# I. Background

In 1999, the Florida Legislature established a mitigation fee on each ton of limerock and sand sold from the Miami-Dade County Lake Belt Area. The purpose of this fee is to provide for the mitigation of wetland resources lost to mining activities within this area.

The Legislature found that the impact of rock mining could best be offset by the implementation of a comprehensive mitigation plan, as recommended in the 1998 Progress Report to the Florida Legislature by the Miami-Dade County Lake Belt Plan Implementation Committee. Legislation was adopted in s. 373.4149(1), Florida Statutes (F.S.), authorizing the mitigation fee and governing its use.

The mitigation fee became effective on October 1, 1999 at the initial rate of 5.0 cents for each ton of limerock and sand sold. The fee applies to raw, processed, or manufactured limestone, cement, and concrete products. The mitigation fee is collected by the Florida Department of Revenue and deposited to a trust fund at the South Florida Water Management District (SFWMD). An interagency committee, referred to as the Lake Belt Mitigation Committee (Committee), must approve expenditures from the trust fund. Based on changes in mitigation projects and estimated costs, the Legislature revised the mitigation fee schedule in 2006, 2011, and 2015. The fee was 5 cents per ton in 2018.

Section 373.41492(8)(a), F.S., states: "the interagency committee established in this section shall annually prepare and submit to the governing board of the South Florida Water Management District a report evaluating the mitigation costs and revenues generated by the mitigation fee."

Additional information on the Miami-Dade County Lake Belt Plan and the Mitigation Committee is available at the SFWMD web site <a href="http://www.sfwmd.gov">http://www.sfwmd.gov</a>. (The Lake Belt Mitigation Committee is one of the projects listed under the Our Work / Water Supply Planning / Local Projects and Programs section of the SFWMD website.)

# II. Legislative Guidance

Pursuant to s. 373.41492(6)(a), F.S., mitigation fees may include the purchase, enhancement, restoration, and management of wetlands and uplands in the Everglades watershed, the purchase of mitigation credit from a permitted mitigation bank, and any structural modifications to the existing drainage system to enhance the hydrology of the Miami-Dade County Lake Belt Area or the Everglades watershed. Funds may also be used to reimburse other funding sources, including the Save Our Rivers Land Acquisition Program, the Internal Improvement Trust Fund, SFWMD, and Miami-Dade County. Section 373.41492, F.S, (Miami-Dade County Lake Belt Mitigation Plan; mitigation for mining activities within the Miami-Dade County Lake Belt) is attached in Appendix A.

# **III. Committee Representation**

The Lake Belt Mitigation Committee is authorized under s. 373.4149, F.S. Meetings are held on an as needed basis at locations determined by the Committee. All meetings are open to the general public and are held under requirements of Chapter 286.011, F.S.

The Lake Belt Mitigation Committee consists of following members:

#### **Voting Members:**

Florida Department of Environmental Protection (DEP) Ed Smith

South Florida Water Management District (SFWMD)
Terrie Bates (Committee Chair)

Miami-Dade County Department of Regulatory and Economic Resources (DRER) Craig Grossenbacher

Florida Fish and Wildlife Conservation Commission (FWCC)
Jason Hight
Christine Raininger, Alternate

U.S. Army Corps of Engineers (USCOE) Melinda Hogan-Charles Eve Huggins, Alternate

U.S. Environmental Protection Agency (USEPA) Cecelia Harper

U.S. Fish and Wildlife Service (USFWS) Robert Progulske

#### **Non-Voting Member:**

Miami-Dade Limestone Products Association (MDLPA)

Jeff Rosenfeld

Bill Baker, Alternate

#### IV. Committee Administration

**Accounting -** The available balance in the Lake Belt Mitigation Trust Fund as of December 31, 2017 was \$29,204,831. During 2018, \$2,538,736 was transferred to the Trust Fund from the Florida Department of Revenue, \$416,892.58 was lost as Trust Fund investment income, and \$5,428.83 was earned as interest on the escrow account. During 2018, approved expenditures from the Trust Fund were \$2,107,289. Approved expenditures from the Trust Fund represent committed funds for projects approved by the Committee. On December 31, 2018, the available balance in the Trust Fund was \$29,224,814.

Table 1 summarizes the mitigation fee deposits and investment income earned by the Lake Belt Mitigation Trust Fund for the period between 2000 and 2018. Between July 1, 2012 and July 1, 2015, the water treatment plant upgrade fee was deposited into the Lake Belt Mitigation Trust Fund subject to a maximum deposit of \$20 million and other criteria as previously specified in Section 373.41492(3)(b), F.S. (2012) The month-by-month financial statement for the Trust Fund is included in Appendix B. Appendix C shows the receipts / approved expenditures summary developed for the Committee. The Appendix includes expenditures / mitigation acres approved by the Committee during 2018, and summaries for the overall receipts / expenditures, the C-139 Annex restoration project, the water treatment plant fee deposits, and seepage project expenditures through the end of 2018.

<sup>&</sup>lt;sup>1</sup> The water treatment plant upgrade fee during the period between 2012 and 2015 was 15 cents per ton.

**Mitigation Fee** – The initial mitigation fee calculation was based on many factors (values and functions of wetlands in the Pennsuco and mining areas, mitigation ratios, estimated mining rates, and acquisition, restoration, and long-term management costs of land in the Pennsuco). During 1999, an interagency team of economists calculated the rate of the fee and determined the most appropriate method for annually adjusting the fee. This approach was codified in statute. Based on changes in mitigation projects and estimated costs, the Legislature revised the mitigation fee schedule in 2006, 2011, and 2015. The fee was 5 cents per ton in 2018. The updated statute is included in Appendix A.

**Approved Expenditures** – Total expenditures approved in 2018 from the Lake Belt Mitigation Trust Fund were \$2,107,289. The different projects are discussed below and more detailed information on the expenditures and associated mitigation acres are included in Appendix C. There were no administrative costs associated with the operation of the Lake Belt Mitigation Committee in 2018.

# V. Committee Mitigation Activities

**Committee Activities** – In 2018, Committee activities included:

- 1. Consistent with the Committee's December 2012 approval of the use of the C-139 Annex Restoration Project as a mitigation project for wetland impacts associated with the limestone mining activities in Lake Belt Region and the associated 25-year cash flow analysis, the Committee approved the planned 2018 payment of \$2 million of funding for the C-139 Annex Restoration project (September 2018). At an estimated cost of \$15,248 per WRAP credit, this expenditure authorized the award of 131.2 WRAP credits (524.8 Pennsuco-equivalent mitigation acres) for 2018, subject to the final credit determination for the project. A summary of C-139 Annex funding, acres, and mitigation credits is included in Appendix C.
- 2. In 2016, three additional miles of the L-31N seepage barrier project were constructed. The initial two miles of a 36-foot deep seepage barrier were constructed in 2012 on the berm between the SFWMD L-31N Canal and the adjacent levee, which borders Everglades National Park. Ongoing monitoring well and flowmeter data indicate that the barrier is influencing water levels and reducing seepage from the Park into the L-31N Canal.
- 3. In 2016, gaps in 7.5 miles of the Dade-Broward Levee berm (which allowed flow of surface water from the Pennsuco wetlands) were repaired. In 2018, construction of the two proposed water control structures in Phase 2 of the Dade-Broward Levee improvements project was completed. Ongoing monitoring data indicate that the upstream portion of the Wellfield Protection Canal, which historically has drained the adjacent Pennsuco wetlands, now has higher water levels than the adjacent wetlands and is acting as a source of recharge for the wetlands (rather than a drain).
- 4. Approval of estimated Lake Belt water quality monitoring costs between October 1, 2018 and September 30, 2019 of \$107,289.
- 5. An escrow account has been established to facilitate payment of contractors on Miami-Dade Limestone Products Association sponsored projects. During 2018, \$5,428.83 of accrued interest earned in the escrow account was deposited in the Trust Fund. The memo for the accrued interest is included in Appendix D.

**Mitigation Summary** – A summary of annual expenditures / mitigation acres approved by the Committee are included in Appendix C. The Committee has approved a total of 19,205.4 mitigation acres, which will result in the: 1) public acquisition, enhancement, and long-term management of 3,072.4 acres in Pennsuco; 2) enhancement and long-term management of an additional 3,375.4 acres in Pennsuco; 3) enhancement and long-term management of 1,549 acres adjacent to the Dade-Broward Levee; 4) acquisition, enhancement, and long-term management of 100 acres in the Southern Glades project area; 5) construction of a 5-mile seepage barrier to enhance the hydrology in Everglades National Park and 6) acquisition, enhancement, and long-term management of 3,565.6 acres (9,706 Pennsuco-equivalent acres) in the C-139 Annex Restoration project.

<sup>&</sup>lt;sup>1</sup> The number of mitigation acres credited for Pennsuco enhancement / long-term management is equal to one-half the number credited for land acquisition, enhancement, and long-term management (per Committee decision).

The Mining Industry submits an Annual Lake Belt Report to the U.S. Army Corps of Engineers, Florida Department of Environmental Protection, and Miami-Dade County Department of Regulatory and Economic Resources. This report documents the changes in mining and wetland acreages, and summarizes the ecological balance between the wetland impacts and wetland mitigation funded through the Lake Belt Mitigation Committee. This information is summarized below in Table 3.

<sup>&</sup>lt;sup>1</sup> Assumes 2.5 ratio utilized in calculation of Lake Belt mitigation fee

Pursuant to s. 373.41492(7), F.S., the mitigation fee established by the Legislature "satisfies the mitigation requirements imposed under ss. 373.403-373.439 and any applicable county ordinance for loss of the value and functions from mining of the wetlands identified as rock mining supported and allowable areas of the Miami-Dade County Lake Plan adopted by s. 373.4149(1)." The mitigation fee calculation was based on many factors (values and functions of wetlands in the mining area and Pennsuco, estimated mining rates, land acquisition, restoration, and long-term management costs), and included the assumption that an estimated ratio of 2.5 mitigation acres: impact acres was needed to offset the loss of the values and functions of wetlands impacted in mining areas that were not permitted prior to the issuance of the Lake Belt permits in 2002. The wetland impact and offsetting mitigation information for the State and County permits are summarized in Table 3 and show a large positive mitigation acreage balance (12,923 acres through January 2018) due to the expedited mitigation being implemented by the Mitigation Committee. Through expedited mitigation, the Committee has been attempting to spend the mitigation fee on mitigation projects in the same year that the fee is collected, rather than at the slower rate anticipated in the original permit tables. As documented in the 2018 Lake Belt Annual Report, comparisons of the 2002 permit tables with the actual mitigation fee collections and mitigation funded during the first sixteen years of the permits indicate that the amount of actual mitigation fees and approved mitigation are much greater than were anticipated when the permits were issued in 2002.

<sup>&</sup>lt;sup>2</sup> Pursuant to the permit conditions, impacts are reported in the following year's Lake Belt Annual Report due to the timing and availability of aerial photographs.

The U.S. Army Corps of Engineers Lake Belt permits issued in 2010 included a different methodology for calculating mitigation requirements. The balance between the wetland mitigation and wetland impacts is calculated using the ecological value of the mitigation projects and the impacted wetland land use categories. The cumulative mitigation balance at the end of the 2018 Lake Belt Annual Report reporting period (through January 2018) was a positive 2,942 wetland units. In addition, the Mitigation Committee authorized an additional 524.8 acres of Pennsuco-equivalent mitigation (131.2 wetland units) in 2018. Therefore, the cumulative mitigation balance significantly exceeds the positive 100 unit balance identified in Special Condition #7 of the Corps permits.

# VI. Appendices

#### **APPENDIX A – Florida Statutes**

# 373.41492. Miami-Dade County Lake Belt Mitigation Plan; mitigation for mining activities within the Miami-Dade County Lake Belt.

- (1) The Legislature finds that the impact of mining within the rock mining supported and allowable areas of the Miami-Dade County Lake Belt Plan adopted by s. 373.4149(1) can best be offset by the implementation of a comprehensive mitigation plan. The Lake Belt Mitigation Plan consists of those provisions contained in subsections (2)-(8). The per-ton mitigation fee assessed on limestone sold from the Miami-Dade County Lake Belt Area and sections 10, 11, 13, 14, Township 52 South, Range 39 East, and sections 24, 25, 35, and 36, Township 53 South, Range 39 East, shall be used for acquiring environmentally sensitive lands and for restoration, monitoring, maintenance, and other environmental purposes. It is the intent of the Legislature that the per-ton mitigation fee not be a revenue source for purposes other than enumerated in this section. Further, the Legislature finds that the public benefit of a sustainable supply of limestone construction materials for public and private projects requires a coordinated approach to permitting activities on wetlands within Miami-Dade County in order to provide the certainty necessary to encourage substantial and continued investment in the limestone processing plant and equipment required to efficiently extract the limestone resource. It is the intent of the Legislature that the Lake Belt Mitigation Plan satisfy all local, state, and federal requirements for mining activity within the rock mining supported and allowable areas.
- (2) To provide for the mitigation of wetland resources lost to mining activities within the Miami-Dade County Lake Belt Plan, effective October 1, 1999, a mitigation fee is imposed on each ton of limerock and sand extracted by any person who engages in the business of extracting limerock or sand from within the Miami-Dade County Lake Belt Area and the east one-half of sections 24 and 25 and all of sections 35 and 36, Township 53 South, Range 39 East. The mitigation fee is imposed for each ton of limerock and sand sold from within the properties where the fee applies in raw, processed, or manufactured form, including, but not limited to, sized aggregate, asphalt, cement, concrete, and other limerock and concrete products. The mitigation fee imposed by this subsection for each ton of limerock and sand sold shall be 25 cents per ton, beginning on January 1, 2016; 15 cents per ton beginning on January 1, 2017; and 5 cents per ton beginning on January 1, 2018, and thereafter. To pay for seepage mitigation projects, including groundwater and surface water management structures designed to improve wetland habitat and approved by the Lake Belt Mitigation Committee, and to upgrade a water treatment plant that treats water coming from the Northwest Wellfield in Miami-Dade County, a water treatment plant upgrade fee is imposed within the same Lake Belt Area subject to the mitigation fee and upon the same kind of mined limerock and sand subject to the mitigation fee. The water treatment plant upgrade fee imposed by this section for each ton of limerock and sand sold shall be 6 cents per ton, and the collection of this fee shall cease once the total amount of proceeds collected for this fee reaches the amount of the actual moneys necessary to design and construct the water treatment plant upgrade, as determined in an open, public solicitation process. The water treatment plant upgrade fee imposed by this section expires July 1, 2018. Any limerock or sand that is used within the mine from which the limerock or sand is extracted is exempt from the fees. The amount of the mitigation fee and the water treatment plant upgrade fee imposed under this section must be stated separately on the invoice provided to the purchaser of the limerock or sand product from the limerock or sand miner, or its subsidiary or affiliate, for

which the fee or fees apply. The limerock or sand miner, or its subsidiary or affiliate, who sells the limerock or sand product shall collect the mitigation fee and the water treatment plant upgrade fee and forward the proceeds of the fees to the Department of Revenue on or before the 20th day of the month following the calendar month in which the sale occurs. The proceeds of a fee imposed by this section include all funds collected and received by the Department of Revenue relating to the fee, including interest and penalties on a delinquent fee. The amount deducted for administrative costs may not exceed 3 percent of the total revenues collected under this section and may equal only those administrative costs reasonably attributable to the fee.

- (3) The mitigation fee and the water treatment plant upgrade fee imposed by this section must be reported to the Department of Revenue. Payment of the mitigation and the water treatment plant upgrade fees must be accompanied by a form prescribed by the Department of Revenue.
- (a) The proceeds of the mitigation fee, less administrative costs, must be transferred by the Department of Revenue to the South Florida Water Management District and deposited into the Lake Belt Mitigation Trust Fund.
- (b) The proceeds of the water treatment plant upgrade fee, less administrative costs and less 2 cents per ton transferred pursuant to paragraph (c), must be transferred by the Department of Revenue to a trust fund established by Miami-Dade County, for the sole purpose authorized by paragraph (6)(a).
- (c) Until December 1, 2016, or until funding for the study is complete, whichever comes earlier, 2 cents per ton, not to exceed \$300,000, shall be transferred by the Department of Revenue to the State Fire Marshal to be used to fund the study required under s. <u>552.30</u> to review the established statewide ground vibration limits for construction materials mining activities and to review any legitimate claims paid for damages caused by such mining activities. Any amount not used to fund the study shall be transferred to the trust fund established by Miami-Dade County, for the sole purpose authorized by paragraph (6)(a).
- (4)(a) The Department of Revenue shall administer, collect, and enforce the mitigation and treatment plant upgrade fees authorized under this section in accordance with the procedures used to administer, collect, and enforce the general sales tax imposed under chapter 212. The provisions of chapter 212 with respect to the authority of the Department of Revenue to audit and make assessments, the keeping of books and records, and the interest and penalties imposed on delinquent fees apply to this section. The fees may not be included in computing estimated taxes under s. 212.11, and the dealer's credit for collecting taxes or fees provided for in s. 212.12 does not apply to the fees imposed by this section.
- (b) In administering this section, the Department of Revenue may employ persons and incur expenses for which funds are appropriated by the Legislature. The Department of Revenue shall adopt rules and prescribe and publish forms necessary to administer this section. The Department of Revenue shall establish audit procedures and may assess delinquent fees.
- (5) Each January 1, beginning January 1, 2010, through December 31, 2011, the per-ton mitigation fee shall be increased by 2.1 percentage points, plus a cost growth index. The cost growth index shall be the percentage change in the weighted average of the Employment Cost Index for All Civilian Workers (ecu 10001I), issued by the United States Department of Labor

for the most recent 12-month period ending on September 30, and the percentage change in the Producer Price Index for All Commodities (WPU 00000000), issued by the United States Department of Labor for the most recent 12-month period ending on September 30, compared to the weighted average of these indices for the previous year. The weighted average shall be calculated as 0.6 times the percentage change in the Employment Cost Index for All Civilian Workers (ecu 10001I), plus 0.4 times the percentage change in the Producer Price Index for All Commodities (WPU 00000000). If either index is discontinued, it shall be replaced by its successor index, as identified by the United States Department of Labor.

- (6)(a) The proceeds of the mitigation fee must be used to conduct mitigation activities that are appropriate to offset the loss of the value and functions of wetlands as a result of mining activities and to conduct water quality monitoring to ensure the protection of water resources within the Lake Belt Area. Such mitigation may include the purchase, enhancement, restoration, and management of wetlands and uplands in the Everglades watershed, the purchase of mitigation credit from a permitted mitigation bank, and any structural modifications to the existing drainage system to enhance the hydrology of the Miami-Dade County Lake Belt Area or the Everglades watershed. Funds may also be used to reimburse other funding sources, including the Save Our Rivers Land Acquisition Program, the Internal Improvement Trust Fund, the South Florida Water Management District, and Miami-Dade County, for the purchase of lands that were acquired in areas appropriate for mitigation due to rock mining and to reimburse governmental agencies that exchanged land under s. <u>373.4149</u> for mitigation due to rock mining. The proceeds of the water treatment plant upgrade fee deposited into the Lake Belt Mitigation Trust Fund shall be used solely to pay for seepage mitigation projects, including groundwater or surface water management structures designed to improve wetland habitat and approved by the Lake Belt Mitigation Committee. The proceeds of the water treatment plant upgrade fee which are transmitted to a trust fund established by Miami-Dade County shall be used to upgrade a water treatment plant that treats water coming from the Northwest Wellfield in Miami-Dade County. As used in this section, the terms "upgrade a water treatment plant" or "treatment plant upgrade" mean those works necessary to treat or filter a surface water source or supply or both.
- (b) Expenditures of the mitigation fee must be approved by an interagency committee consisting of representatives from each of the following: the Miami-Dade County Department of Environmental Resource Management, the Department of Environmental Protection, the South Florida Water Management District, and the Fish and Wildlife Conservation Commission. In addition, the limerock mining industry shall select a representative to serve as a nonvoting member of the interagency committee. At the discretion of the committee, additional members may be added to represent federal regulatory, environmental, and fish and wildlife agencies.
- (7) Payment of the mitigation fee imposed by this section satisfies the mitigation requirements imposed under ss. <u>373.403-373.439</u> and any applicable county ordinance for loss of the value and functions from mining of the wetlands identified as rock mining supported and allowable areas of the Miami-Dade County Lake Plan adopted by s. <u>373.4149(1)</u>. In addition, it is the intent of the Legislature that the payment of the mitigation fee imposed by this section satisfy all federal mitigation requirements for the wetlands mined.
- (8)(a) The interagency committee established in this section shall annually prepare and submit to the governing board of the South Florida Water Management District a report evaluating the mitigation costs and revenues generated by the mitigation fee.

- (b) No sooner than January 31, 2010, and no more frequently than every 2 years thereafter, the interagency committee shall submit to the Legislature a report recommending any needed adjustments to the mitigation fee, including the annual escalator provided for in subsection (5), to ensure that the revenue generated reflects the actual costs of the mitigation.
- (9)(a) The Legislature finds that more than 1,000 water samples from quarry lakes and groundwater sources near the Northwest Wellfield have been analyzed without a single detection of pathogens. The Legislature further finds that the best available science indicates that there is no connection between the quarry lakes in the Miami-Dade County Lake Belt and any potential need to upgrade the water treatment plant that receives water from the Northwest Wellfield for pathogen removal and none is expected in the future.
- (b) To assist the Legislature in determining whether a portion of the limestone mining fee should be dedicated to a treatment plant upgrade through July 1, 2018, pursuant to subsection (2), Miami-Dade County shall:
- 1. By January 15, 2016, submit to the President of the Senate and the Speaker of the House of Representatives a detailed accounting of the Lake Belt fees collected through June 30, 2015, and all expenditures of those fees; and
- 2. By January 15, 2017, submit to the President of the Senate and the Speaker of the House of Representatives a detailed report on all pathogen data collection and analyses related to the Northwest Wellfield and the planning and engineering studies undertaken to upgrade any water treatment plant to provide treatment for pathogens in water from the Northwest Wellfield.

Subject: Lake Belt Mitigation Trust Fund – Accrued Interest

Per the SFWMD-MDLPA agreement, accrued interest in the Greenberg Traurig escrow account is to be returned to SFWMD for deposit into the Lake Belt Mitigation Trust Fund. Greenberg Traurig reports that a total of \$5,428.83 of interest was earned in the escrow account during the period from October 1, 2017 through September 30, 2018. We plan on submitting an accrued interest check to SFWMD annually.

Attached for deposit to the Lake Belt Mitigation Trust Fund is a check for the 2018 accrued interest earned in the Greenberg Traurig escrow account.
