- (a) If the forecast shortage for the period is 25 percent or less of the estimated demand for the period, then the percentage reduction for permits within Groups 2 and 3 shall be equal, and the percentage reduction for permits within Group 4 shall be 5 percentage points higher than that of permits for Groups 2 and 3.
- (b) If the forecast shortage for the period is greater than 25 percent but not greater than 35 percent of the estimated demand for the period, then the first 25 percent of the deficiency shall be satisfied as specified in paragraph (a) and the remaining deficiency shall be determined, and the percentage reduction for permits within Group 3 shall be 5 percentage points higher than that for permits within Group 2 and the percentage reduction for permits within Group 4 shall be 10 percentage points higher than that for permits within Group 2.
