

just the FACTs

This fact sheet is provided as a reference to encourage a greater understanding of the various issues related to managing water in South Florida.

Year-Round Landscape Irrigation Conservation Measures*

Some city and county governments have adopted more stringent local landscape irrigation ordinances that differ from the District rule based on local water demands, system limitations or resource availability. Several counties and cities have exercised this option so residents should always check for local ordinances. To determine watering days and times in your area, contact your local government or visit www.sfwmd.gov/2days and click on the county links.

In effect since March 2010, the Year-Round Landscape Irrigation Conservation Measures Rule (Chapter 40E-24, Florida Administrative Code) limits landscape watering to two days a week throughout the South Florida Water Management District, with a three-day-a-week provision for some counties. It applies in all cases when the source of water for irrigation is a utility, lake, pond, canal or well. (See limited exclusions on next page.) The mandatory year-round rule is a component of the SFWMD's Comprehensive Water Conservation Program, which encourages more responsible use of water resources.

District Rules

2-Day-A-Week Watering

- No watering between 10 a.m. and 4 p.m.
- Residents and businesses with an **odd-numbered** street address may water lawns and landscapes on **Wednesdays and/or Saturdays**.
- Residents and businesses with an **even-numbered** street address, **no street address** or those that **irrigate both even and odd addresses** within the same zones, which may include multi-family units and homeowners associations, may water lawns and landscapes on **Thursdays and/or Sundays**.

3-Day-A-Week Watering Option

- Residents and businesses with an **odd-numbered** street address may water lawns and landscapes on **Mondays, Wednesdays and/or Saturdays**.
- Residents and businesses with an **even-numbered** street address, **no street address** or those that **irrigate both even and odd addresses** within the same zones, which may include multi-family units and homeowners associations, may water lawns and landscapes on **Tuesdays, Thursdays and/or Sundays**.

New Landscaping Irrigation

The SFWMD Year-Round Landscape Irrigation Rule allows additional watering for up to 90 days following the installation of new lawns and landscaping.

- On the day new landscaping is installed, new plantings and the soil may be irrigated once without regard to the normally allowable watering days and times. Soil irrigation is also allowed immediately prior to planting.
- New plantings that have been in place for **30 days or less** may be watered on **Mondays, Tuesdays, Wednesdays, Thursdays, Saturdays and/or Sundays.**
- New plantings that have been in place **from 31 to 90 days** may be watered on **Mondays, Wednesdays, Thursdays and/or Saturdays.**
- Irrigation is limited to the areas containing new landscaping only. An entire irrigation zone may be watered only if new landscaping is planted on at least 50 percent of that zone. If new landscaping is planted on less than 50 percent of an irrigation zone, only the new plantings may be watered.

Exclusions to the SFWMD Year-Round Rule

- The use of low-volume irrigation methods – including micro-irrigation, container watering and hand-watering with a hose (with an automatic shut-off nozzle) – is allowed anytime.
- The use of reclaimed water and harvested rainwater for irrigation purposes is allowed anytime.
- The rule applies only to water used for landscape irrigation. There are no restrictions on other outdoor uses such as pressure cleaning or vehicle/boat washing, although voluntary, water-conserving practices are highly recommended.

Alternative Irrigation Schedule

If unique circumstances prohibit adherence to the mandatory SFWMD landscape irrigation conservation measures, individuals and businesses/organizations may seek an alternative schedule that still meets the intent of the rule. Guidance is available [online](#) or by contacting Jim Harmon at (561) 682-6777 to learn more about the alternative irrigation schedule request and approval process.

Questions?
