

June 25, 2019 Quarterly TOC Meeting

Agenda Item # 4

Future TOC Meetings and Data reporting

Item for consideration and possible action by the Technical Oversight Committee.

Proposed Meeting Frequency

- One annual regularly scheduled meeting ~May to present and discuss:
 - annual report on federal water year ending previous September (USGS data final by end of March)
 - other topics relevant to the TOC
- Calendar placeholders for three additional quarterly meetings, to be confirmed on an as-needed basis based upon input from TOC Representatives and their Principals considering current events.

Proposed Schedule for Updating TOC Website with Data Tracking and QA Report

Quarterly Reporting Period	Data Available	Quarterly Web-posting of Data Tracking & QA (by end of month)
July-September	December 15 *	January
October-December	March 15	April
January-March	June 15	July
April-June	September 15	October

* Excludes Approved USGS flow data required for final Appendix A Shark River Slough reporting. Shark River Slough Approved USGS flow data through September is available the following March.
