Daily Target Flow for 12/30/2025 to 1/5/2026 698 cfs	•					, ,		, - ,		
	Daily '	Target	Flow for			12/30/2025	to	1/5/2026	698	cfs

Target flow is distributed from east to west (S-333, S-12D, S-12C, S-12B, and S-12A) to prioritize water deliveries to NESRS first and WSRS second, subject to downstream constraints.

²Actual discharges may vary from target discharges because of changing hydrologic conditions.

 $^{^{1}}$ S-333 + S-333N - S-334 becomes zero if the sum of S-333 and S-333N is less than S-334 flow. Calculation is done daily.
