Notes:

- S328 follows a bi-weekly sampling schedule. "----" indicates that no sampling was scheduled for that week.
- "NOB" (No Bottle Sample) indicates the water sample was not collected due to external factors.
- "G" indicates the analyte was detected at or above the method detection limit in both the sample and the associated field blank, equipment blank, or trip blank, and the blank value was greater than 10% of the associated sample value.
- "Y" indicates the sample was improperly preserved.
- "J" indicates the analysis yielded an estimated value.
