs) to reduce phosphorus levels from stormwater runoff and other sources before it enters the Everglades Protection Area. The STAs, which consist of six large constructed wetlands, totaling over 47,000 acres, are the cornerstone of the ECP.

Other ECP components include hydropattern improvements and diversion of stormwater flows from Lake Okeechobee. In total, the ECP is composed of 12 interrelated construction projects located between Lake Okeechobee and the Everglades. Operations and maintenance of the STAs and other features of the ECP have commenced upon completion of each individual project.

To date, the STAs have removed 425 tons of phosphorus that would have otherwise entered the Everglades. In addition, best management practices by agricultural landowners have removed an additional 1,300 tons of phosphorus.

COMPREHENSIVE EVERGLADES RESTORATION PLAN

The **Comprehensive Everglades Restoration Plan** (CERP) is the plan for the restoration, protection, and preservation of the water resources of central and southern Florida, including the Everglades. Principal features of the plan are the creation of approximately 217,000 acres of new reservoirs and wetlands-based water treatment areas. These features vastly increase storage and water supply for the natural system, as well as for urban and agricultural needs. The CERP is intended to restore a more natural flow of water, improve water quality and restore a more natural hydroperiod in the South Florida ecosystem.

Through the Water Resources Development Act of 2000, Congress has authorized an initial \$1.4 billion package of projects that will begin implementation of the Comprehensive Plan. The initial authorization includes (1) four pilot projects, (2) ten specific project features, and (3) a programmatic authority through which smaller projects can be more quickly implemented.

Implementation of the Comprehensive Everglades Restoration Plan is estimated to cost \$8.4 billion, half of which will be paid by the federal government. The State of Florida will provide one-fourth of the total cost, and the South Florida Water Management District and various local agencies in South Florida will provide one-fourth of the total cost. To date, the District has expended \$797 million with \$618 million being for project land acquisition.

KISSIMMEE BASIN RESTORATION

In 1947 some 250,000 acres were flooded in and south of the cities of Kissimmee and Orlando. In 1962, in an attempt to keep these cities protected from further destruction, the U.S. Army Corps of Engineers dredged the Kissimmee River, turning it from 103 miles of winding river into a 56-mile long canal.

The environmental devastation of the dredging was staggering. Native vegetation disappeared, as did animals dependent upon it for food, nesting and shelter. Of the original 40,000 acres of wetlands, only 10,000 remain.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

In 1976 the Legislature created a commission to study restoration of the river. After years of studies and experimenting with ways to restore the river, a plan evolved to fill 22 continuous miles of the canal with the original spoil material, forcing the water into the historic river channel and floodplain. The project also calls for removing two of the six dams and locks along the canal. When finished, 43 miles of the historic river and approximately 40 square miles of river/floodplain ecosystem will be restored.

The state and federal governments will split the estimated \$500 million cost to restore the river. The U.S. Army Corps of Engineers is responsible for the construction and the design of the restoration. The District has purchased approximately 85% of the estimated 110,000 acres needed to complete the project.

INTERNAL CONTROLS

PRINCIPLES OF SOUND FINANCIAL MANAGEMENT

Management acknowledges its responsibility for sound administration of our financial resources. This responsibility begins with our *Principles of Sound Financial Management*. These are sixteen guiding principles established by our Governing Board that reflect the core beliefs of how we do business. One of the principles says that we will maintain accountability and prudently use financial resources. As an integral part of our goal of fiscal accountability, we currently provide useful, timely, and accurate financial information for reporting, analysis, and decision making. Accountability requires presentation of relevant information in a way that attracts attention, retains interest, and is understandable to the citizenry. The objective of this report is to communicate as clearly as possible our operating results and financial position.

BUDGET ADOPTION AND CONTROLS

The Truth-in-Millage (TRIM) Act enacted by state legislation requires disclosures of information regarding tax millage and budget adoption. Each year, following the required disclosures and the conduct of hearings for taxpayer comment, the Governing Board sets the tax rates and adopts a budget.

The Governing Board also approves budget transfers among departments and capital projects during the year. The level of control at which expenditures may not legally exceed the budget is at the major object level within a fund and department. Encumbrance accounting is used to reserve budgeted appropriations for obligations incurred but not received.

CASH MANAGEMENT

Our cash position is bolstered by our aggressive but prudent investment policy. Cash not currently needed for operations is placed in a variety of investments, depending on how soon the cash will be needed for spending. During the last fiscal year our investments included U.S. Agency obligations, the Florida Local Government Surplus Funds Trust Fund Investment Pool, and money market accounts.

RISK MANAGEMENT

The District is self-insured, within varying limits, for workers' compensation, general liability and automobile liability insurance programs. All premium revenue and claims expenditures are reported in the District's General Fund. The District participates in a fully insured health care program that has enabled the District to realize substantial cost savings.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Risk control procedures have been established to reasonably ensure that the District's employees are aware of their responsibilities regarding loss exposures related to their duties. In a similar manner, risk control procedures have been established to reduce possible losses to property owned or under the control of the District.

DEBT ADMINISTRATION

A large portion of the District's debt is composed of the unpaid balance of Special Obligation Land Acquisition Bonds. These bonds were issued to finance the purchase of environmentally sensitive lands and are secured by a share of statewide documentary stamp tax collections. The District has no general obligation bonds authorized or outstanding. Our credit rating remains Aaa for these insured bonds. The total liability for our bonds at September 30, 2004 is \$63.5 million. We are obligated for payments on these bonds through fiscal year 2016.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the South Florida Water Management District for its comprehensive annual financial report for the fiscal year ended September 30, 2003. This was the fourteenth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

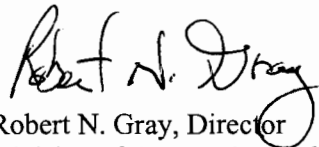

ACKNOWLEDGMENTS

We extend our sincere appreciation to the many District employees who provided countless hours of research and preparation in the production of this report. Special thanks go to the employees of the Division of Accounting and Financial Services for their diligence in the production of this report.

Respectfully submitted,

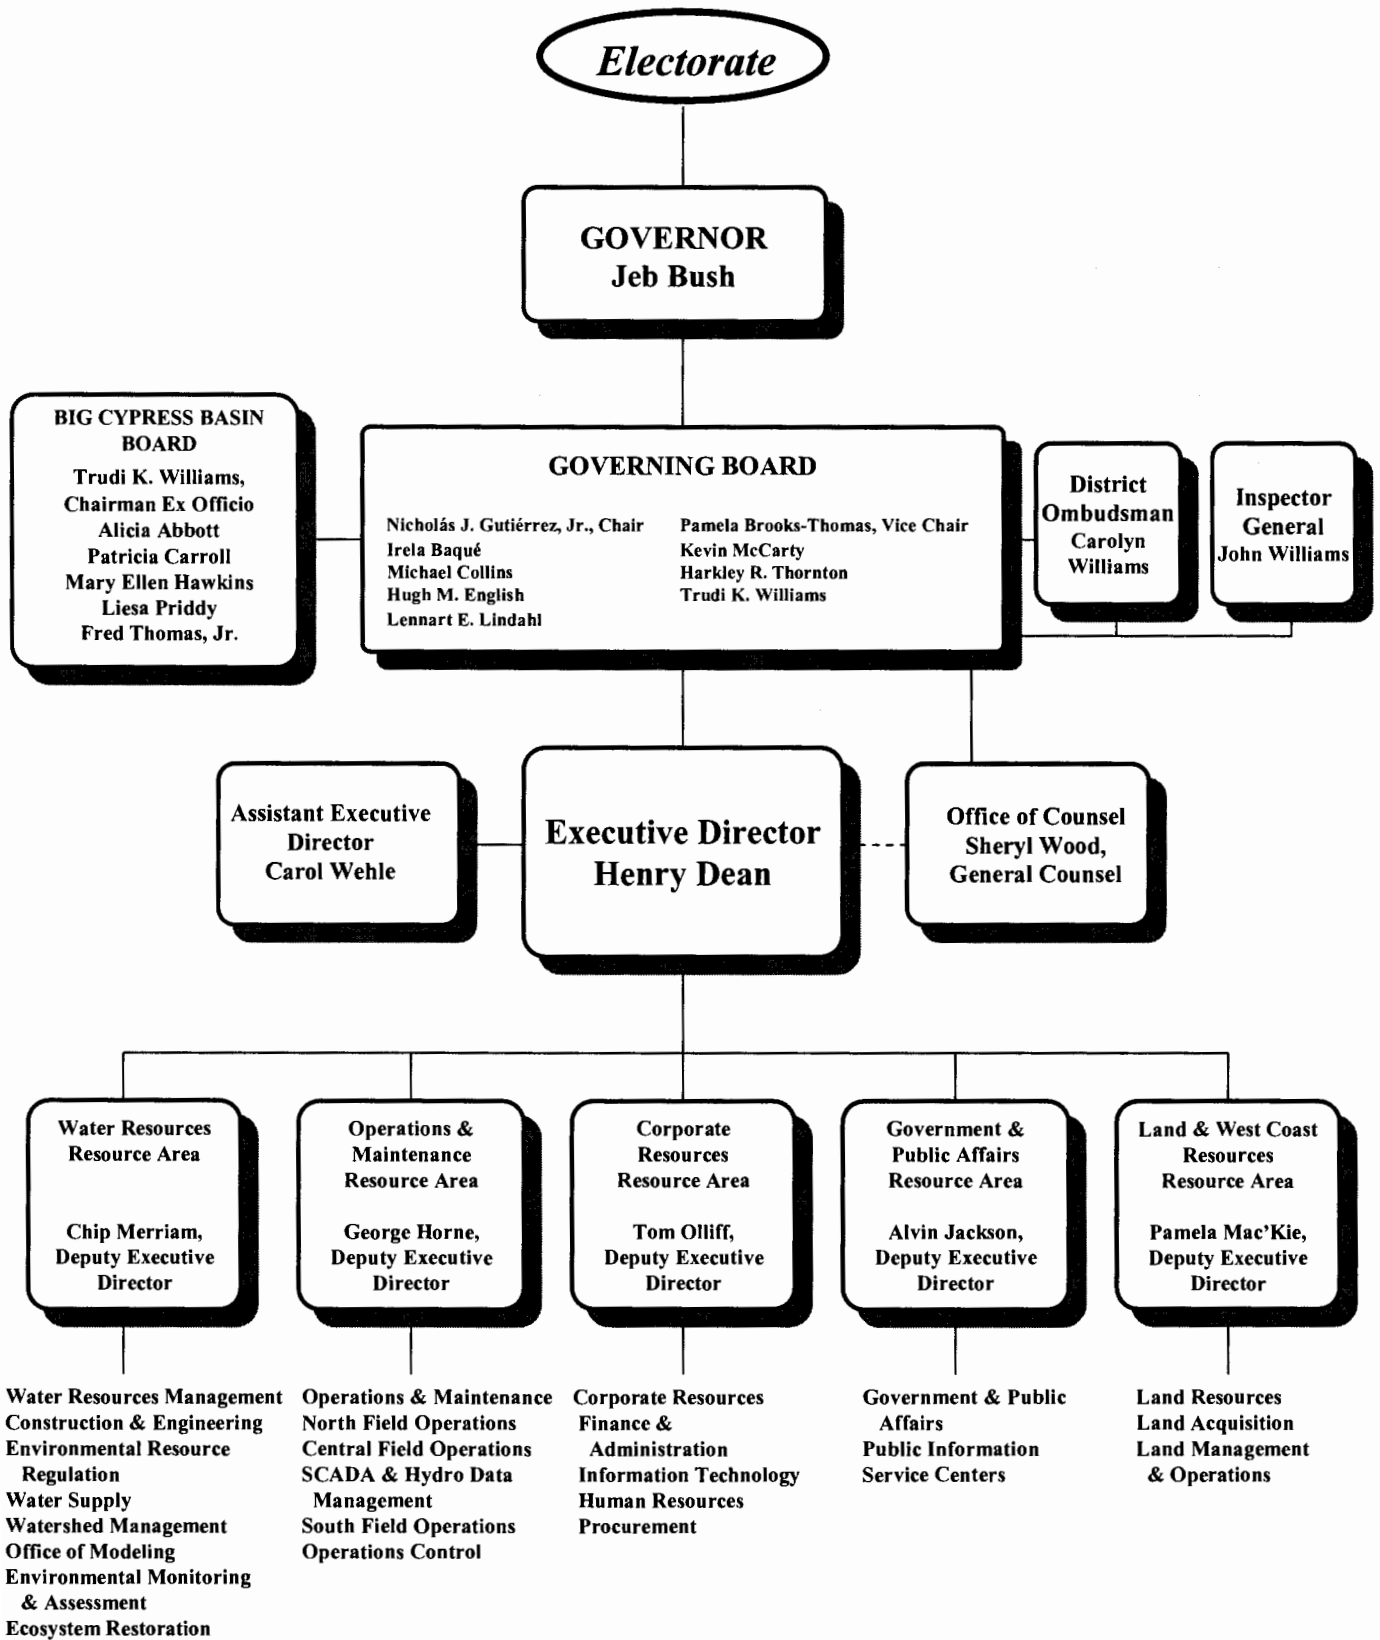

Paul E. Dumars, Sr., Director
Department of Finance and Administration

Robert N. Gray, Director
Division of Accounting and Financial Services

Independent Auditor's Report

To the Governing Board of the
South Florida Water Management District:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South Florida Water Management District (the District), a component unit of the State of Florida, as of and for the year ended September 30, 2004, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of September 30, 2004 and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated February 25, 2005 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis (MD&A) and the required supplementary information other than MD&A, on pages II-3 through II-11 and II-43 through II-55, respectively are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplemental information, statistical section, and disclosure section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section, statistical section, and disclosure section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Sharpton Brunson & Company P.A.

February 25, 2005

SOUTH FLORIDA WATER MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2004

Our discussion and analysis of the South Florida Water Management District's financial performance provides an overview of the District's financial activities for the fiscal year ended September 30, 2004. Please read it in conjunction with the transmittal letter beginning on page I-1 and the District's basic financial statements, which begin on page II-13.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of its most recent fiscal year by nearly \$2.5 billion. Of this amount, \$204.5 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$28.5 million, or 27.8 percent of total general fund expenditures.
- The District's total capital assets increased by \$246.2 million during the current fiscal year. This increase resulted mainly from the District's major land acquisitions for various projects totaling \$210.5 million in 2004.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages II-13 to II-15 of this report.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2004

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are categorized as governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 30 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General fund, Okeechobee Basin SR fund, State Appropriations fund, Everglades Trust fund, Comprehensive Everglades Restoration Plan (CERP) fund, Save Our Everglades fund, and the Comprehensive Everglades Restoration Plan (CERP) – Other Creditable Funds, all of which are considered to be major funds. Data from the other 24 governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages II-16 to II-22 of this report.

Individual fund data for each of the 24 non-major governmental funds is provided in the form of combining statements on pages III-6 to III-17 of this report.

The District adopts an annual appropriated budget for all of its funds. Budgetary comparison schedules have been provided that include the original and final appropriated budgets as well as the final actual results of operations for the General fund, Okeechobee Basin SR fund, and the State Appropriations fund to demonstrate compliance with this budget. The budgetary comparison schedules for these three funds are being reported as required supplementary information other than management discussion and analysis and are presented immediately after the notes on pages II-43 to II-55. Budgetary comparison schedules for the other governmental funds are presented on pages III-18 to III-59 of this report.

Notes to the basic financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages II-24 to II-40 of this report.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2004**

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by nearly \$2.5 billion at the close of the most recent fiscal year, an increase of nearly \$197 million from the prior fiscal year.

By far the largest portion of the District's net assets (89 percent) reflects its investment in capital assets (e.g., land, buildings, equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	District's Net Assets As of September 30	
	<u>2004</u>	<u>2003</u>
Current and Other Assets	\$347,021,347	\$381,930,478
Capital Assets	<u>2,417,099,627</u>	<u>2,170,904,017</u>
Total Assets	<u>2,764,120,974</u>	<u>2,552,834,495</u>
Current and Other Liabilities	40,877,369	37,247,352
Long-term Liabilities Outstanding	<u>249,440,428</u>	<u>239,710,993</u>
Total Liabilities	<u>290,317,797</u>	<u>276,958,345</u>
Net Assets:		
Invested in Capital Assets, Net of Related Debt	2,199,470,206	1,962,938,768
Restricted	69,807,196	100,519,461
Unrestricted	<u>204,525,775</u>	<u>212,417,921</u>
Total Net Assets	<u>\$2,473,803,177</u>	<u>\$2,275,876,150</u>

An additional portion of the District's net assets (2.8 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted assets (8.3 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year the District is able to report positive balances in all three categories of net assets.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2004**

Key elements of the net asset increase are as follows:

**District's Changes in Net Assets
Fiscal Years Ended September 30**

Revenues	2004	2003
Program Revenues		
Charges for Services	\$10,820,870	\$15,482,234
Operating Grants and Contributions	41,968,192	71,994,832
Capital Grants and Contributions	157,103,336	144,884,863
General Revenues		
Property Taxes	343,908,082	308,054,749
Contributions for Long-term Maintenance	152,327	154,899
Investment Earnings	8,254,627	10,387,350
Other	9,293,594	11,084,373
Total revenues	571,501,028	562,043,300
Expenses		
General Government	16,715,686	14,930,804
Water Resources	126,865,602	121,919,202
Operations and Maintenance	73,590,221	68,604,181
Corporate Resources	47,101,620	43,471,389
Government and Public Affairs	42,790,468	38,997,025
Land Resources	62,588,617	8,185,919
Interest on Long-term Debt	3,921,787	3,025,599
Total Expenses	373,574,001	299,134,119
Increase in Net Assets	197,927,027	262,909,181
Net assets – Beginning of fiscal year	2,275,876,150	2,012,966,969
Net assets – End of fiscal year	\$2,473,803,177	\$2,275,876,150

Property taxes continue as our primary source of revenue. For fiscal year 2004, property taxes totaled \$344 million. Although the District's millage rate has changed little in recent years, property tax revenues have increased annually due to the increase in property values and new construction throughout the District.

Operating grants and contributions totaled nearly \$42 million for fiscal year 2004, or a decrease of \$30 million from the prior fiscal year. This decrease was composed mostly of a reduction in revenues received from the State of Florida to cover the costs of various State-mandated restoration activities.

Capital grants and contributions totaled \$157 million, an increase of \$12 million from fiscal year 2003. The largest portion of this increase was in revenues received from the State's Save Our Everglades Trust Fund for acquiring land needed for the Comprehensive Everglades Restoration Plan.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2004

Expenses for Land Resources were \$62.6 million in fiscal year 2004, an increase of \$54.4 million from the prior fiscal year. This increase was mainly due to costs associated with land acquisition activities.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$28.5 million, while total fund balance reached \$39.0 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 27.8 percent of total General Fund expenditures, while total fund balance represents 38 percent of that same amount.

The fund balance of the General Fund increased by \$5.1 million during the current fiscal year. Revenues exceeded expenditures by \$50.6 million. Net transfers out totaled \$45.7 million. The largest portion of the transfers out (\$33.9 million) was to the Comprehensive Everglades Restoration Plan (CERP) Fund, representing the General Fund's 2004 contribution for CERP. Other transfers out from the General Fund were for scheduled capital improvement funding and for the annual funding for water supply and non-capital outlay contributions for Everglades restoration.

Total revenues in the General Fund increased \$16.6 million over the prior year. This increase is composed mainly of an increase in property tax revenues of \$15.4 million, due to new construction and to the increase in the assessed value of existing property within the District.

The Okeechobee Basin SR fund accounts for operating expenditures within the 15-county area designated as the Okeechobee Basin. The fund balance of the Okeechobee Basin SR fund increased by \$12.0 million during the current fiscal year. Revenues exceeded expenditures by \$59.8 million. Net transfers out totaled \$49.1 million. The largest portion of the transfers out (\$29.2 million) was to the Comprehensive Everglades Restoration Plan (CERP) Fund, representing the Okeechobee Basin SR Fund's contribution for CERP. Other transfers out from the Okeechobee Basin SR fund were for scheduled capital improvement funding and for non-capital outlay contributions for Everglades restoration.

Total revenues in the Okeechobee Basin SR fund increased by \$15.0 million over the prior year. This increase resulted from an increase in property tax revenues of \$15.0 million, due to new construction and to the increase in the assessed value of existing property within the District.

The State Appropriations fund accounts for expenditures made for various projects utilizing state sources. In recent years the state has advanced funds to the District for major long-term projects, such as flood mitigation and restoration of various water bodies. During fiscal year 2004, the fund balance of the State Appropriations fund decreased by \$18.7 million. The District spent \$20.4 million in 2004, and received advances from the state of only \$1.5 million. In 2003, state advances totaled \$33.3 million. The drop in state advances contributed to the decrease in the fund balance for the current year.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2004

The Everglades Trust Fund accounts for capital expenditures to construct six stormwater treatment areas (STAs) to cleanse stormwater runoff from the Everglades Agricultural Area (EAA). In addition, an annual transfer out is made to cover the operations and maintenance costs of the STAs as they are completed. During fiscal year 2004, the fund balance of the Everglades Trust Fund increased by \$11.0 million. Revenues exceeded expenditures by \$19.9 million. A reduction in the capital outlay spending of \$25.2 million during the current year caused the fund balance to increase for the year.

The transfers out of the Everglades Trust Fund increased by \$2.0 million during the fiscal year, as expenditures related to the operating costs of the STAs rose.

The Comprehensive Everglades Restoration Plan (CERP) fund accounts for expenditures associated with the plan for the restoration, protection, and preservation of the water resources of central and southern Florida, including the Everglades. This fund receives most of its resources from property taxes via transfers from the General fund and the Okeechobee Basin SR fund. During fiscal year 2004, the fund balance of the CERP fund increased by \$6.7 million, which is close to the amount by which net transfers in (\$76.9 million) exceeded the expenditures (\$72.8 million). The main cause for the increase in fund balance is the reduction in expenditures in fiscal year 2004 over 2003 (\$18.5 million).

Capital outlay expenditures in the CERP fund decreased from \$54,429,110 in fiscal year 2003 to \$14,560,935 in fiscal year 2004. The vast majority of the increase in capital outlay during 2003 was to acquire land needed to implement the CERP program. Additionally, non-capital outlay expenditures increased by \$16.5 million, mostly in the area of Water Resources, which increased from \$33.5 million in fiscal year 2003 to \$51.0 million in fiscal year 2004. Much of the increase in Water Resources expenditures was for planning and program design services needed for this important project.

The Save Our Everglades fund accounts for expenditures for the Comprehensive Everglades Restoration Plan that are funded from the Florida Save Our Everglades Trust Fund. The fund balance of the Save Our Everglades fund decreased by \$7.5 million in fiscal year 2004. The largest portion of this decrease was due to an increase in capital outlay spending of \$68.2 million in 2004 compared to 2003. Additionally, net transfers in decreased by \$5.8 million from 2003.

GENERAL FUND BUDGETARY HIGHLIGHTS

Expenditures in the final amended General Fund budget were \$398,736 less than the original budget. This decrease in expenditures was the net change from three transactions. The first transaction reduced budgeted managerial reserve expenditures and increased transfers out by \$1,146,736 to provide funding for land purchases in the Save Our Rivers CP Fund. The second transaction reduced budgeted transfers out and increased managerial reserve expenditures by \$810,000 to provide funding for non-CERP activities. The third transaction reduced budgeted managerial reserve expenditures and increased transfers out by \$62,000 to provide funding resources in the Save Our Rivers CP Fund.

At the end of the fiscal year, the General Fund's budget for Water Resources showed that \$6.5 million in appropriations were left unspent. Most of the unexpended budget was to be used for contractual services in the areas of Water Supply and Environmental Monitoring and Assessment. Contracts for the projects in these areas, totaling over \$5 million, were encumbered at year end and work on them will resume in fiscal year 2005.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2004**

The General Fund's budget for Corporate Resources left \$5.2 million in unused appropriations. Over \$3.6 million in contracts were encumbered but not completed in the areas of Finance and Administration and Information Technology. The unused portions of these contracts were for such items as training for the new accounting software, building and grounds maintenance, and maintenance of the existing computer hardware. Unused amounts that were encumbered at year end will be available to complete these projects in the following year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

The District's investment in capital assets as of September 30, 2004 amounts to \$2.42 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, water control structures, and construction in process.

Major capital asset events during the current fiscal year included the following:

- Land purchases funded by the Save Our Rivers program totaled \$33.1 million.
- Land purchased from Palm Beach Aggregates totaled \$60.6 million. This land, currently being used as a commercial rock mine, will be able to store up to 47,000 acre-feet of water as part of the Comprehensive Everglades Restoration Plan.
- Land purchases funded by the Save Our Everglades Trust Fund totaled \$123.3 million.

	Capital Assets (net of depreciation)	
	2004	2003
Land	\$1,618,478,672	\$1,408,013,317
Canals and Levees	399,310,358	374,975,103
Buildings	44,493,289	45,167,609
Equipment	33,308,766	37,244,704
Improvements	6,965,719	6,875,665
Water Control Structures	169,505,683	146,790,179
Construction in Process	145,037,140	151,837,440
Total	\$2,417,099,627	\$2,170,904,017

Additional information on the District's capital assets can be found in note 8 on page II-35 of this report.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2004**

LONG-TERM DEBT ADMINISTRATION

At the end of the 2004 fiscal year, the District had total bonded debt outstanding of \$63,530,000, composed solely of Special Obligation Land Acquisition Bonds Series 1995, Series 2002 and Series 2003. Documentary stamp tax revenues provided through the State of Florida's Water Management Lands Trust Fund secure the repayment of this debt.

Long-term Debt Outstanding		
	2004	2003
Special Obligation Land Acquisition Bonds	\$63,530,000	\$65,555,000
Bank Loans	16,329,476	26,888,088
Total	\$79,859,476	\$92,443,088

Including bank loans, the District's total debt decreased by \$12.6 million (13.6 percent) during the current fiscal year. This decrease resulted mainly from the principal repayment of \$10.6 million on the District's bank loans during the fiscal year and no new bonds or bank loans for the current year.

The District has an insured credit rating of 'Aaa' for its outstanding bonds from Standard and Poor's.

During the 1990s, the District made a commitment to the citizens of south Florida to operate in accordance with sixteen guiding principles designed to achieve and maintain the highest standards of fiscal accountability. Included in the District's *Principles of Sound Financial Management* are benchmarks dedicated to prudent debt management. The District has historically maintained the following self-imposed debt limit ratios and has continued to comply with them during the current fiscal year:

- Our net debt per capita ratio cannot exceed \$50.
- Our ratio of debt service to total general governmental expenditures cannot exceed 15%.
- Our debt to capital ratio cannot exceed 30%.

Additional information about the District's long-term debt can be found in Note 9 on pages II-36 through II-38 of this report.

LONG -TERM CONSTRUCTION COMMITMENTS

The **Everglades Construction Project (ECP)** is the first major step in Everglades restoration pursuant to the Everglades Forever Act (EFA), passed by the Florida Legislature in 1994. The EFA directs the District to acquire land, design, permit, and construct a series of Stormwater Treatment Areas (STAs) to reduce phosphorus levels from stormwater runoff and other sources before it enters the Everglades Protection Area. These six large constructed wetlands, totaling over 47,000 acres, are the cornerstone of the ECP.

The District has expended \$595 million on the Everglades Construction Project through fiscal year 2004. The total cost associated with implementing the 1994 ECP is shared among the District, state and federal governments, and the agricultural community. Funding is mainly provided by a one-tenth mill tax levy, and an agricultural privilege tax on landowners in the Everglades Agricultural Area.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2004

The **Kissimmee River Basin Restoration** is a massive project that includes converting the Kissimmee River and adjacent lands back to a more natural state. This involves restoring 43 miles of the historic river and approximately 40 square miles of river/floodplain ecosystem.

The state and federal governments will split the estimated \$500 million cost to restore the river. The U.S. Army Corps of Engineers is responsible for the construction and the design of the restoration. The District has purchased approximately 93,500 acres needed for the restoration, including land around the up-river lakes, to hold more water.

The **Comprehensive Everglades Restoration Plan (CERP)** is the plan for the restoration, protection, and preservation of the water resources of central and southern Florida, including the Everglades. Principal features of the plan are the creation of approximately 217,000 acres of new reservoirs and wetlands-based water treatment areas. These features will vastly increase storage and water supply for the natural system, as well as for urban and agricultural needs. The CERP is intended to restore a more natural flow of water, improve water quality and restore a more natural hydroperiod in the South Florida ecosystem.

Through the Water Resources Development Act of 2000, Congress has authorized an initial \$1.4 billion package of projects that will begin implementation of the Comprehensive Plan. The initial authorization includes (1) four pilot projects, (2) ten specific project features, and (3) a programmatic authority through which smaller projects can be more quickly implemented.

Implementation of the Comprehensive Everglades Restoration Plan is estimated to cost \$8.4 billion, half of which will be paid by the federal government. The State of Florida will provide one-fourth of the total cost, and the South Florida Water Management District and various local agencies in south Florida will provide one-fourth of the total cost.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The District relies on property taxes for the largest portion of its budget. Taxable property value within the District increased by 13.0 percent from January 2003 (\$507 billion) compared with January 2004 (\$573 billion). The increase in property values was due to new construction as well as higher assessed values for existing property.
- The unemployment rate for the District as of September 2004 is 5.4%, which is a decrease from a rate of 6.4% of a year ago. The District's unemployment rate has historically been higher than that of the state of Florida (currently 4.7%) and the nation (currently 5.1%) due to higher than average unemployment rates in some of the District's rural counties.

The above factors were considered in preparing the District's budget for the 2005 fiscal year.

During the current fiscal year, unreserved fund balance in the general fund increased to \$28.5 million. The District has appropriated \$9.7 million of this amount for spending in the fiscal year 2005 budget.

Requests for Information

The District's basic financial statements are designed to present users (citizens, customers, investors and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have questions about the report or need additional financial information, contact the District's Director of Accounting and Financial Services at P.O. Box 24680, West Palm Beach, Florida 33416-4680.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2004**

Net change in fund balances - total governmental funds		(39,382,863)
Amounts reported for governmental activities in the statement of activities are different because:		
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.</p>		
Expenditures for capital assets	263,607,507	
Less current year depreciation	<u>(17,411,897)</u>	246,195,610
<p>Repayment of borrowed principal from bonds, bank loans and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.</p>		
Bonds principal payment	2,025,000	
Bank loan principal payments	10,558,228	
Capital leases principal payments	<u>1,405,367</u>	13,988,595
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Revenues relating to the 'FEMA' receivable are shown in the government-wide statements, but do not meet the availability criteria to be shown as revenues in the governmental funds.</p>		
Change in land purchase payable	(22,253,341)	
Change in long-term compensated absences	(1,308,000)	
Change in long-term self-insurance claims payable	(24,893)	
Change in other claims payable	1,034,359	
Bond interest payable at September 30, 2004	(1,322,216)	
Bond interest payable at September 30, 2003	565,899	
Amortization of deferred interest on 2002 bonds	(144,637)	
Amortization of deferred interest on 2003 bonds	(136,131)	
Amortization of discount on 2002 bonds	(7,911)	
Amortization of premium on 2003 bonds	205,052	
Amortization of cost of issuance on 2002 bonds	(32,388)	
Amortization of cost of issuance on 2003 bonds	(50,682)	
Revenues relating to 'FEMA' receivable	<u>2,000,000</u>	(21,474,889)
<p>The issuance of debt is reported as a financing resource in governmental funds and thus contributes to the change in fund balance. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities.</p>		
Debt Issued:		
Capital lease made during the fiscal year	<u>(1,399,426)</u>	<u>(1,399,426)</u>
Change in net assets of governmental activities		<u><u>\$197,927,027</u></u>

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(1) DESCRIPTION OF THE SOUTH FLORIDA WATER MANAGEMENT DISTRICT

The South Florida Water Management District (the District) is a public corporation organized under Florida Statutes, Chapter 373, and is controlled by a Governing Board consisting of nine members appointed by the Governor to staggered four-year terms.

The District covers all or parts of sixteen counties in Central and Southern Florida. The primary objectives of the District are to promote the natural systems protection and restoration, development and proper utilization of surface and ground water within District boundaries and to prevent damage from floods, soil erosion and excessive drainage. To accomplish these objectives, the District is empowered to manage and regulate the usage and storage of water within District boundaries and to acquire properties and construct facilities as necessary. The District works in concert with the State of Florida (the State) and agencies of the federal government to accomplish the previously described water management objectives.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements conform to accounting principles generally accepted in the United States of America (GAAP) for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. The more significant accounting policies are summarized in the following paragraphs.

(a) Reporting Entity

The District follows the standards promulgated by GASB Statement No. 14, *The Financial Reporting Entity*, to define the reporting entity. The financial statements include all operations over which the District is financially accountable. The District has not identified any component units and is not a participant in any joint venture.

The District is a component unit of the State of Florida. The State provides funding for District programs through the sale of State debt, the sharing of documentary stamp revenues, and the approval of various annual grants and entitlements.

(b) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers property tax revenues to be available if they are collected within sixty days of the end of the current fiscal period. A one-year availability period is used for all other revenues.

Revenues susceptible to accrual are property taxes, interest on investments, and intergovernmental revenues. Property taxes are recorded as revenues in the fiscal year in which they are levied, provided they are collected in the current period or within sixty days thereafter. Interest on invested funds is recognized when earned. Intergovernmental revenues that are reimbursements for specific purposes or projects are recognized when all eligibility requirements are met.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

(d) Major Funds

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The Okeechobee Basin SR Fund accounts for the normal operating expenditures of the Okeechobee Basin, an area covering all or part of fifteen counties in South Florida. Funding is provided by a .313 mill property tax levy, intergovernmental revenues, permitting fees and interest earnings.

The State Appropriations Fund accounts for expenditures made for various projects utilizing state sources. Among the funding sources are the Surface Water Improvement and Management (SWIM) Fund, the Water Management Lands Trust Fund, and various state agencies.

The Everglades Trust Fund accounts for capital expenditures to construct six stormwater treatment areas to cleanse stormwater runoff from the Everglades Agricultural Area (EAA) through naturally occurring biological and physical processes. Additional objectives include hydroperiod restoration and water supply. Funding is provided through a .100 mill tax levy, non-ad valorem assessments to property owners in the EAA, State and Federal contributions, and interest earnings.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Major Funds (continued)

The Comprehensive Everglades Restoration Plan (CERP) Fund accounts for revenues and expenditures associated with projects included in the Central and Southern Florida (C&SF) Restudy and which form the basis of the CERP. These projects are designed to increase the availability of water supplies for consumptive use or cost share with the federal government on regional projects intended to mitigate consequences that are an outgrowth of the original Central and Southern Florida Flood Control Project. Funding is provided by operating transfers from the General Fund and the Okeechobee Basin SR Fund.

The Save Our Everglades Fund accounts for revenues and expenditures for the Comprehensive Everglades Restoration Plan that is funded from the state's Save Our Everglades Trust Fund.

The Comprehensive Everglades Restoration Plan (CERP) – Other Creditable Funds Fund Accounts for revenues received from and expenditures funded through various sources for the Comprehensive Everglades Restoration Plan. This excludes revenues and expenditures from federal sources, district ad-valorem property tax sources, and the state's Save Our Everglades Trust Fund.

(e) Budgetary Information

The District has elected to report budgetary comparisons as required supplementary information (RSI). Please refer to the accompanying notes to the RSI for the District's budgetary information on page II-56.

(f) Cash and Investments

The District utilizes pooled cash accounting whereby excess monies are aggregated for investment purposes. Negative cash balances in individual funds are reported as interfund payables with offsetting receivables recorded in loaning fund(s). Cash includes currency on hand and demand deposits.

The District's investment policy authorizes investments in (1) the Florida Local Government Surplus Fund Trust Fund (SBA), (2) United States government securities unconditionally guaranteed by the full faith and credit of the United States government, (3) United States government agencies backed by the full faith and credit of the United States government, (4) United States government sponsored agencies, (5) Interest bearing time deposit or savings accounts of Florida Banks and Savings and Loan Associations approved under Chapter 280, Florida Statutes, (6) Commercial paper rated "Prime 1" by Moody's and "A1" by Standard and Poor's, (7) Corporate notes rated at a minimum "Aa" by Moody's and "AA" by Standard and Poor's, (8) Bankers Acceptances rated at a minimum "P-1" by Moody's and "A-1" by Standard and Poor's, (9) State and Local government taxable and/or tax exempt debt rated at least "Aa" by Moody's and "AA" by Standard and Poor's for long term debt or rated at least "MIG-1" by Moody's and "SP-1" by Standard and Poor's for short-term debt, (10) Money market mutual funds which are invested in United States Treasury Securities or United States government agency securities, (11) Master Repurchase Agreements collateralized by United States government securities, and (12) Reverse Repurchase Agreements.

As of September 30, 2004, the District had placed the largest portion of its investments in U.S. Agency Obligations. Most of the remaining portion of the investment pool was kept with the Local Government Surplus Funds Trust Fund. This is a highly liquid investment pool available for investing temporarily idle cash by Florida governments and is managed by the State Board of Administration (SBA). In order to accommodate pool participants with readily available cash, a substantial portion of the portfolio is placed in short term securities. According to the SBA, the pool met the criteria to be considered as "2a-7 like", as defined by GASB Statement No. 31. Accordingly, the fund has been reported at the same value as the pool shares allocated to the District.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Local Government Surplus Funds Trust Fund is governed by the rules of Chapter 19-7 of the Florida Administrative Code. These rules provide guidance and establish the general operating procedures for the Administration of the Local Government Surplus Funds Trust Fund. Additionally, the Office of the Auditor General performs the operational audit of the activities and investments of the SBA.

The District's investment portfolio is valued based on a blend of third party market pricing services such as 'FISERV' and 'BLOOMBERG'.

During the year, the District did not directly invest any resources in derivatives. Investments made through State-administered trust funds include derivatives. These investments are made on a pooled basis and the individual risk to the District is unknown.

The District entered into a reverse repurchase agreement with SunTrust Capital Markets during the year as authorized by Florida Statutes and the District's approved investment policy. A reverse repurchase agreement is a sale of securities to a buyer-lender with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. Prior to the end of the fiscal year, the District repaid the buyer-lender and reacquired the securities.

(g) Inventory

Inventory is stated at average cost and consists of fuel, chemicals and supplies held for consumption. The cost is recorded as expenditure at the time individual inventory items are consumed.

(h) Capital Assets

Capital assets, which include land, buildings, equipment, vehicles and infrastructure assets (bridges, water control structures, canals and levees), are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$500 or more and an estimated useful life of one year or more. Items purchased or acquired are reported at historical cost or estimated historical cost. Donated assets are recorded at their estimated fair market value on the date donated. Maintenance, repairs and minor renovations are not capitalized. The acquisition of land and construction projects utilizing resources received from Federal and State agencies are capitalized when the related expenditure is incurred

Expenditures that materially increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement, the costs and their related accumulated depreciation are eliminated from the respective accounts.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	10-40
Improvements Other Than Buildings	12-20
Equipment	5-25
Vehicles	5-15
Water Control Structures	25-50

Canals and levees are considered to be land improvements and therefore are not depreciated.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Compensated Absences

District employees are granted a specific number of vacation and sick leave days with pay. Non-management employees are permitted to accumulate a maximum of 360 hours (45 days) of vacation as of December 31. Managers are permitted to accumulate a maximum of 480 hours (60 days) of vacation as of December 31. Excess time is forfeited if not used within 30 days after the end of the calendar year. Employees are reimbursed upon termination for a percentage of unused sick leaves after at least 10 years of service. The costs of vacation and sick leave benefits (compensated absences) are budgeted and expended in the respective operating funds when payments are made to employees. However, the liability for all accrued and vested vacation and sick leave benefits plus sick leave benefits expected to become vested is recorded in the government-wide financial statements.

(j) Wetlands Mitigation

The District manages a program for mitigating the impact of wetland destruction through a specialized regulatory permit process. Permit applicants are required to remit a specified cash payment to the District as part of the permit conditions. The permit restricts the use of the funds received by the District to land acquisition, land restoration and long-term management of the lands in areas managed by the District that are near the lands being developed by permittees. The District accounts for the money received to assure it is used only for the approved purpose in the assigned area. Funds received for land acquisition and restoration (expendable) are placed in the Wetlands Mitigation SR Fund. Funds received for long-term management (nonexpendable) are placed in the Wetlands Mitigation Permanent Fund.

(k) Fund Balances

In the fund financial statements, reservations of fund balance are reported to indicate that a portion of fund balance is not available for appropriation for expenditure or is legally segregated for a specific purpose. Designations of fund balance identify tentative plans for the future use of financial resources. The undesignated fund balance is available for future appropriation.

(l) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(3) CASH AND INVESTMENTS

In accordance with GASB Statement No. 3, certain investments are categorized to give an indication of the level of credit (not market) risk assumed by the District at September 30, 2004, based on various investment categories as to how securities are registered, insured or where held in custody. These credit risk categories are:

- (1) Insured or registered investments or securities held by the District or held by the District's agent in the District's name.
- (2) Uninsured or unregistered investments for which the securities are held by the counterparty or by its trust department or agent in the District's name.
- (3) Uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent, but not in the District's name.

Cash and investments as of September 30, 2004 are composed of the following:

	Investment Category			Total
	Category 1	Category 2	Category 3	
Investments Held by District:				
U.S. Agency Obligations	\$272,845,473	-	-	\$272,845,473
Investments in Local Government Surplus Funds Trust Fund				30,444,574
Cash Deposits:				
Money Market Accounts				8,010,080
Demand Deposit Accounts (Float)				(2,293,572)
Total Cash Deposits				5,716,508
Petty Cash				77,025
Total Cash Deposits and Petty Cash				5,793,533
Total Cash and Investments				\$309,083,580

The money market account balance of \$8,010,080 was collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the District's name. The demand deposit account balance was \$3,474,116 according to the bank statements and was covered by Federal depository insurance or was insured through the State of Florida "qualified" public depository collateral pool.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(4) ACCOUNTS RECEIVABLE

Accounts receivable at September 30, 2004 consist of the following:

	General Fund	Okeechobee Basin SR Fund	State Appropriations Fund	Everglades Trust Fund	Comprehensive Everglades Restoration Plan
FPL	\$ -	\$ -	\$ -	\$ -	\$ -
Leases	6,408	6,300	-	-	-
Permits	-	-	-	-	-
Interest	375,825	477,947	158,890	232,511	2,193
Other	8,093	-	-	-	-
Allowance	-	-	-	-	-
	<u>\$390,326</u>	<u>\$484,247</u>	<u>\$158,890</u>	<u>\$232,511</u>	<u>\$2,193</u>

	Other Funds	Total
FPL	\$4,000,000	\$4,000,000
Leases	510,650	523,358
Permits	91,692	91,692
Interest	453,464	1,700,830
Other	-	8,093
Allowance	(4,505,807)	(4,505,807)
	<u>\$549,999</u>	<u>\$1,818,166</u>

The receivable from FPL (Florida Power & Light Co.) represents amounts owed by the electric utility under contract with the District. The contract provides funding to respond to any water quality or other environmental effects that may occur when the utility constructs a power line through water conservation areas under the control of the District. Receivables for permits represent unpaid invoices sent to permittees under the District's wetlands mitigation program. An allowance for doubtful accounts has been recorded against these receivables until permit contingencies are resolved.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(5) INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivables and payables as of September 30, 2004 are as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$147,178	\$ -
Okeechobee Basin SR	13,037,679	-
Comprehensive Everglades Restoration Plan (CERP)	9,052,681	-
Save Our Everglades	-	9,052,681
Comprehensive Everglades Restoration Plan (CERP) -- Other Creditable	-	6,128,252
Other Funds	-	7,056,605
	<u>\$22,237,538</u>	<u>\$22,237,538</u>

These balances resulted from loans made by the General Fund, Okeechobee Basin SR Fund, and the CERP Fund to cover temporary cash shortages in the other funds.

Interfund transfers during the year are as follows:

	<u>Transfers In</u>		
	<u>General</u>	<u>Okeechobee Basin SR</u>	<u>Comprehensive Everglades Restoration Plan</u>
Transfers Out:			
General	\$ -	\$ -	\$33,933,757
Okeechobee Basin SR	-	-	29,219,797
Everglades Trust Fund	-	-	-
Comprehensive Everglades Restoration Plan	-	-	-
Save Our Everglades	-	-	9,750
Other Funds	88,369	132,553	14,062,172
Total Transfers Out	<u>\$88,369</u>	<u>\$132,553</u>	<u>\$77,225,476</u>

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(5) INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (Continued)

	Transfers In (Continued)	
	Other Funds	Total Transfers In
Transfers Out (Continued):		
General	\$11,724,440	\$45,658,197
Okeechobee Basin SR	19,876,224	49,096,021
Everglades Trust Fund	8,902,236	8,902,236
Comprehensive Everglades Restoration Plan	357,851	357,851
Save Our Everglades	30,000	39,750
Other Funds	27,961,164	42,244,258
Total Transfers Out	\$68,851,915	\$146,298,313

The majority of transfers are used to account for the District's required share of funding for Everglades restoration in accordance with the Comprehensive Everglades Restoration Plan. Other transfers are to reimburse funds for expenditures made on behalf of the paying funds.

(6) PROPERTY TAXES

The District is permitted by Florida Statutes to levy taxes up to .800 mills per \$1,000 of assessed valuation. The rate levied for a majority of the District for fiscal year 2004 was .697 mills. Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for real and personal property located within the District. The assessed value at January 1, 2003, upon which the fiscal year 2004 levy was based, was approximately \$507 billion.

A four percent discount is allowed if the taxes are paid in November, with the discount declining by one percentage point each month thereafter. Taxes become delinquent April 1 of each year. Delinquent property tax certificates are sold to the public beginning June 1, at which time a lien attaches to the property. By fiscal year end, virtually all property taxes are collected either directly or through tax certificate sales. Property tax revenues are recorded by the District based on the amount of receipts reported by the county tax collectors. Property taxes receivable from the county tax collectors at September 30, 2004 and included in tax revenues are \$795,285.

	<u>\$239,710,993</u>	<u>\$75,447,170</u>	<u>\$ (65,717,735)</u>	<u>\$249,440,428</u>	<u>\$47,116,077</u>

Special Obligation Land Acquisition Bonds are issued by the District to provide funds for the acquisition of environmentally sensitive lands. Principal and interest on the Land Acquisition Bonds are secured by a lien on documentary stamp excise taxes collected statewide by the State of Florida and allocated to the State's five water management districts through the Water Management Lands Trust Fund. The District accounts for debt service transactions in the Save Our Rivers SR Fund.

A summary of the status of the District's bonded debt as of September 30, 2004 is shown below:

Issue	Original Amount	Fiscal Year Maturity	Interest Rates	Remaining Balance
1995 Refunding	17,975,000	2005-2007	4.80-5.00%	5,170,000
2002 Refunding	23,810,000	2005-2016	2.00-4.00%	23,810,000
2003 Refunding	<u>34,550,000</u>	2005-2016	2.00-5.25%	<u>34,550,000</u>
	<u>\$76,335,000</u>			<u>\$63,530,000</u>

Fiscal year requirements to amortize bonded debt outstanding as of September 30, 2004 are as follows:

	Principal	Interest	Total
2005	\$3,260,000	\$2,583,429	\$5,843,429
2006	4,500,000	2,444,126	6,944,126
2007	4,660,000	2,303,401	6,963,401
2008	4,785,000	2,143,086	6,928,086
2009	4,975,000	1,940,171	6,915,171
2010-2014	28,245,000	6,282,251	34,527,251
2015-2016	<u>13,105,000</u>	<u>634,738</u>	<u>13,739,738</u>
	<u>\$63,530,000</u>	<u>\$18,331,202</u>	<u>\$81,861,202</u>

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(9) LONG-TERM LIABILITIES (continued)

During previous fiscal years, the District entered into agreements with commercial banks to provide long-term financing for a major land purchase and for various capital projects.

A summary of the status of the District's outstanding bank loans at September 30, 2004 is shown below:

Issue	Original Amount	Fiscal Year Maturity	Interest Rates	Remaining Balance
1998	\$10,000,000	2005	3.37%	1,416,496
2000	10,000,000	2005-2007	4.99%	4,710,615
2002	9,000,000	2005-2008	3.57%	5,375,375
2003	2,827,374	2005-2011	4.30%	2,827,374
2003	<u>2,000,000</u>	2005-2011	2.83%	<u>2,000,000</u>
	<u>\$33,827,374</u>			<u>\$16,329,860</u>

Fiscal year requirements to amortize the bank loans as of September 30, 2004 are as follows:

	Principal	Interest	Total
2005	\$4,872,980	\$612,763	\$5,485,743
2006	3,577,803	417,919	3,995,722
2007	3,704,587	265,334	3,969,921
2008	2,105,615	128,578	2,234,193
2009	689,625	64,539	754,164
2010-2011	<u>1,379,250</u>	<u>51,674</u>	<u>1,430,924</u>
	<u>\$16,329,860</u>	<u>\$1,540,808</u>	<u>\$17,870,667</u>

During fiscal year 2003, the Governing Board approved the purchase of a major land acquisition known as **Palm Beach Aggregates**. The property is a commercial rock mine that is planned to be used to store water as part of the **Comprehensive Everglades Restoration Plan** described in Note 16. The District has taken title to the property but will allow the rock mining operation to continue to completion based on an agreed-upon schedule for surrender of storage volume.

Under the original agreement the District's total cost of the acquisition was \$157 million, to acquire storage volume of up to 31,500 acre-feet of water. During fiscal year 2004, the agreement was amended. Under the amended agreement the District will pay a total of \$217,581,500 to acquire total storage volume of up to 47,000 acre-feet of water. All payments will be made by the Save Our Everglades Fund.

A schedule of the remaining payments is shown below:

2005	\$34,288,111
2006	22,428,571
2007	37,460,071
2008	<u>40,219,445</u>
	<u>\$134,396,198</u>

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(9) LONG-TERM LIABILITIES (continued)

The liability for compensated absences is generally liquidated by the General fund and the Okeechobee Basin SR fund. The liability for claims and judgments (which is identified in the schedule of long-term liabilities as "other liabilities") is generally liquidated by the General fund.

(10) DEFICIT FUND BALANCES

At September 30, 2004, the following funds have a deficit fund balance:

Save Our Rivers Capital Projects Fund	\$ 5,526,578
Save Our Everglades Capital Projects Fund	434,924
Comprehensive Everglades Restoration Plan- Federal Sources Capital Projects Fund	12,844
Comprehensive Everglades Restoration Plan- Other Creditable Capital Projects Fund	1,022,540

These deficits are expected to be covered by future reimbursements from the State of Florida, the federal government and operating transfers from the Okeechobee Basin Special Revenue fund.

(11) OPERATING LEASES

The District is committed under various operating leases for building, office space and data processing equipment. Lease expenditures for the year ended September 30, 2004 amounted to \$990,213. Future minimum lease payments for these leases are as follows:

<u>Fiscal Year Ending September 30</u>	<u>Minimum Lease Payments</u>
2005	\$1,419,604
2006	922,983
2007	654,155
2008	650,963
2009	485,138
	<u>\$4,132,843</u>

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(12) CAPITAL LEASES

The District has lease agreements that qualify as capital leases for accounting purposes and have been recorded at the present value of their future minimum lease payments as of the inception date of the lease.

The following is a schedule of the District's future minimum lease payments under the capital leases, and the present value of the net minimum lease payments as of September 30, 2004:

<u>Fiscal Year Ending September 30</u>	<u>Minimum Lease Payments</u>
2005	\$1,395,830
2006	1,020,700
2007	816,307
2008	<u>322,208</u>
Total minimum lease payments	3,555,045
Less: Amount representing interest	<u>(181,682)</u>
Present value of future minimum lease payments	<u><u>\$3,373,363</u></u>

(13) DEFINED BENEFIT PENSION PLAN

Plan Description: The District contributes to the Florida Retirement System (the System), a cost-sharing multiple-employer defined benefit pension plan administered by the State of Florida Division of Retirement. The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Florida Legislature established the System under Chapter 121, Florida Statutes, and has sole authority to amend benefit provisions. Each year the System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Florida Department of Management Services, Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida 32399-1560.

Funding Policy: The System is non-contributory for employees and the District is required to contribute an actuarially determined rate. During the fiscal year the rate was 7.5 % of annual covered payroll. The contributions of the District are established and may be amended by the State Legislature. The District's contributions to the System for the years ending September 30, 2004, 2003, and 2002 were \$7,316,800, \$5,943,077, and \$6,425,711, respectively, equal to the required contributions for each year.

(14) INSURANCE ACTIVITIES

The District is exposed to the various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. In 1976 the District established a self-insurance program for its workers' compensation exposure. The District is totally self-insured for workers' compensation claims. In 1986 the District established a self-insurance program for automobile and general liability claims. The District's financial exposure for automobile and general liability is limited to \$100,000 per person and \$200,000 per occurrence pursuant to Section 768.28, Florida Statutes. The District transfers its risk for personal and real property through the purchase of an insurance policy. The coverage is written on a 100% replacement/stated value basis, with varying retentions. The District fully insures its liability for employee and retiree medical benefits. Settled claims have not exceeded the amount of commercial coverage or the legally defined liability limits in any of the past three fiscal years.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(14) INSURANCE ACTIVITIES (continued)

The self-insurance program is accounted for in the General Fund. Expenditures relating to insurance are charged to other funds based on a cost allocation study. These expenditures include actuarial estimates utilizing the Casualty Actuarial Society Statement of Principles Regarding Property and Casualty Loss and Loss Adjustment Expense. The actuarial figures are utilized to determine the amounts needed to pay prior and current year claims and to establish a reserve for catastrophe losses and for losses incurred but not reported (IBNR) at year end.

The total estimated liability as of September 30, 2004 is \$6,591,108 and is presented on a discounted basis using an expected investment yield of 4.0%. Changes in the Fund's claims liability amount for the current and prior fiscal years are summarized below:

<u>Fiscal Year</u>	<u>Beginning Liability</u>	<u>Current Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Ending Liability</u>
2003	\$6,326,720	\$1,707,745	\$1,468,250	\$6,566,215
2004	6,566,215	1,841,822	1,816,929	6,591,108

(15) COMMITMENTS – CONDEMNATION PROCEEDINGS

The District is party to numerous lengthy condemnation proceedings (as plaintiff) and inverse condemnation proceedings (as defendant or co-defendant) regarding the taking of private lands throughout the District for public use. The court may rule there was no taking of land by the District resulting in no commitment to the District. Where a taking is ruled, the court determines the value of the land claimed by the owner and payment is made to the owner upon transfer of title to the District.

At September 30, 2004, the court has yet to rule on a number of proceedings for which the land value and title transfer date is undetermined. The District's estimated future commitment for the purchase price of these lands (including attorneys' fees, interest, and other costs) is approximately \$173 million.

Should the court rule there is no taking of land or that the value of the land claimed by the owners is lower than the amounts claimed, the estimated future purchase commitment will vary. When the court rules there is a taking, the District will budget and appropriate funds to pay for the purchase of the land.

(16) MAJOR CONSTRUCTION COMMITMENTS

The **Everglades Construction Project (ECP)** is the first major step in Everglades's restoration pursuant to the Everglades Forever Act (EFA), passed by the Florida Legislature in 1994. The ECP is one of the largest public works projects in the nation for environmental restoration, estimated to cost approximately \$836 million over 20 years. The District has expended \$595 million on the Everglades Construction Project through fiscal year 2004. The total cost associated with implementing the 1994 ECP is shared among the District, state and federal governments, and the agricultural community. Major funding sources for the EFA include ad valorem property taxes (one-tenth mill tax levy), agricultural privilege taxes, state land funds, federal funds, Alligator Alley toll revenues, and other environmental mitigation funds.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

(16) MAJOR CONSTRUCTION COMMITMENTS (continued)

The EFA directs the District to acquire land, design, permit, and construct a series of Stormwater Treatment Areas (STAs) to reduce phosphorus levels from stormwater runoff and other sources before it enters the Everglades Protection Area. The STAs, which consist of six large constructed wetlands totaling over 47,000 acres, are the cornerstone of the ECP.

In 2003, the Florida Legislature amended the EFA to expand and extend the use of the District's one-tenth mill ad valorem property tax levy, agricultural privilege taxes and other funding sources for implementing the Everglades "long-term plan." Also in 2003, the State Environmental Regulation Commission approved a numeric water quality standard "phosphorus criterion" of 10 parts per billion (ppb) for the Everglades.

Five of the STAs are operational in over 30,000 acres of effective treatment area. During the last year, the STAs removed over 87 tons of phosphorus that otherwise would have entered the Everglades. To date, the STAs have removed 425 tons of phosphorus. In addition, best management practices by landowners in the Everglades Agricultural Area have removed over 1,300 tons of phosphorus over the past nine years.

The restoration of the **Kissimmee River Basin** is a massive project that includes converting the Kissimmee River and adjacent lands back to a more natural state. This involves restoring 43 miles of the historic river and approximately 40 square miles of river/floodplain ecosystem.

The state and federal governments will split the estimated \$500 million cost to restore the river. The U.S. Army Corps of Engineers is responsible for the construction and the design of the restoration. The District has purchased approximately 85% of the estimated 110,000 acres needed to complete the project.

The **Comprehensive Everglades Restoration Plan** (CERP) is the plan for the restoration, protection, and preservation of the water resources of central and southern Florida, including the Everglades. Principal features of the plan are the creation of approximately 217,000 acres of new reservoirs and wetlands-based water treatment areas. These features vastly increase storage and water supply for the natural system, as well as for urban and agricultural needs. The CERP is intended to restore a more natural flow of water, improve water quality and restore a more natural hydroperiod in the South Florida ecosystem.

Through the Water Resources Development Act of 2000, Congress has authorized an initial \$1.4 billion package of projects that will begin implementation of the Comprehensive Plan. The initial authorization includes (1) four pilot projects, (2) ten specific project features, and (3) a programmatic authority through which smaller projects can be more quickly implemented.

Implementation of the Comprehensive Everglades Restoration Plan is estimated to cost in excess of \$8 billion, half of which will be paid by the federal government. The State of Florida and the District, with other local agencies, will share the remaining half. To date, the District has expended \$797 million with \$618 million being spent for project land acquisition.

**SOUTH FLORIDA WATER MANAGEMENT DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2004**

(17) OTHER COMMITMENTS AND CONTINGENCIES

The District participates in several federal and state assistance programs that are subject to financial and program compliance audits. Such audits could lead to reimbursements to the grantor agency for disallowed expenditures. However, management believes such disallowances, if any, will be immaterial.

(18) HURRICANE ACTIVITIES

Due to a very active hurricane season, the District has incurred and recorded expenditures for hurricane related activities of approximately \$4.0 million, as of September 30, 2004. Although a final determination concerning the amount eligible for reimbursement has not been made, the District has recorded a receivable and revenue of \$2.0 million in the entity-wide statements representing the expected amount of 'FEMA' reimbursement.

Subsequent to September 30, 2004 the District incurred additional expenditures due to hurricane activities and is still accumulating final costs. Total estimated costs through February 25, 2004 were \$22.3 million. Some of these expenditures will be reimbursed in the future by 'FEMA' and the State of Florida, but these amounts are not determinable at this time.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2004

BUDGETARY INFORMATION

- Budgets are legally adopted for all funds and are adopted on a basis consistent with generally accepted accounting principles. The legal level of budgetary control, defined as the lowest level at which management may not reallocate resources without approval of the Governing Board, is at the major object level within a fund and department. Examples of major objects are personal services, operating expenditures (contractual services, inventory and supplies, travel, and utilities, etc.), capital outlay, and debt service.
- The accompanying budgetary data represent the original and the final amended budgets as approved by the Governing Board. One budget amendment was approved by the Governing Board during the fiscal year.
- For the year ended September 30, 2004, amendments to the General fund decreased budgeted expenditures by a total of \$398,736. Budgeted expenditures for the Okeechobee Basin SR fund decreased by \$3,296,341, and the State Appropriations fund had amendments that decreased budgeted expenditures by \$1,911,442.
- For the General fund, personal service expenditures exceeded the budget for Information Technology by \$479,593; for the Executive Office by \$32,997; for Human Resources by \$10,305; and for Ecosystem Restoration by \$8,232.
- For the Okeechobee Basin SR fund, personal service expenditures exceeded the budget by \$2,049,819 for all resource areas combined; and the overall operating expenditures exceeded the budget by \$146,930. These large spending variances compared to the budget were due to the three major hurricanes suffered by the region during the District's 2004 fiscal year.
- These over expenditures were funded by available fund balance.

FINANCIAL SECTION

OTHER SUPPLEMENTAL INFORMATION

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are maintained to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Big Cypress Basin SR Fund

Accounts for the normal operating expenditures of the Big Cypress Basin, an area covering all or part of two counties in Southwest Florida. Funding is provided by a .278 mill tax levy and interest earnings.

Save Our Rivers SR Fund

Accounts for expenditures made to manage and restore sensitive water resource lands within the District and to make the principal and interest payments on special obligation land acquisition bonds. Funding is provided by (1) a portion of documentary stamp tax revenues appropriated and allocated in the District's name and deposited in the Florida Water Management Lands Trust Fund administered by the State of Florida, (2) regulatory fines, and (3) interest earnings.

Aquatic Plant Control Fund

Accounts for expenditures made for aquatic plant control in the Kissimmee River and Upper Chain of Lakes. Funding is provided by the Florida Department of Environmental Protection.

Melaleuca Control Fund

Accounts for expenditures made for controlling the spread of melaleuca trees in environmentally sensitive areas. Funding is provided by the Florida Department of Environmental Protection.

Wetlands Mitigation Fund

Accounts for expenditures to create new wetlands or improve alternative existing wetlands due to the destruction of designated wetlands. Funding is provided by private and other governmental contributions as part of the required permit.

Indian River Lagoon Restoration Fund

Accounts for expenditures to enhance the environmental and scenic value of surface waters in the Indian River Lagoon. Funding is provided by sales of Indian River Lagoon license plates.

External Grants Fund

Accounts for revenues and expenditures related to grants that are received primarily for research purposes. This separate fund facilitates the detailed tracking of expenditures and/or cost share contributions.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Nonmajor Governmental Funds

Special Revenue Funds (continued)

Alternative Water Supply Fund

Accounts for expenditures associated with the development of alternate water supply facilities including aquifer storage and recovery and wastewater reuse technologies. Funding is provided by operating transfers from the General Fund.

Stormwater Treatment Areas Operations and Maintenance Fund

Accounts for expenditures made for the operations and maintenance of the Stormwater Treatment Areas (STAs) as required by the Everglades Forever Act. Funding is provided by operating transfers from the District's Everglades Trust Fund.

Everglades Restoration Fund

Accounts for expenditures made for research and monitoring activities in the Stormwater Treatment Areas. Funding was provided by operating transfers from the General Fund and the Okeechobee Basin SR Fund. This fund was closed in fiscal year 2004.

Lake Belt Mitigation Fund

Accounts for revenues and expenditures associated with Chapter 373.4249(2), Florida Statutes, which requires mitigation from impacts resulting from rock mining in the Lake Belt area of Miami-Dade County.

Everglades License Plate Fund

Accounts for expenditures for the conservation and protection of the natural resources and abatement of water pollution in the Everglades. Funding is provided by proceeds from Everglades License Plate sales.

Lake Okeechobee Trust Fund

Accounts for restoration projects associated with Lake Okeechobee. Funding is provided by the Florida Department of Environmental Protection.

Capital Projects Funds

Capital Projects Funds are maintained to account for financial resources to be used for the acquisition or construction of major capital facilities.

District Fund

Accounts for capital expenditures on projects associated with district-wide functions. Funding is provided through transfers from the General Fund.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Nonmajor Governmental Funds

Capital Projects Funds (continued)

Okeechobee Basin CP Fund

Accounts for capital expenditures on projects benefiting the Basin. Funding is provided through transfers from the Okeechobee Basin SR Fund.

Big Cypress Basin CP Fund

Accounts for capital expenditures on projects benefiting the Basin. Funding is provided through transfers from the Big Cypress Basin SR Fund.

Save Our Rivers CP Fund

Accounts for capital expenditures for the purchase of sensitive water resource land. Funding is provided through allocations from the Florida Forever Trust Fund, documentary stamp tax revenues appropriated and allocated in the District's name and deposited in the Florida Water Management Lands Trust Fund administered by the State of Florida, regulatory fines, and interest earnings.

Federal Emergency Management Agency Fund

Accounts for capital expenditures on projects funded by the Federal Emergency Management Agency.

Florida Bay Fund

Accounts for capital expenditures associated with restoring a more natural quantity, distribution, and timing of water flows to Florida Bay.

Critical Restoration Projects Fund

Accounts for expenditures associated with the Critical Restoration Projects included in the Central and Southern Florida Comprehensive Review Study (C&SF Restudy). Implementation of these projects was expedited under the Section 528 (e) authority included in the Water Resources Development Act of 1996, and for which Project Cooperation Agreements were signed in January 2000. Funding was provided by operating transfers from the Okeechobee Basin SR Fund. This fund was closed in fiscal year 2004 and its work is being taken over by the Comprehensive Everglades Restoration Plan Fund.

Federal Land Acquisitions Fund

Accounts for expenditures relating to land purchases that are reimbursed by the federal government.

CERP – Federal Funds

Accounts for revenues received from and expenditures funded through the federal government for the Comprehensive Everglades Restoration Plan.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Nonmajor Governmental Funds

Permanent Fund

The Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the District's programs.

Wetlands Mitigation Permanent Fund

Accounts for the long-term maintenance portion of fees collected from private businesses and other governmental agencies as a condition for issuing wetlands mitigation permits. Interest earned on these fees is used to pay for the costs associated with long-term maintenance of lands purchased pursuant to the District's wetlands mitigation program.

DISCLOSURE SECTION

S.E.C. RULE 15c2-12 DISCLOSURES

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

CONTINUING ANNUAL AND EVENT DISCLOSURES

The following disclosures comply with amendments of the Securities and Exchange Commission (SEC) Rule 15c2-12 (b)(5)(i)(A) to (D). Effective in 1995 the amendments required municipal bond underwriters to gain reasonable assurance from bond issuers that they will provide annual information and notices of material events for disclosure to the secondary bond market. To enter the bond market, the District and other issuers of state and local government securities are indirectly affected by these amendments. We are using this section of the District's Comprehensive Annual Financial Report to comply with our continuing disclosure agreement.

DISTRICT AGREEMENT AND EFFECTIVE DATES

In respective Bond Resolutions, the District agreed to provide continuing disclosure of (a) annual information and (b) notices of material events upon issuing its

- Special Obligation Land Acquisition Refunding Bonds, Series 1995,
- Special Obligation Land Acquisition Refunding Bonds, Series 2002 and
- Special Obligation Land Acquisition Refunding Bonds, Series 2003.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

ANNUAL FINANCIAL INFORMATION

SEC Rule 15c2-12(b)(5)(i)(A) requires annual financial information and operating data that are generally consistent with the presentation included in the Official Statements for each bond issue. The following paragraphs summarize the “Security for the Bonds” appearing in the Official Statements. Subsequent paragraphs, tables and exhibits contain the required financial information and operating data to include

- pledged revenues, and
- funding and allocation of monies and deposits of the Trust Fund.

SECURITY FOR THE BONDS

The Bonds are secured by a first lien on and payable solely from the “Pledged Revenues” as provided in the Bond Resolution.

The Bonds are limited obligations of the District. As such, the District, the State of Florida, or any public body in the State shall not

- pledge its full faith and credit to the payment of bond principal, interest or premium; or
- directly or indirectly be contingently obligated to levy any taxes or to make any appropriation for payment except from the pledged revenues for debt service on the Bonds.

Pledged Revenues consist of all monies collected, allocated to the District, and deposited in the Water Management Lands Trust Fund (the “Trust Fund”) which consist of:

- a share of the Documentary Stamp Tax,
- investment earnings and civil penalties.

The pledged revenues equally and ratably secure the Series 1995, 2002 and 2003 Bonds. The Florida Department of Environmental Protection maintains the Trust Fund.

DOCUMENTARY STAMP TAX

The State of Florida imposes an excise tax on documents (the “Documentary Stamp Tax”). Under current law, the Documentary Stamp Tax is levied upon certain instruments whereby interests in real property are conveyed, original issues of stock, bonds and debentures issued in the State of Florida, promissory notes or other written obligations to pay money, and mortgages recorded in the State of Florida. In general, the amount of the Documentary Stamp Tax due with respect to an instrument is based upon the amount of indebtedness evidenced or secured thereby, or in the case of documents transferring interests in property, upon the consideration for the transfer, or, in the case of stocks and bonds, upon the face value or actual value thereof.

The Documentary Stamp Tax is collected by the Florida Department of Revenue (DOR) and by the Clerks of the Circuit Courts of the counties in Florida on behalf of the DOR. The Documentary Stamp Tax is distributed, for various purposes, pursuant to a statutorily-prescribed formula.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Under current law, the DOR distributes the Documentary Stamp Tax collections and investment earnings, thereon, as follows:

- The first 7% to the State of Florida General Revenue Fund to pay a portion of the costs of general government.
- The costs of collection and enforcement of the Documentary Stamp Tax are deducted by and for the use of the Department of Revenue.
- A portion of the then remaining Documentary Stamp Tax collections (including investment earnings) are required to be deposited in the Trust Fund.

There is no assurance that the Florida Legislature will not change the percentage allocations to the General Fund, the Documentary Stamp Tax collections to the Trust Fund, or the percentage of the Trust Fund allocable to the District. Likewise, the Legislature could implement an appropriations bill affecting the distributions to the Trust Fund. Such changes, if made, could affect distributions to the Trust Fund. However, there exists an implied contract with the State to allocate sufficient documentary stamp revenues to cover debt service.

The following table illustrates the historical taxation rates and percentage distribution to the Trust Fund.

HISTORICAL DOCUMENTARY STAMP TAX RATES AND TRUST FUND DISTRIBUTION			
Year Effective	Tax (Per \$100) Stocks/Bonds/Mortgages	Tax (Per \$100) Deeds	Percent to Trust Fund
1963	\$.15		
1981		\$.45	7.20%
1985		\$.50	9.80%
1987		\$.55	9.20%
1990	\$.32		6.90%
1991		\$.60	6.56%
1992	\$.35	\$.70	5.84%
2001			4.20%

FUNDING AND ALLOCATION OF THE TRUST FUND

Deposits distributed to the Trust Fund began accruing to the District and the State's other four water management districts in August 1981. Under present law, moneys from the Trust Fund (net of DEP's administrative expenses) are allocated monthly among the State's five water management districts in the following percentages:

- 30% - South Florida
- 25% - St. Johns River
- 25% - Southwest Florida
- 10% - Suwannee River
- 10% - Northwest Florida

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

USE OF THE TRUST FUND

Expenditure of moneys from the Trust Fund is limited to payment of debt service and the acquisition, management, maintenance and capital improvement costs of certain lands included within the District's Five-Year Plan and to DEP's cost to administer the Trust Fund.

Moneys in the Trust Fund not needed to meet land acquisition and management costs, or current debt service, are invested by the State Treasurer to the credit of the Trust Fund, in the manner provided by Florida law. Interest received on such investments is credited to the Trust Fund and proportionally allocated to the District.

A Life-to-Date Analysis of the District's account within the Water Management Lands Trust Fund appears on Page V-7.

ESCROW AND RESERVE FUNDS

Security for payment of debt service on outstanding bonds is provided from two sources:

- An Escrow Fund within the Trust Fund and
- A Surety Bond issued by MBIA and held by the Trustee.

Trust Fund Escrow

An agreement between the District and the Florida Department of Environmental Protection (DEP) requires DEP to set aside and escrow from the first moneys allocable to the District in the Trust Fund, sufficient moneys for the payment of principal and interest on the Bonds becoming due in such Bond Year. DEP is obligated to pay Trust Fund moneys sufficient to pay debt service as it becomes due on the Bonds to the District's Paying Agent. However, such payment shall not exceed the District's cumulative portion of funds in the Trust Fund.

Debt Service Reserve Fund/Surety Bond

The Bond Resolution provides for establishment and maintenance of the Reserve Fund for the purpose of making deposits in the Debt Service Fund in the event the moneys therein are insufficient for the payment of sums due on the Bonds, and for no other purpose. Moneys on deposit in the Reserve Fund shall be maintained for the benefit of the holders of the Series 1995, 2002 and 2003 Bonds, and any parity obligations of the District issued pursuant to the Resolution.

The District is required to have on deposit in the Reserve Fund an amount of money and/or Debt Service Reserve Fund Surety Bonds equal to the Reserve Fund Requirement. Beginning in 1995, the District obtained a Debt Service Reserve Fund Surety Bond to meet this requirement. The Reserve Fund Requirement is defined in the Resolution to mean, at any time, an amount equal to the lesser of

- (a) the maximum amount of principal and interest on all outstanding bonds due in any succeeding fiscal year, or
- (b) the aggregate of ten (10%) of the original proceeds of each series of bonds.

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

ANNUAL DEBT SERVICE REQUIREMENTS

Debt service requirements on the Series 1995, 2002 and 2003 Bonds are as follows:

ANNUAL DEBT SERVICE (Principal and Interest) REQUIREMENTS (Millions)				
Fiscal Years	Total	Series 1995	Series 2002	Series 2003
2005	\$5.85	\$2.33	\$1.55	\$1.97
2006	6.95	2.32	2.57	2.06
2007	6.96	0.84	2.55	3.57
2008	6.92	--	2.55	4.37
2009	6.91	--	2.54	4.37
2010-2014	34.53	--	12.70	21.83
2015-2016	13.74	--	5.05	8.69
Total	\$81.86	\$5.49	\$29.51	\$46.86

AUDITED ANNUAL FINANCIAL STATEMENTS

Section II of this Comprehensive Annual Financial Report contains the District's Basic Financial Statements and related Report of Independent Certified Public Accountants. These statements are consistent with the Basic Financial Statements contained in the Official Statements in compliance with SEC Rule 15c2-12(b)(5)(i)(A) and (B).

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

REQUIRED NOTICES

The following table lists each material event and required notice defined in SEC Rule 15c2-12(b)(5)(i)(C) and (D). The table confirms that no notice to the NRMSIR or the MSRB and the SID was required for any of the material events related to each of the indicated Land Acquisition Bond Series currently outstanding. This confirms compliance with SEC Rule 15c2-12(b)(5)(i)(C) and (D) from July 3, 1995 to the date of this report.

- (1) Transfers during fiscal years 1991 and 1992 represent payments of interest in those years to support the Preservation 2000 program. Transfers during fiscal years 2001 through 2004 represent transfers by the State to other State trust funds.
- (2) Represent transfers from the Water Management Lands Trust Fund to the Debt Service Fund held by the Trustee. Amounts will vary from the actual debt service payments due to accumulated monies such as interest earnings in the Debt Service Fund.
