

## Florida Power and Light Turkey Point Monitoring

Laboratory Analyses of Samples

**Validated Chemistry Data posted January 7, 2011**

[Download](#)

Download a .zip compressed archive file containing pdf files of the level 2 chemistry data from surface and groundwater monitoring sites sampled in September 2010 by Florida Power and Light. This is provisional data subject to change as a result of future QA/QC review. Additional chemical parameters (such as isotope parameters) that are not included in this posting are still being analyzed and will be posted when available at a later date.
