

CFCA Public Participation Workshop

Computer Models and Data Analysis

Osceola County Commission Chambers, Kissimmee FL

Thursday July 29, 2010

9:30 AM to 3:00 PM

	Topic	Presenter	Start
I.	Welcome	John Shearer	9:30 AM
II.	Overview and Status of CFCA Efforts	Chris Sweazy	9:40 AM
III.	Data Analysis and Models Tools		
	a. Introduction	Doug Munch	10:00 AM
	b. Data analysis efforts	Jill Hood	
	<i>Discussion</i>		
	c. Numerical modeling tools		
	• ECFT	Jeff Giddings	10:45 AM
	• DWRM	Mark Barcelo	
	<i>Discussion</i>		
Lunch (<i>on your own</i>)			12:00 PM
III.	Data Analysis and Models Tools (cont'd)		
	c. Numerical Modeling Tools (cont'd)	Mark Barcelo	1:15 PM
	• Model Consistency		
	d. Hydrologic Evaluation	Chris Sweazy	
	<i>Discussion</i>		
IV.	Model Work Products and Access	Jeff Giddings	1:45 PM
V.	Schedule for Completion of Activities	Akin Owosina	2:00 PM
VI.	Opportunities for Public Review and Commentary	John Shearer	2:15 PM
Open Discussion and Adjourn			2:30 PM
<p>The first in a series of public workshops to introduce the modeling and statistical tools developed to evaluate groundwater availability in the CFCA. The workshop will focus on the approach in defining groundwater availability, model construction and data input, statistical studies, hydrologic evaluation criteria and initial modeling scenarios. Subsequent workshops will focus on wetland assessment findings, results of the initial modeling simulations, alternative water supply scenarios, and the determination of groundwater availability.</p>
