

Dade-Broward Levee Project

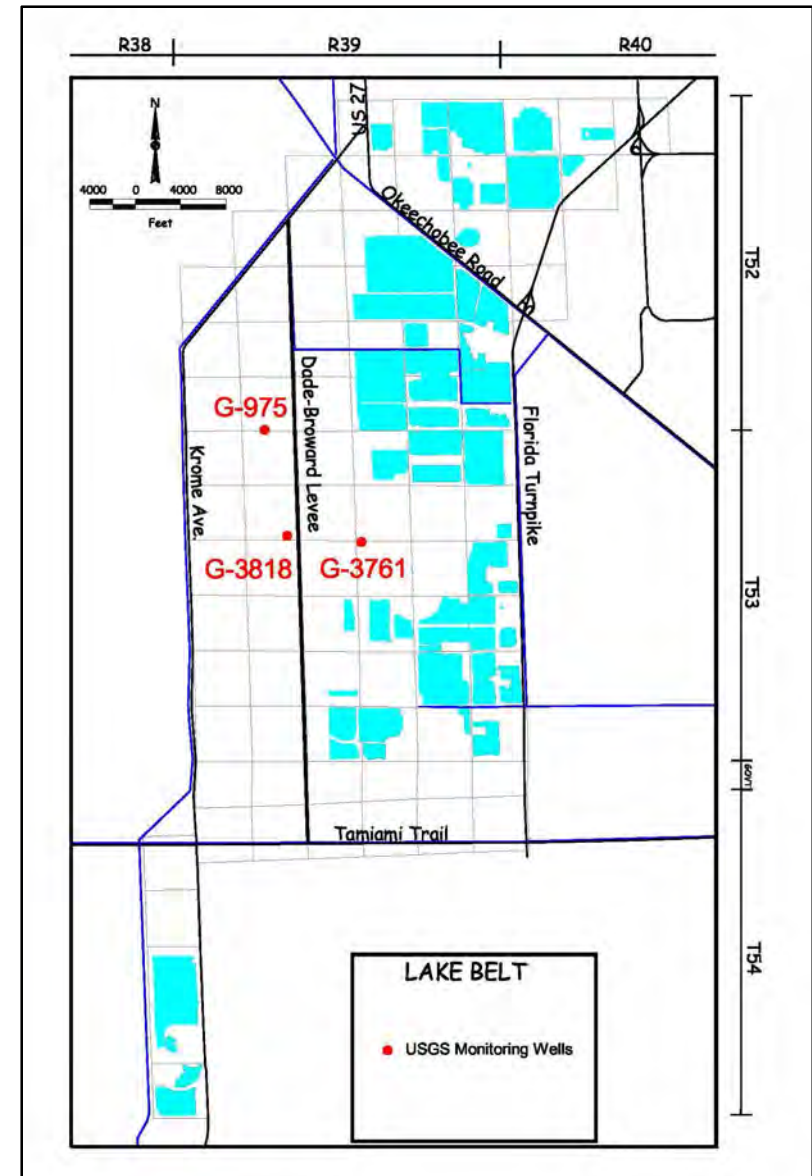

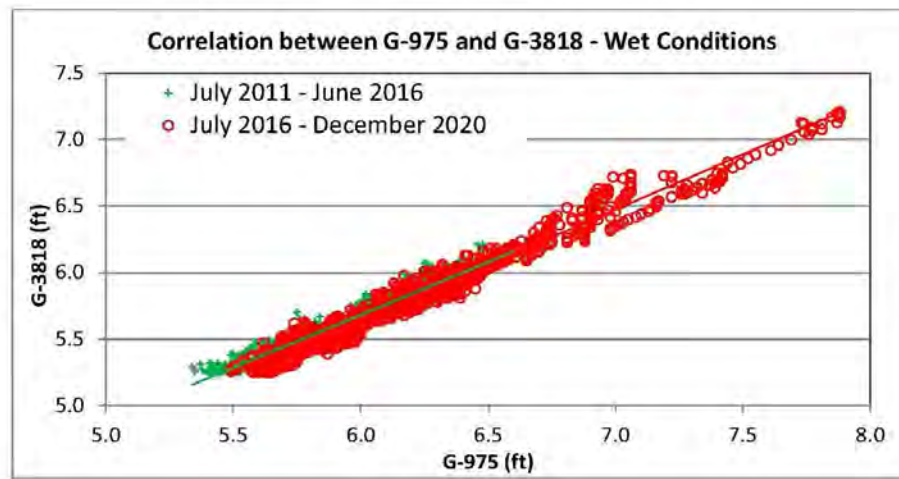

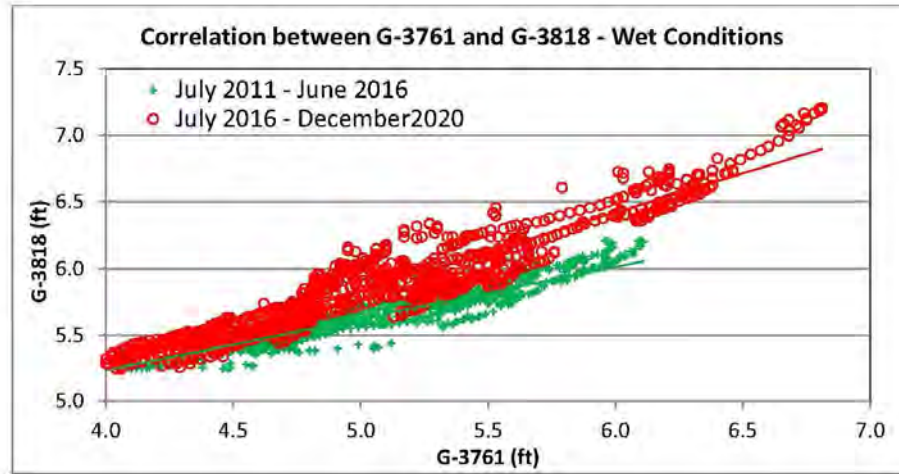

Task 1: 7.5 mile berm repair
completed 2016

Task 2: two proposed water
control structures
completed 2018

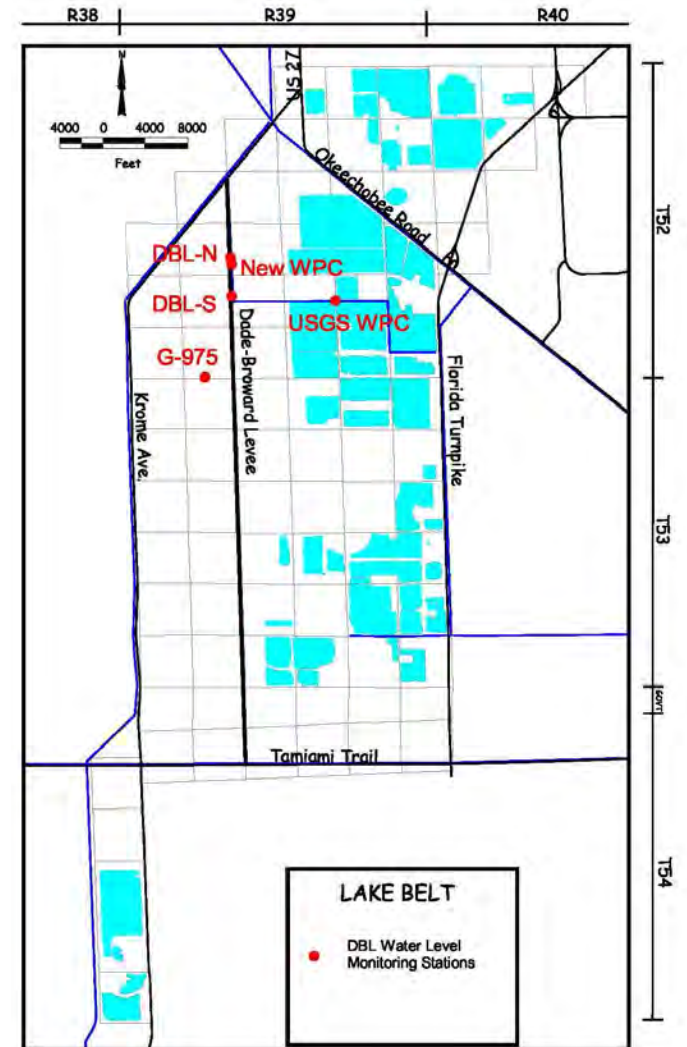

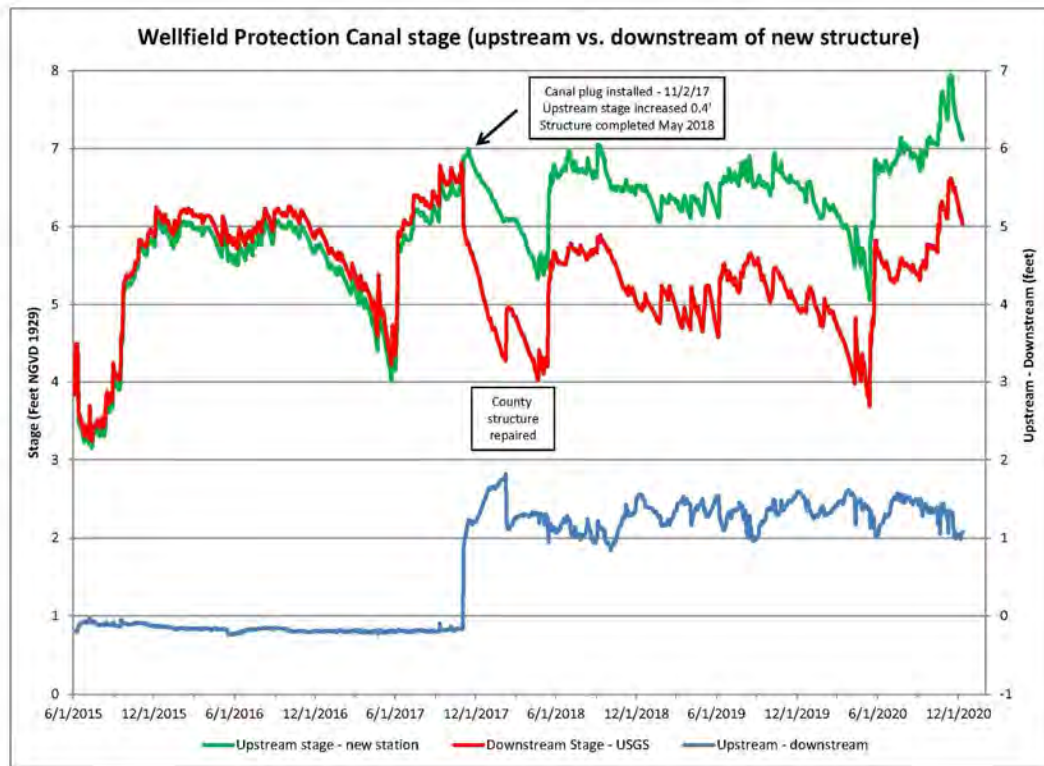

Berm Repair (2016)

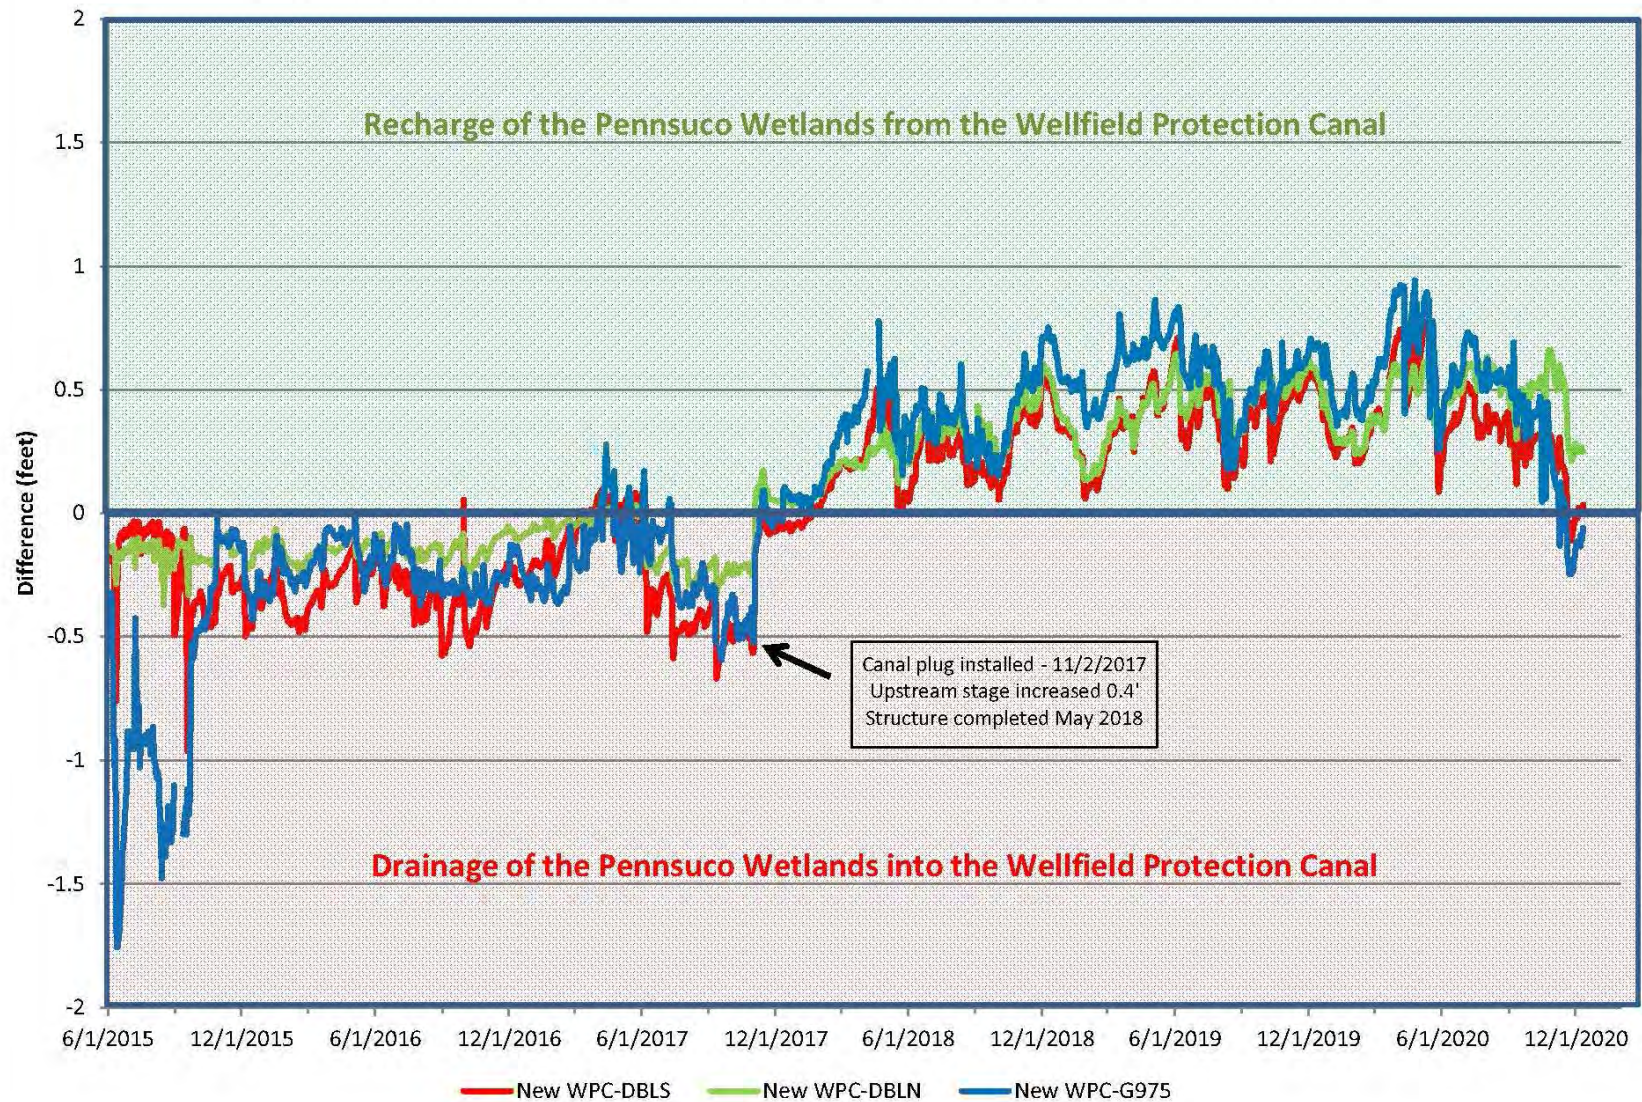

Dade-Broward Levee Improvement Project

New West WPC Structure (2018)

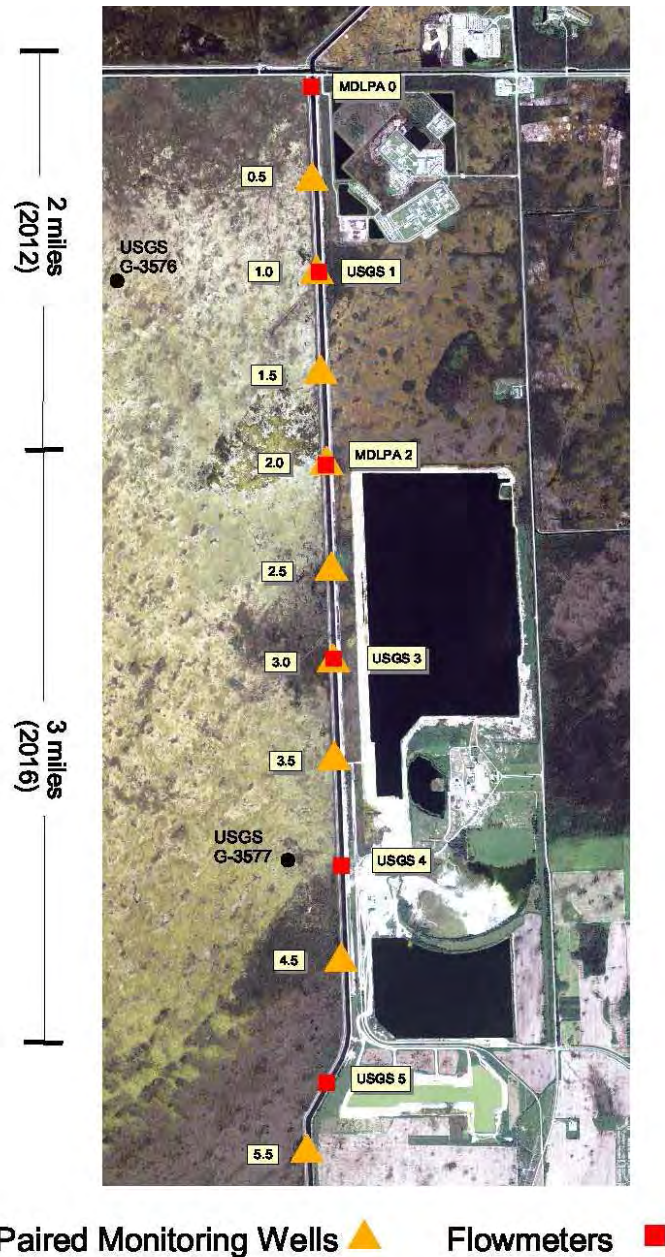

Wellfield Protection Canal vs. Pennsuco wetland water levels

L-31N Updated Monitoring Program

3 years of monitoring after
completion of 2-mile barrier
plus

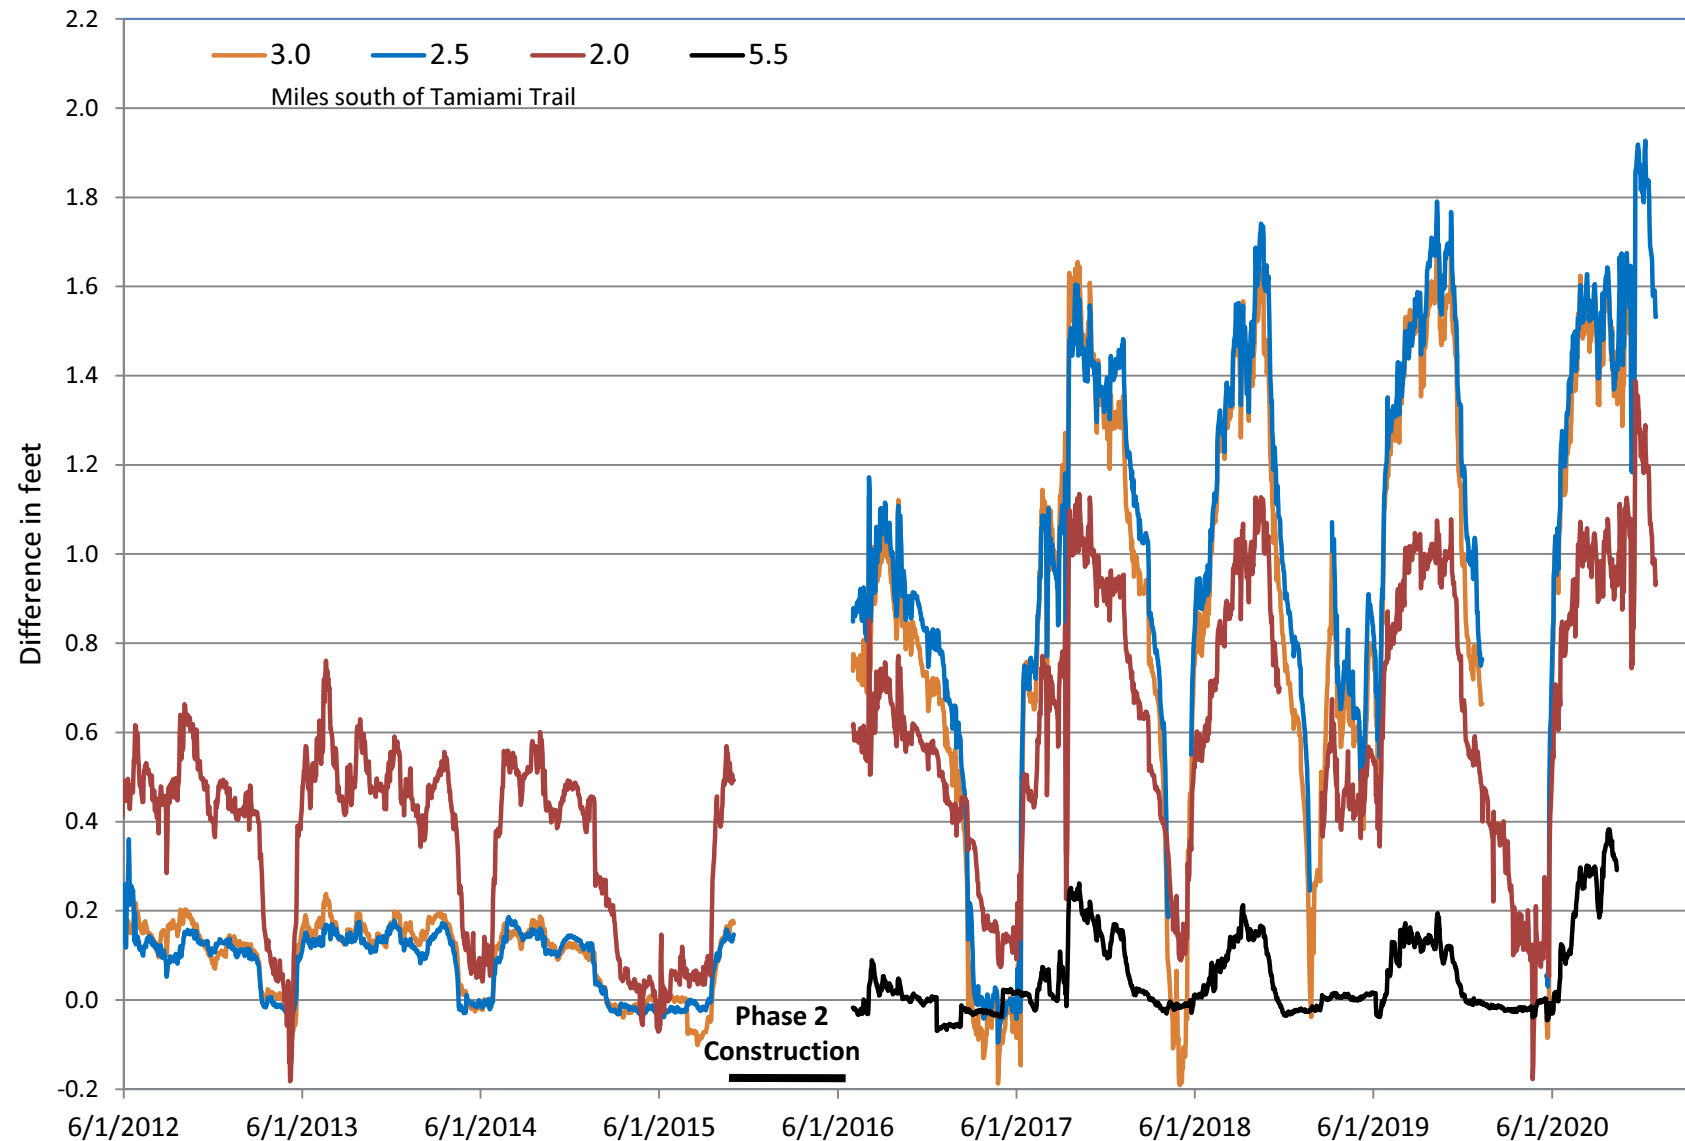

5 years of monitoring after
completion of 5-mile barrier

Groundwater Stage Difference Across Barrier

(Difference between paired water table wells upstream and downstream of the barrier at each specified location)

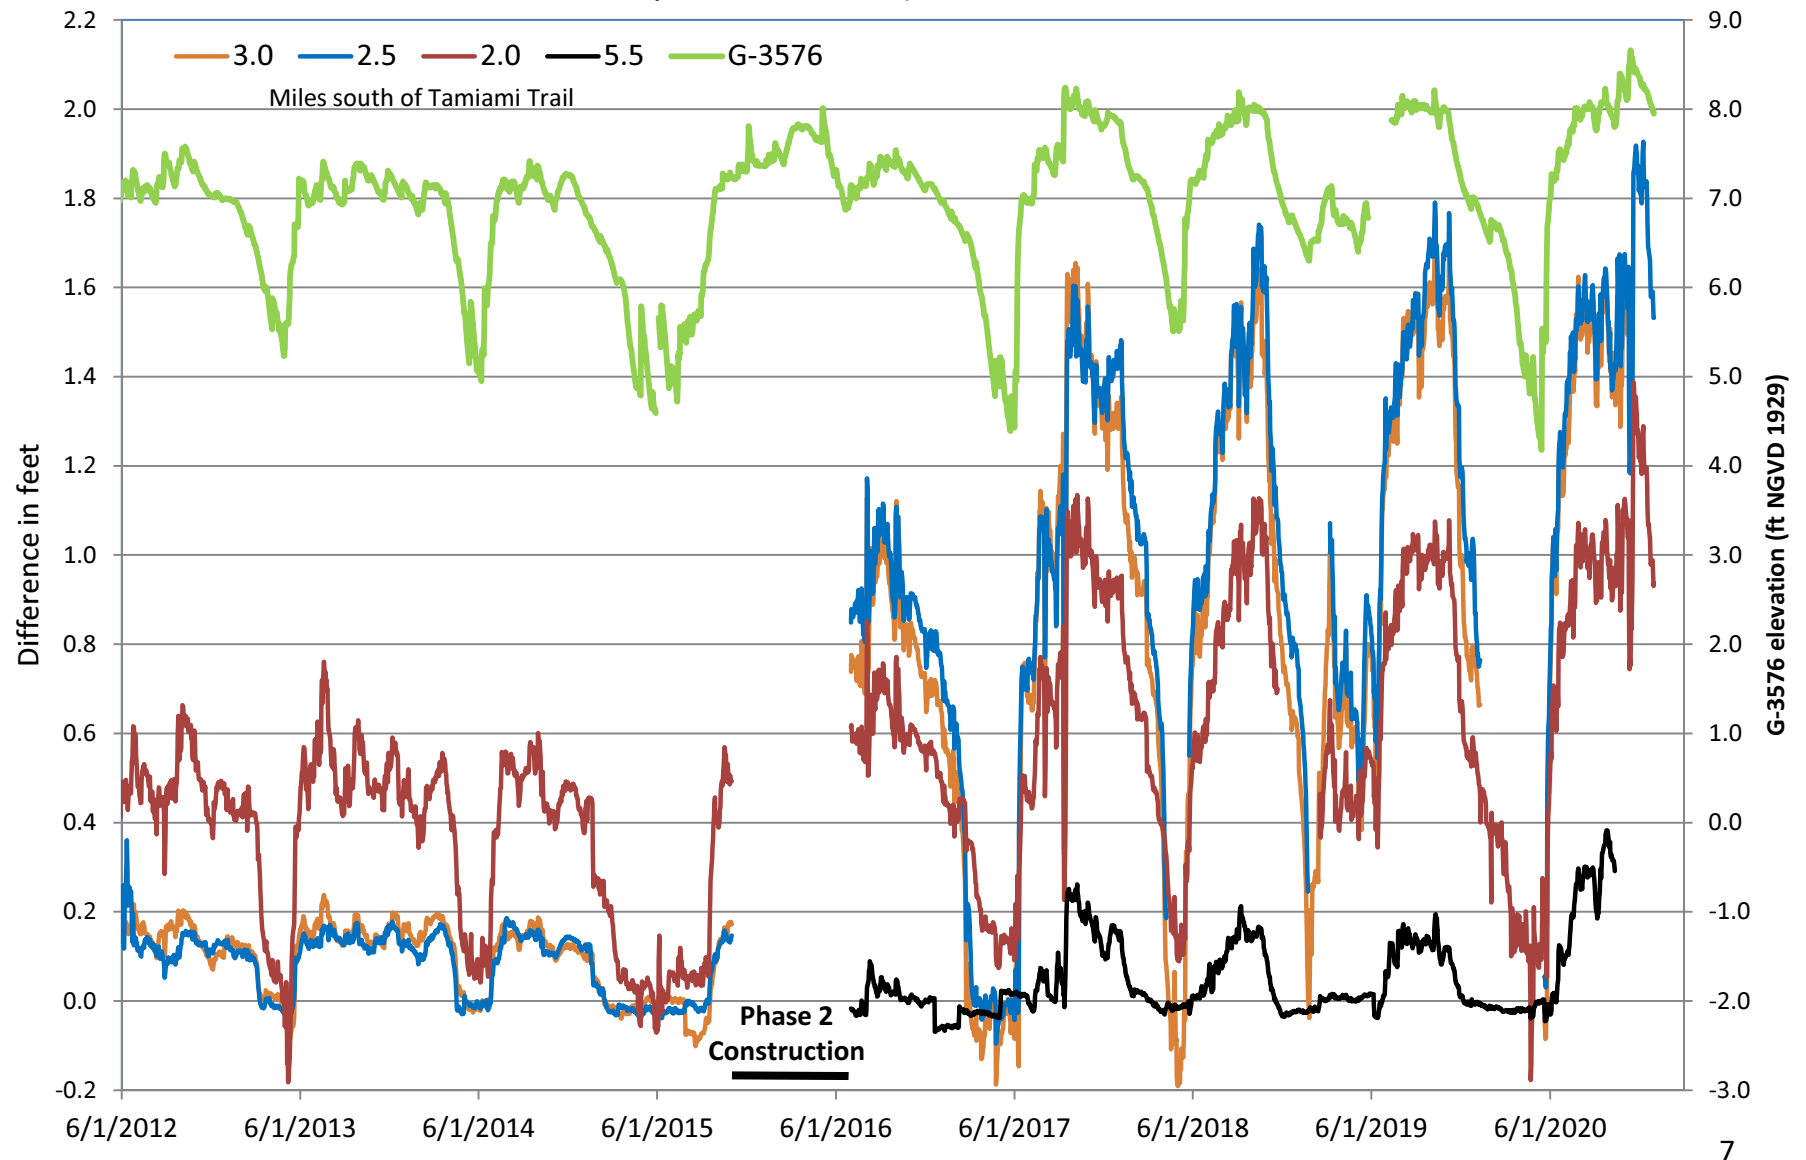

The northern 2 miles of barrier were completed in 2012. The remaining 3 miles were completed in April 2016.

Groundwater Stage Difference Across Barrier

(Difference between paired water table wells upstream and downstream of the barrier at each specified location)

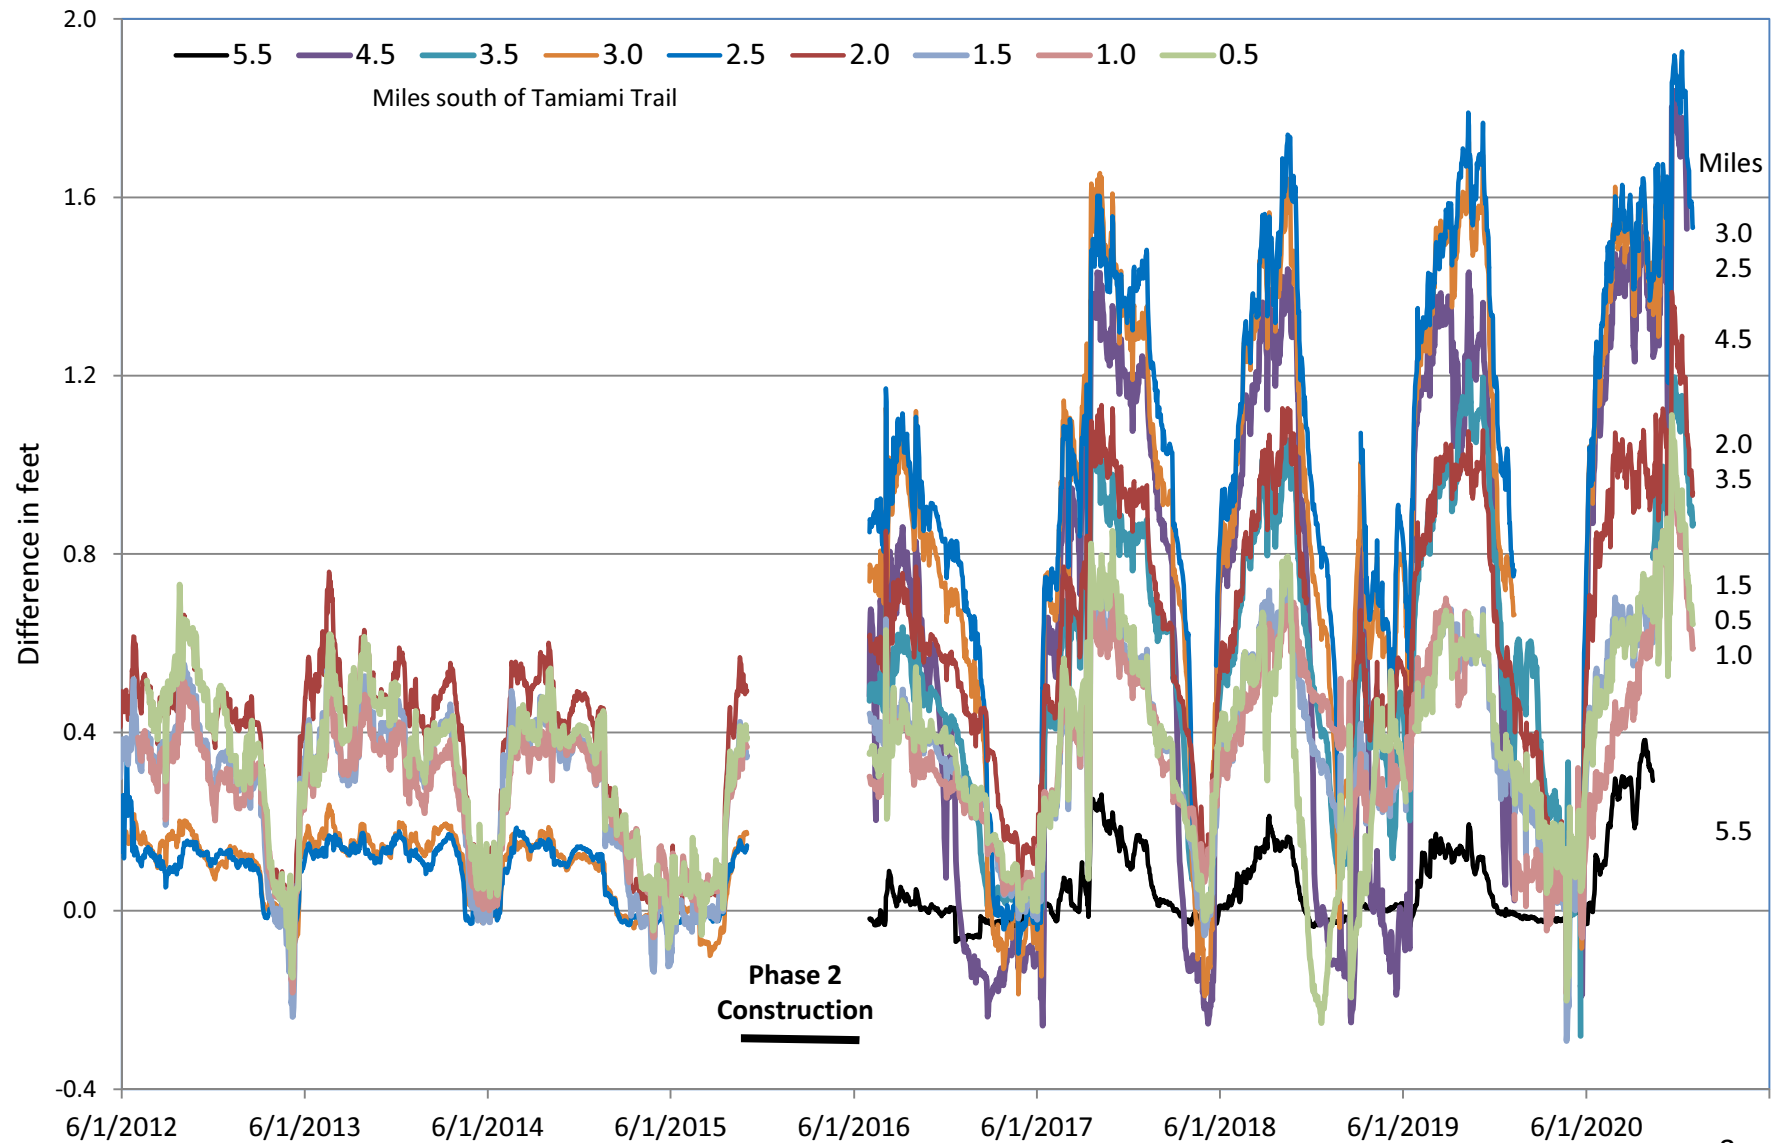

The northern 2 miles of barrier were completed in 2012. The remaining 3 miles were completed in April 2016.
