Dear EIP Florida Water Quality IV Land Co, LLC:

The Lower Kissimmee Basin Stormwater Treatment Project that has been proposed for multiple parcels of land in southwest Okeechobee County will be subject to the county site plan review process. When you are ready, and prior to the commencement of any related construction or site alteration, please submit a site plan application along with the applicable site plan review fees. Please be advised that given the nature and size of the potential project, it is possible that additional fees to cover county review costs may be assessed.

Sincerely,

A handwritten signature in blue ink, appearing to be "WR", with a long horizontal stroke extending to the right.
