

Abiaki Prairie restoration project

Abiaki 1
construction

Abiaki Prairie

- Approved by the Committee in 2012
- Project has evolved since 2012: scope has changed and cost has increased
- Corps permit was issued in 2020
- 4,298 WRAP credits awarded based on construction / biological success criteria
- More than enough credits for the full Lake Belt Plan mine-out
- SFWMD signed the Phase 2 construction contract in 2021.

Cost Estimate / Payment Schedule

- Pay \$80 million construction costs by 2026
- Pay \$21 million long-term management costs over 20 years (2028-2047)
- Pay \$50 million land acquisition costs over 25 year period (2028-2052)
- Payments are approved by LBMC one year in advance of cost estimate

Motion

Approve the expenditure of \$7.0 million for FY23 Abiaki Prairie Restoration Project funding per the updated cost estimate. At an updated cost of \$35,300 per WRAP credit, this expenditure authorizes the award of 198.3 WRAP credits (793.2 Pennsuco-equivalent mitigation acres) for 2022.
