

## **Jill Creech, P.E.**

### *Regulation*

Jill Creech, P.E., joined the District as the Regulation Division Director in February 2016 after serving five years as director of the Florida Department of Environmental Protection's Southeast District Office in West Palm Beach. In addition to her public service experience with South Florida's regulated community, Creech brings an extensive private sector background to the District. She was president and co-owner of her own engineering firm for 18 years and also worked as a project engineer at several national firms.

Creech has a Bachelor of Science degree in Chemical Engineering from Carnegie Mellon University and is a registered professional engineer in the state of Florida.

Creech manages the agency's regulatory programs, which help protect, manage and improve regional water resources. The District's streamlined permitting process and online database provide ready access to historical and current regulatory information, including pending applications.
