Project Name _____ Application No. _____
Permit No. _____ Phase _____

Instructions: If construction of the project referenced by the above Environmental Resource/Surface Water Management (SWM) Permit and Application has extended beyond 1 year, submission of an annual status report is required by conditions of the Permit. A separate status report, prepared under the direction of, and signed and sealed by, a Florida licensed Professional Engineer, will be accepted as an equivalent to this form, if the report includes:

1. the estimated completion date for construction of the surface water management system; and
2. the percent of completion of construction of the surface water management system; and
3. a statement that the portion or phase of the surface water management system, completed to date, is sufficient to provide the required flood protection and water quality treatment for areas of the site infrastructure that are currently in use and are located within the area served by that portion or phase of the surface water management system.

Control Structure(s)	% Complete	Date of Anticipated Completion	Date of Completion
