

# South Florida Water Management District (SFWMD) Lease Requirements for Natural Resource Protection

## SFWMD Land Management Requirements

*In addition to Best Management Practices, other practices are required for the protection and enhancement of the existing wetlands and natural resources on the property. Examples of Land Management Requirements are depicted in these photos:*

*Comprehensive Prescribed Grazing*

*Sediment Traps*

*Livestock Exclusion*

*Berms/Land Surface Grading*

*Control of floating aquatic vegetation*
