I. Background

In 1999, the Florida Legislature established a mitigation fee on each ton of limerock and sand sold from the Miami-Dade County Lake Belt Area. The purpose of this fee is to provide for the mitigation of wetland resources lost to mining activities within this area.

The Legislature found that the impact of rock mining could best be offset by the implementation of a comprehensive mitigation plan, as recommended in the 1998 Progress Report to the Florida Legislature by the Miami-Dade County Lake Belt Plan Implementation Committee. Legislation was adopted in s. 373.4149(1), Florida Statutes (F.S.), authorizing the mitigation fee and governing its use.

The mitigation fee became effective on October 1, 1999 at the initial rate of 5.0 cents for each ton of limerock and sand sold. The fee applies to raw, processed, or manufactured limestone, cement, and concrete products. The mitigation fee is collected by the Florida Department of Revenue and deposited to a trust fund at the South Florida Water Management District (SFWMD). An interagency committee, referred to as the Lake Belt Mitigation Committee (Committee), must approve expenditures from the trust fund. The Lake Belt legislation provided for an annual fee adjustment. In addition, based on recommendations from the Committee, the Legislature revised the mitigation fee schedule in 2006 and 2011. The fee was 45 cents per ton in 2013.

Section 373.41492(9)(a), F.S., states: “the interagency committee established in this section shall annually prepare and submit to the governing board of the South Florida Water Management District a report evaluating the mitigation costs and revenues generated by the mitigation fee.”

Additional information on the Miami-Dade County Lake Belt Plan and the Mitigation Committee is available at the SFWMD web site <http://www.sfwmd.gov>. (The Miami-Dade County Lake Belt is one of the projects listed in the Locations / Miami-Dade section of the SFWMD website.)

II. Legislative Guidance

Pursuant to s. 373.41492(6)(a), F.S., mitigation fees may include the purchase, enhancement, restoration, and management of wetlands and uplands in the Everglades watershed, the purchase of mitigation credit from a permitted mitigation bank, and any structural modifications to the existing drainage system to enhance the hydrology of the Miami-Dade County Lake Belt Area or the Everglades watershed. Funds may also be used to reimburse other funding sources, including the Save Our Rivers Land Acquisition Program, the Internal Improvement Trust Fund, SFWMD, and Miami-Dade County. Section 373.41492, F.S. (Miami-Dade County Lake Belt Mitigation Plan; mitigation for mining activities within the Miami-Dade County Lake Belt) is attached in Appendix A.

III. Committee Representation

The Lake Belt Mitigation Committee is authorized under s. 373.4149, F.S. Meetings are held on an as needed basis at locations determined by the Committee. All meetings are open to the general public and are held under requirements of Chapter 286.011, F.S.

The Lake Belt Mitigation Committee consists of following members:

Voting Members:

Florida Department of Environmental Protection (DEP)

Danielle Irwin

Chris Klena, Alternate

South Florida Water Management District (SFWMD)

Terrie Bates (Committee Chair)

Anita Bain, Alternate

Miami-Dade County Department of Regulatory and Economic Resources (DRER)

Craig Grossenbacher (2014)

Florida Fish and Wildlife Conservation Commission (FWCC)

Jennifer Goff (2014)

Marissa Krueger, Alternate

U.S. Army Corps of Engineers (USCOE)

Krista Sabin (2014)

Samantha Rice, Alternate

U.S. Environmental Protection Agency (USEPA)

Eric Hughes

Ron Miedema, Alternate

U.S. Fish and Wildlife Service (USFWS)

Robert Progulske

Non-Voting Member:

Miami-Dade Limestone Products Association (MDLPA)

Jeff Rosenfeld

Bill Baker, Alternate

IV. Committee Administration

Accounting - The available balance in the Lake Belt Mitigation Trust Fund as of December 31, 2012 was \$9,205,578. During 2013, \$19,253,324 was transferred to the Trust Fund from the Florida Department of Revenue and investment income resulted in a loss of \$(6,568). During 2013, approved expenditures from the Trust Fund were \$8,866,634. Approved expenditures from the Trust Fund represent committed funds for projects approved by the Committee. On December 31, 2013, the available balance in the Trust Fund was \$19,585,700.

Table 1 summarizes the mitigation fee deposits and investment income earned by the Lake Belt Mitigation Trust Fund for the period between 2000 and 2013. Beginning July 1, 2012, the water treatment plant upgrade fee was deposited into the Lake Belt Mitigation Trust Fund subject to a maximum deposit of \$20 million and other criteria as specified in Section 373.41492(3)(b), F.S. The month-by-month financial statement for the Trust Fund is included in Appendix B. Appendix C shows the receipts/approved expenditures summary developed for the Committee. The Appendix includes expenditures / mitigation acres approved by the Committee during 2013, and summaries for the overall receipts / expenditures, the C-139 Annex restoration project, the water treatment plant fee deposits, and seepage project expenditures through the end of 2013.

Table 1. Summary - Lake Belt Mitigation Trust Fund Cash Receipts

Calendar Year	Mitigation Fee (\$/ton)	Rock Mining Mitigation Fee	Water Treatment Plant Upgrade Fee ¹	Investment Income	Total Fees & Income
2000	0.050	\$2,386,463		\$ 78,162	\$2,464,625
2001	0.053	\$2,227,895		\$167,611	\$2,395,506
2002	0.056	\$2,436,950		\$174,384	\$2,611,334
2003	0.058	\$2,761,957		\$205,836	\$2,967,793
2004	0.062	\$3,109,122		\$132,434	\$3,241,556
2005	0.066	\$3,344,232		\$200,189	\$3,544,421
2006	0.071	\$3,808,079		\$521,348	\$4,329,427
2007	0.120	\$4,989,649		\$934,092	\$5,923,741
2008	0.180	\$4,899,784		\$380,229	\$5,280,013
2009	0.240	\$4,349,570		\$234,641	\$4,584,211
2010	0.240	\$4,481,029		\$ 83,335	\$4,564,364
2011	0.252	\$4,740,963		\$122,561	\$4,863,524
2012	0.450	\$10,288,460	\$2,115,408	\$ 85,431	\$12,489,299
2013	0.450	\$14,439,993	\$4,813,331	\$(6,568)	\$19,246,756
TOTAL		\$68,264,146	\$6,928,739	\$3,313,685	\$78,506,570

¹The water treatment plant upgrade fee is 15 cents per ton.

Mitigation Fee – The initial mitigation fee calculation was based on many factors (values and functions of wetlands in the Pennsuco and mining areas, mitigation ratios, estimated mining rates, and acquisition, restoration, and long-term management costs of land in the Pennsuco). During 1999, an interagency team of economists calculated the rate of the fee and determined the most appropriate method for annually adjusting the fee. This approach was codified in statute. Based on recommendations from the Committee, the Legislature revised the mitigation fee schedule in 2006 and 2011. The fee increased to 45 cents per ton starting January 1, 2012. The updated statute is included in Appendix A.

Approved Expenditures – Total expenditures approved in 2013 from the Lake Belt Mitigation Trust Fund were \$8,866,634. The different projects are discussed below and more detailed information on the expenditures and associated mitigation acres are included in Appendix C. The 2013 expenditures include \$3,634 in administrative costs associated with the operation of the Lake Belt Mitigation Committee.

V. Committee Mitigation Activities

Committee Activities – In 2013, Committee activities included:

1. Consistent with the Committee’s December 2012 approval of the use of the C-139 Annex Restoration Project as a mitigation project for wetland impacts associated with the limestone mining activities in Lake Belt Region and the associated 25-year cash flow analysis, the Committee approved the planned payment of \$8 million of funding for the C-139 Annex Restoration project. At an estimated cost of \$15,248 per WRAP credit, this expenditure authorized the award of 524.7 WRAP credits (2,098.8 Pennsuco-equivalent mitigation acres) for 2013, subject to the final credit determination for the project.
2. The Committee approved funding for the initial work on the Dade-Broward Levee seepage management program. Estimated expenditures for Phase 1 (\$414,000 – groundwater modeling and preliminary engineering design, surveying, and permitting) and mulching activities (\$449,000 – vegetation removal, permitting, and tree mitigation) were approved by the Committee.
3. The Committee continued to monitor the performance of Phase 1 of the L-31N Seepage Management project, which was completed in 2012. Two miles of a 36-foot deep seepage barrier were constructed on the berm between the SFWMD L-31N Canal and the adjacent levee, which borders Everglades National Park. Monitoring well and flowmeter data indicate that the barrier is influencing water levels and seepage from the Park into the L-31N Canal.
4. An escrow account has been established to facilitate payment of contractors on Miami-Dade Limestone Products Association - sponsored projects. During 2013, the \$637 of accrued interest earned in the escrow account was deposited in the Trust Fund. The memo for the accrued interest is included in Appendix D.

Mitigation Summary – A summary of annual expenditures / mitigation acres approved by the Committee are included in Appendix C. The Committee has approved a total of 8,914.6 mitigation acres, which will result in the: 1) public acquisition, enhancement, and long-term management of 1,243.3 acres in Pennsuco; 2) enhancement and long-term management of an additional 5,083.4 acres in Pennsuco; 3) enhancement and long-term management of 1,549 acres adjacent to the Dade-Broward Levee; 5) acquisition, enhancement, and long-term management of 100 acres in the Southern Glades project area; 6) construction of a 2-mile seepage barrier to enhance the hydrology in Everglades National Park and 7) acquisition, enhancement, and long-term management of 1,060 acres in the C-139 Annex Restoration project.

Table 2. Lake Belt Mitigation Activities

Calendar Year	Pennsuco Acquisition, Enhancement, & Long-Term Management (Acres)	Pennsuco Enhancement, & Long-Term Management (Acres) ¹	Other Projects (Pennsuco-equivalent Mitigation Acres)	Committee Approved Mitigation Acres
2002	455.6	1,240.6		1,075.9
2003	0	2,134.8		1,067.4
2004 ²	160.0		-0.5	159.5
2005	320.9			320.9
2006	142.4			142.4
2007	124.4			124.4
2008 ³	10.0			10.0
2009 ³		1,708.0	100.0	954.0
2010 ⁴	10.0		1,544.3	1,554.3
2011 ⁵	20.0		600.0	620.0
2012 ⁶			787.0	787.0
2013 ⁶			2,098.8	2,098.8
TOTAL	1,243.3	5,083.4	5,129.6	8,914.6

¹ The number of mitigation acres credited for Pennsuco enhancement / long-term management is equal to one-half the number credited for land acquisition, enhancement, and long-term management (per Committee decision).

² Mitigation for wetland impacts from monitoring well access construction required under the Lake Belt permits.

³ Per Committee decision in 2012, previously approved mitigation acres for the 8.5 Square Mile Area project in 2008 (221.1 acres) and 2009 (256.7 acres) were removed from Table 2, until the future direction of the project is determined. The Southern Glades restoration project was approved in 2009.

⁴ Dade-Broward Levee restoration project (1,549 acres) less 4.7 acres for APAC Section 23/24 DERM time-lag mitigation

⁵ L-31N Seepage Management project – Phase 1

⁶ C-139 Annex Restoration project (see Appendix C)

The Mining Industry submits an Annual Lake Belt Report to the U.S. Army Corps of Engineers, Florida Department of Environmental Protection, and Miami-Dade County Department of Regulatory and Economic Resources. This report documents the changes in mining and wetland acreages, and summarizes the ecological balance between the wetland impacts and wetland mitigation funded through the Lake Belt Mitigation Committee. This information is summarized below in Table 3.

Table 3. Lake Belt Mitigation/Mining Summary

Calendar Year	Committee Approved Mitigation Acres	Lake Belt Wetland Impacts In New Permit Areas (Acres)	Mitigation Needed to Offset Wetland Impacts (Acres) ¹	Annual Balance (Acres)	Cumulative Balance (Acres)
2002	1,075.9	34	85.0	990.9	990.9
2003	1,067.4	135	337.5	729.9	1,720.8
2004	159.5	87	217.5	-58.0	1,662.8
2005	320.9	87	217.5	103.4	1,766.2
2006	142.4	567	1,417.5	-1,275.1	491.1
2007	124.4	9	22.5	101.9	593.0
2008	10.0	5	12.5	-2.5	590.5
2009	954.0	1	2.5	951.5	1,542.0
2010	1,554.3	108	270.0	1,284.3	2,826.3
2011	620.0	134	335.0	285.0	3,111.3
2012	787.0	30	75.0	712.0	3,823.3
2013	2,098.8	Not yet available ²		2,098.8	5,922.1
TOTAL	8,914.6	1,197	2,992.5	5,922.1	

¹ Assumes 2.5 ratio utilized in calculation of Lake Belt mitigation fee

² Pursuant to the permit conditions, impacts are reported in the following year's Lake Belt Annual Report due to the timing and availability of aerial photographs.

Pursuant to s. 373.41492(7), F.S., the mitigation fee established by the Legislature “satisfies the mitigation requirements imposed under ss. 373.403-373.439 and any applicable county ordinance for loss of the value and functions from mining of the wetlands identified as rock mining supported and allowable areas of the Miami-Dade County Lake Plan adopted by s. 373.4149(1).” The mitigation fee calculation was based on many factors (values and functions of wetlands in the mining area and Pennsuco, estimated mining rates, land acquisition, restoration, and long-term management costs), and included the assumption that an estimated ratio of 2.5 mitigation acres: impact acres was needed to offset the loss of the values and functions of wetlands impacted in mining areas that were not permitted prior to the issuance of the Lake Belt permits in 2002. The wetland impact and offsetting mitigation information for the State and County permits are summarized in Table 3 and show a large positive mitigation acreage balance (5,922 acres) due to the expedited mitigation being implemented by the Mitigation Committee. Through expedited mitigation, the Committee has been attempting to

spend the mitigation fee on mitigation projects in the same year that the fee is collected, rather than at the slower rate anticipated in the original permit tables. As documented in the 2013 Lake Belt Annual Report, comparisons of the 2002 permit tables with the actual mitigation fee collections and mitigation funded during the first eleven years of the permits indicate that the amount of actual mitigation fees and approved mitigation are greater than were anticipated when the permits were issued in 2002.

The U.S. Army Corps of Engineers Lake Belt permits issued in 2010 included a different methodology for calculating mitigation requirements. The balance between the wetland mitigation and wetland impacts is calculated using the ecological value of the mitigation projects and the impacted wetland land use categories. The cumulative mitigation balance at the end of the 2013 Lake Belt Annual Report reporting period (through December 2012) was a positive 860.0 wetland units. In addition, the Mitigation Committee authorized an additional 2,098.8 acres of Pennsuco-equivalent mitigation (524.7 wetland units) in 2013. Therefore, the cumulative mitigation balance currently exceeds the positive 100 unit balance identified in Special Condition #7 of the Corps permits.

VI. Appendices

APPENDIX A – Florida Statutes

373.41492. Miami-Dade County Lake Belt Mitigation Plan; mitigation for mining activities within the Miami-Dade County Lake Belt.

(1) The Legislature finds that the impact of mining within the rock mining supported and allowable areas of the Miami-Dade County Lake Belt Plan adopted by s. 373.4149(1) can best be offset by the implementation of a comprehensive mitigation plan. The Lake Belt Mitigation Plan consists of those provisions contained in subsections (2)-(9). The per-ton mitigation fee assessed on limestone sold from the Miami-Dade County Lake Belt Area and sections 10, 11, 13, 14, Township 52 South, Range 39 East, and sections 24, 25, 35, and 36, Township 53 South, Range 39 East, shall be used for acquiring environmentally sensitive lands and for restoration, maintenance, and other environmental purposes. It is the intent of the Legislature that the per-ton mitigation fee not be a revenue source for purposes other than enumerated in this section. Further, the Legislature finds that the public benefit of a sustainable supply of limestone construction materials for public and private projects requires a coordinated approach to permitting activities on wetlands within Miami-Dade County in order to provide the certainty necessary to encourage substantial and continued investment in the limestone processing plant and equipment required to efficiently extract the limestone resource. It is the intent of the Legislature that the Lake Belt Mitigation Plan satisfy all local, state, and federal requirements for mining activity within the rock mining supported and allowable areas.

(2) To provide for the mitigation of wetland resources lost to mining activities within the Miami-Dade County Lake Belt Plan, effective October 1, 1999, a mitigation fee is imposed on each ton of limerock and sand extracted by any person who engages in the business of extracting limerock or sand from within the Miami-Dade County Lake Belt Area and the east one-half of sections 24 and 25 and all of sections 35 and 36, Township 53 South, Range 39 East. The mitigation fee is imposed for each ton of limerock and sand sold from within the properties where the fee applies in raw, processed, or manufactured form, including, but not limited to, sized aggregate, asphalt, cement, concrete, and other limerock and concrete products. The mitigation fee imposed by this subsection for each ton of limerock and sand sold shall be 45 cents per ton. To pay for seepage mitigation projects, including groundwater and surface water management structures designed to improve wetland habitat and approved by the Lake Belt Mitigation Committee, and to upgrade a water treatment plant that treats water coming from the Northwest Wellfield in Miami-Dade County, a water treatment plant upgrade fee is imposed within the same Lake Belt Area subject to the mitigation fee and upon the same kind of mined limerock and sand subject to the mitigation fee. The water treatment plant upgrade fee imposed by this subsection for each ton of limerock and sand sold shall be 15 cents per ton, and the collection of this fee shall cease once the total amount of proceeds collected for this fee reaches the amount of the actual moneys necessary to design and construct the water treatment plant upgrade, as determined in an open, public solicitation process. Any limerock or sand that is used within the mine from which the limerock or sand is extracted is exempt from the fees. The amount of the mitigation fee and the water treatment plant upgrade fee imposed under this section must be stated separately on the invoice provided to the purchaser of the limerock or sand

product from the limerock or sand miner, or its subsidiary or affiliate, for which the fee or fees apply. The limerock or sand miner, or its subsidiary or affiliate, who sells the limerock or sand product shall collect the mitigation fee and the water treatment plant upgrade fee and forward the proceeds of the fees to the Department of Revenue on or before the 20th day of the month following the calendar month in which the sale occurs. The proceeds of a fee imposed by this section include all funds collected and received by the Department of Revenue relating to the fee, including interest and penalties on a delinquent fee. The amount deducted for administrative costs may not exceed 3 percent of the total revenues collected under this section and may equal only those administrative costs reasonably attributable to the fee.

(3) The mitigation fee and the water treatment plant upgrade fee imposed by this section must be reported to the Department of Revenue. Payment of the mitigation and the water treatment plant upgrade fees must be accompanied by a form prescribed by the Department of Revenue.

(a) The proceeds of the mitigation fee, less administrative costs, must be transferred by the Department of Revenue to the South Florida Water Management District and deposited into the Lake Belt Mitigation Trust Fund.

(b) Beginning July 1, 2012, the proceeds of the water treatment plant upgrade fee, less administrative costs, must be transferred by the Department of Revenue to the South Florida Water Management District and deposited into the Lake Belt Mitigation Trust Fund until:

1. A total of \$20 million from the proceeds of the water treatment plant upgrade fee, less administrative costs, is deposited into the Lake Belt Mitigation Trust Fund; or
2. The quarterly pathogen sampling conducted as a condition of the permits issued by the department for rock mining activities in the Miami-Dade County Lake Belt Area demonstrates that the water in any quarry lake in the vicinity of the Northwest Wellfield would be classified as being in Bin 2 or higher as defined in the Environmental Protection Agency's Long Term 2 Enhanced Surface Water Treatment Rule.

(c) Upon the earliest occurrence of the criterion under subparagraph (b)1. or subparagraph (b)2., the proceeds of the water treatment plant upgrade fee, less administrative costs, must be transferred by the Department of Revenue to a trust fund established by Miami-Dade County, for the sole purpose authorized by paragraph (6)(a).

(4)(a) The Department of Revenue shall administer, collect, and enforce the mitigation and treatment plant upgrade fees authorized under this section in accordance with the procedures used to administer, collect, and enforce the general sales tax imposed under chapter 212. The provisions of chapter 212 with respect to the authority of the Department of Revenue to audit and make assessments, the keeping of books and records, and the interest and penalties imposed on delinquent fees apply to this section. The fees may not be included in computing estimated taxes under s. 212.11, and the dealer's credit for collecting taxes or fees provided for in s. 212.12 does not apply to the fees imposed by this section.

(b) In administering this section, the Department of Revenue may employ persons and incur expenses for which funds are appropriated by the Legislature. The Department of Revenue shall

adopt rules and prescribe and publish forms necessary to administer this section. The Department of Revenue shall establish audit procedures and may assess delinquent fees.

(5) Each January 1, beginning January 1, 2010, through December 31, 2011, the per-ton mitigation fee shall be increased by 2.1 percentage points, plus a cost growth index. The cost growth index shall be the percentage change in the weighted average of the Employment Cost Index for All Civilian Workers (ecu 10001I), issued by the United States Department of Labor for the most recent 12-month period ending on September 30, and the percentage change in the Producer Price Index for All Commodities (WPU 00000000), issued by the United States Department of Labor for the most recent 12-month period ending on September 30, compared to the weighted average of these indices for the previous year. The weighted average shall be calculated as 0.6 times the percentage change in the Employment Cost Index for All Civilian Workers (ecu 10001I), plus 0.4 times the percentage change in the Producer Price Index for All Commodities (WPU 00000000). If either index is discontinued, it shall be replaced by its successor index, as identified by the United States Department of Labor.

(6)(a) The proceeds of the mitigation fee must be used to conduct mitigation activities that are appropriate to offset the loss of the value and functions of wetlands as a result of mining activities and be approved by the Miami-Dade County Lake Belt Mitigation Committee. Such mitigation may include the purchase, enhancement, restoration, and management of wetlands and uplands in the Everglades watershed, the purchase of mitigation credit from a permitted mitigation bank, and any structural modifications to the existing drainage system to enhance the hydrology of the Miami-Dade County Lake Belt Area or the Everglades watershed. Funds may also be used to reimburse other funding sources, including the Save Our Rivers Land Acquisition Program, the Internal Improvement Trust Fund, the South Florida Water Management District, and Miami-Dade County, for the purchase of lands that were acquired in areas appropriate for mitigation due to rock mining and to reimburse governmental agencies that exchanged land under s. 373.4149 for mitigation due to rock mining. The proceeds of the water treatment plant upgrade fee deposited into the Lake Belt Mitigation Trust Fund shall be used solely to pay for seepage mitigation projects, including groundwater or surface water management structures designed to improve wetland habitat and approved by the Lake Belt Mitigation Committee. The proceeds of the water treatment plant upgrade fee which are transmitted to a trust fund established by Miami-Dade County shall be used to upgrade a water treatment plant that treats water coming from the Northwest Wellfield in Miami-Dade County. As used in this section, the terms “upgrade a water treatment plant” or “treatment plant upgrade” mean those works necessary to treat or filter a surface water source or supply or both.

(b) Expenditures of the mitigation fee must be approved by an interagency committee consisting of representatives from each of the following: the Miami-Dade County Department of Environmental Resource Management, the Department of Environmental Protection, the South Florida Water Management District, and the Fish and Wildlife Conservation Commission. In addition, the limerock mining industry shall select a representative to serve as a nonvoting member of the interagency committee. At the discretion of the committee, additional members may be added to represent federal regulatory, environmental, and fish and wildlife agencies.

(7) Payment of the mitigation fee imposed by this section satisfies the mitigation requirements imposed under ss. 373.403-373.439 and any applicable county ordinance for loss of the value and functions from mining of the wetlands identified as rock mining supported and allowable areas of the Miami-Dade County Lake Plan adopted by s. 373.4149(1). In addition, it is the intent of the Legislature that the payment of the mitigation fee imposed by this section satisfy all federal mitigation requirements for the wetlands mined.

(8) If a general permit by the United States Army Corps of Engineers, or an appropriate long-term permit for mining, consistent with the Miami-Dade County Lake Belt Plan, this section, and ss. 373.4149, 373.4415, and 378.4115 is not issued on or before September 30, 2000, the fee imposed by this section is suspended until revived by the Legislature.

(9)(a) The interagency committee established in this section shall annually prepare and submit to the governing board of the South Florida Water Management District a report evaluating the mitigation costs and revenues generated by the mitigation fee.

(b) No sooner than January 31, 2010, and no more frequently than every 2 years thereafter, the interagency committee shall submit to the Legislature a report recommending any needed adjustments to the mitigation fee, including the annual escalator provided for in subsection (5), to ensure that the revenue generated reflects the actual costs of the mitigation.

APPENDIX D

MacVicar Consulting, Inc.

4524 West Gun Club Road, Suite 201, West Palm Beach FL 33415 (561) 689-1708

To: Marjorie Moore
From: Jeff Rosenfeld
on behalf of the Miami-Dade Limestone Products Association
Date: November 8, 2013
Subject: Lake Belt Mitigation Trust Fund – Accrued Interest

Per the SFWMD-MDLPA agreement, accrued interest in the Greenberg Traurig escrow account is to be returned to SFWMD for deposit into the Lake Belt Mitigation Trust Fund. Greenberg Traurig reports that a total of \$636.87 of interest was earned in the escrow account during the period from October 1, 2012 through September 30, 2013. We plan on submitting an accrued interest check to SFWMD annually.

Attached for deposit to the Lake Belt Mitigation Trust Fund is a check for the 2013 accrued interest earned in the Greenberg Traurig escrow account.
