

# Sprinkler System Runtimes

Spray

**Spray & Rotary** heads are typically used to water shrubs and flowerbeds, but can also be used for open spaces of grass. *Their use can be interchangeable, but their runtimes are different.*

Rotary

**Rotors** are typically used to water open spaces of grass.

Rotor

	Two watering days per week		Three watering days per week	
	May - September	October - April	May - September	October - April
Rotors & Rotary	40 - 60	15 - 45	25 - 40	10 - 30
Sprays	15 - 25	10 - 15	10 - 20	10

Runtimes for each zone are shown in minutes.

Runtimes should be changed seasonally as shown above.
