

Alternative Water Storage and Disposal Interim (AWSDI) Projects – Putnam Groves Property

Location:	Highlands County
Subwatershed:	Lower Kissimmee
Basin:	-
Purpose:	Utilize interim facilities for water storage by employing a range of site alternative measures at a number of project sites. Alternatives include construction of on-site measures such as temporary ditch blocks, minor berms, minimal earthwork, wetland restoration, and potential water diversions to the project site using temporary pump facilities.
Project Operation Start:	TBD
Considerations/Update:	See table below

LOWCP MM#	Project Name	Project Area (ac)	2011 LOWCP Estimated Water Quality Benefits (mt/yr)	2011 LOWCP Estimated Water Quantity Benefits (ac-ft/yr)	Status
45	Putnam Groves Property	2,577	180	1,595	This parcel was removed from consideration in 2011 ¹ due to specific lease conditions and potential impact to adjacent citrus groves. Currently, this parcel is a cattle reservation that only ends if the District sells the property. This LOWCP Management Measures (MM) is being closed.
