

 sfwmd.gov/ePermitting

eSubmittal - Nutrient Source Controls/Works of the District Renewal

An Everglades Nutrient Source Controls (NSC) or Works of the District (WOD) permit is required of landowners or entities within or discharging to drainage basins that ultimately drain to the Northern and Southern Everglades. Generally, all lands are required to apply for an NSC/WOD permit. Specific permit requirements can be located by clicking on the Permitting Services link at www.sfwmd.gov.

To begin the application process, start *Internet Explorer* and type www.sfwmd.gov/ePermitting in the address bar, which will bring you directly to the **ePermitting Home** page.

If you do not have an ePermitting account, you must first register as a user. In order to establish a new user account, click on the **Create Account** icon (refer to *Getting Started with ePermitting* for detailed instructions). Registered users can simply click on the **Login** icon.

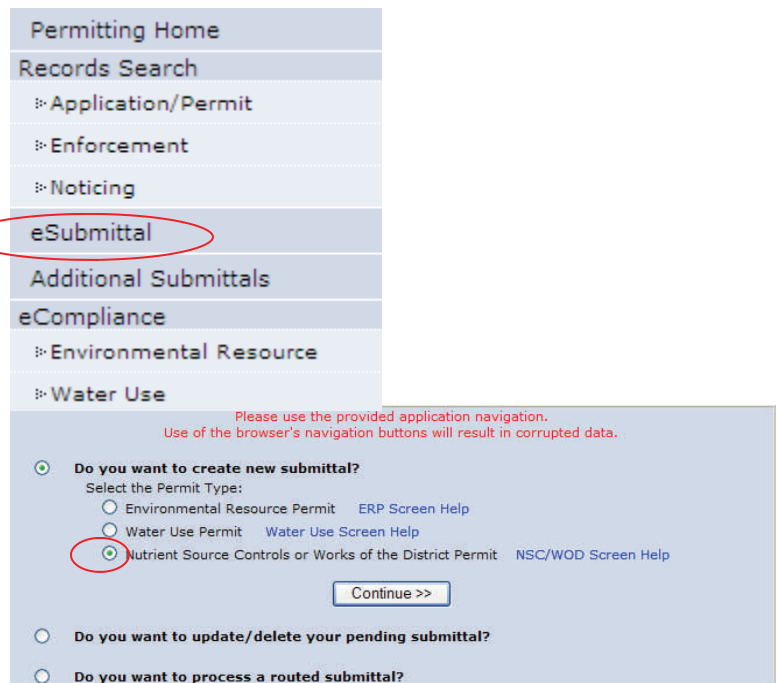

For additional information or if you have any questions, please contact us at epermits@sfwmd.gov.

Submitting a NSC/WOD Renewal Application

1. Click the **eSubmittal** link.
2. Click the circle next to **Nutrient Source Controls/Works of the District Permit**.
3. Click the **Continue** button.

Notes:

- Selecting the *update/delete* option allows access to a list of pending submittals.
- Selecting the *process a routed submittal* option allows you to route a pending submittal.
- Once the application type has been selected, corresponding tabs will appear to indicate what information/sections must be completed. The Next and Previous buttons or links will allow navigation through the application process.
- All fields denoted with an * asterisk are required.
- There is the option to edit/delete information throughout the renewal process.

The screenshot shows the 'ePermitting Home' page. The navigation menu on the left includes: Permitting Home, Records Search, Application/Permit, Enforcement, Noticing, **eSubmittal** (circled in red), Additional Submittals, eCompliance, Environmental Resource, and Water Use. The main content area displays the question 'Do you want to create new submittal?' with radio button options: Environmental Resource Permit, Water Use Permit, and **Nutrient Source Controls or Works of the District Permit** (circled in red). A 'Continue >>' button is visible. Below this, there are options to 'update/delete your pending submittal?' and 'process a routed submittal?'.

Submitting a NSC/WOD Renewal Application

(Application Type)

1. Select the **Tributary** associated with the application or registration.
2. Click **Next Page**.
3. Select the **Type of Permit** associated with the application from the drop down menu.
4. Click **Next Page**.
5. Click on the circle next to **Renewal of an existing permit**.
6. Click **Next Page** or link.

Please select the Tributary associated with this application or registration.

Permit Number	*Application Number	Project Name	Project Acreage
26-00001-E	070627-21	TRIPLE A ENTERPRISES - FARM 20	767.78

☒ This is the correct permit number (check this to display change options below).

* Click on the application number above to view the details and documents associated with that application number.

Please select the type of change you would like to make from the list below.

☐ Change in land practices;

☐ Addition of acreage not previously included in an existing permit.

☐ A change in an existing permitted boundary basin;

☐ Moving an existing basin from an Everglades Works of the District Permit to another;

☐ The addition of a water control structure to the previously permitted Water Quality Monitoring Plan;

☐ A change to the previously approved BMP plan;

☐ A change in the technical information in the Water Quality Monitoring Plan (e.g. identifying monitored sites, sampling methods sample locations).

☐ Deletion of an existing water control structure from the water quality monitoring plan.

☐ Deletion of acreage that does not affect the overall drainage plan (e.g. land removed for district canal widening, STA, etc.)

☐ A change to a water control structure's approved calibrated capacity.

☐ A change in the administrative information in the Water Quality Monitoring Plan (e.g. sampler collector, laboratory).

☐ A change in lessee or parcel owner (not the same as Transfer of Permit)

☐ A change in Early Baseline Status.

☐ A change in the description of associated permits.

☐ Change in ownership.

7. Select the applicable **document type** from the drop down menu.
8. Enter **description** if applicable.
9. Click the **Done** Button.
10. Repeat process for each file being attached.
11. Click the **Back to Submittal Management** button once all files have been attached.

Notes:

- Files attached during the application process should not be duplicated.
- Attached files are archived and available online for the public to review. Therefore, the following is recommended:
 - File type - .pdf
 - Maximum files size - 50 MB (megabytes) .
 - File name - Do not include a period (.) within the file name.
 - Combine multiple maps into one file.

The image displays three screenshots from a web application interface for submitting documents.

The first screenshot, titled "Submittal Management", shows a form with the question "What submittal activity would you like to perform (select one at a time)?". The "Attach Documents" option is selected and circled in red. Other options include "Verify Data Submittal", "Edit Submittal", "Route/Recall Submittal for Purpose", "Return Submittal to Originator", "Seal Registered Professional Documents", "Print Submittal Form", and "Submit Application". Buttons for "Return to Pending Submittals" and "Continue >>" are at the bottom.

The second screenshot, titled "Attached Files Review", shows a table of files attached to the submittal. The table has columns for "FileName", "Size", and "delete". One file, "plans.docx", is listed with a size of "9 KB". A "delete" button is next to the file name, and an "Attach Files" button is at the bottom right.

The third screenshot, titled "Choose File to Upload", is a file selection dialog box. It shows a list of files in the "Look in:" field, including "a) Word documents - How To's for epermitting (only send p...", "FW New slide_files", "Mailout list", "New slide_files", "2011.02 Cover sheet_green leaf.pptx", "bizzard_epermitting.jpg", "conversiontransfers%20how%20to%20aug%2009[1].pdf", "epermit_file_naming_conventions[1].pdf", "epermit_green_leaf_epermitting.pptx", "epermit_howto_transfer[1].pdf", and "ePermitting How to Search Enforcement Information.pdf". The "File name:" field contains "cwTest 1.pdf" and the "Files of type:" field is set to "All Files (*.*)". Buttons for "Open", "Cancel", and "Browse..." are visible.

Submitting a NSC/WOD Renewal Application

Submittal Management (Route Submittal)

1. Click in the circle next to **Route/Recall Submittal for Purpose**.
2. Click the **Continue** button.
3. Click the **Add Routing** button.
4. Click in the box next to the **applicable type** of user.
5. Enter the **first and last name** of an existing user.
6. Click the **Search Names** button.
7. Select the **Purpose** using the drop down menu.
8. Enter a **description** of why you are routing the submittal.
9. Click the **Route** button.
or
10. Enter **email address** if a new user.
11. Click the **Send Email** button
12. Click the **Back to Submittal Management** button.

Note: The application cannot be completed until a routed submittal is returned to the Originator.

Pollutant Source Control Report ePermitting Application Report

This report documents your recent submittal through e-permitting. Please review it, and communicate with the District if any information is incorrect and needs to be resubmitted. You may submit revisions via e-permitting or through regular mail. The application is divided into sections that correlate to the sections in a Pollutant Source Control permit. Except for applications for a new permit, this report will provide you with the information in your existing permit in the 'Current' column, and with the information that has been submitted as part of this application in the Proposed column. Where no changes are proposed, the information in the 'Current' and the Proposed columns will read the same. For quick tracking, a summary table tracking the number of current proposed, new and deleted records is included for each permit section.

General Information

Submittal No:	101944
