## eSubmittal - Nutrient Source Controls/Works of the District Permit Transfer

An Everglades Nutrient Source Controls (NSC) or Works of the District (WOD) permit is required of landowners or entities within or discharging to drainage basins that ultimately drain to the Northern and Southern Everglades. Generally, all lands are required to apply for an NSC/WOD permit. Specific permit requirements can be located by clicking on the Permitting Services link at [www.sfwmd.gov](http://www.sfwmd.gov).

To begin the application process, start *Internet Explorer* and type [www.sfwmd.gov/ePermitting](http://www.sfwmd.gov/ePermitting) in the address bar, which will bring you directly to the **ePermitting Home** page.

If you do not have an ePermitting account, you must first register as a user. In order to establish a new user account, click on the **Create Account** icon (refer to *Getting Started with ePermitting* for detailed instructions). Registered users can simply click on the **Login** icon.
