

## **Len J. Lindahl, P.E.**

*Assistant Executive Director*

Len J. Lindahl, P.E., has more than 21 years of experience in water resource engineering and complex project management. His diverse expertise ranges from developing and implementing comprehensive strategic plans and operational budgets, to a wide spectrum of civil and environmental engineering services.

Prior to joining the District in 2013, he served as vice president of Florida operations for a multinational Fortune 500 company providing technical and management support in a variety of markets including energy, water, transportation and the environment. Lindahl also has served as District Engineer for a number of South Florida local water control districts, responsible for regulatory, construction and operational components. His professional affiliations include the Florida Engineering Society, National Society of Professional Engineers, American Water Resources Association, Florida Association of Special Districts and the Water Management Institute.

Lindahl has a Bachelor of Science in Civil Engineering from Lafayette College and a Master of Science in Civil Engineering from Lehigh University. A life-long Jupiter resident, he is a professional engineer registered in the state of Florida.

Lindahl supervises the agency's core mission functions, including: water management operations, engineering and construction; regulation; water resources; field operations and land management; and Everglades policy and coordination. In addition, he supervises information technology, real estate and the Big Cypress Basin Service Center.
