

# Alternative Water Supply Projects – Raulerson & Sons Inc.

<b>Location:</b>	Okeechobee County
<b>Subwatershed:</b>	Lower Kissimmee
<b>Basin:</b>	-
<b>Purpose:</b>	assess, plan, design, and construct water storage/disposal projects on public, private, and tribal lands.
<b>Project Construction Completion Date:</b>	Between 2007 and 2010
<b>Considerations/Update:</b>	<ol style="list-style-type: none"> <li>1. It is unknown if this project is still operational as operational entities are not required to report on project status. The assumption is made that since the project required at least a 50% cost-share by the landowner, that they remain operational.</li> <li>2. The SFWMD provided cost-share funding for construction of the project only.</li> <li>3. Submittal of performance data and/or ongoing monitoring of the project is not required. Thus, the SFWMD is unable to verify water quality and quantity estimates.</li> </ol>

LOWCP MM#	Project Name	Project Area (ac)	2011 LOWCP Estimated Annual Water Quality Benefits (mt/yr)	2011 LOWCP Estimated Annual Water Quantity Benefit (ac-ft/yr)	Construction Cost <sup>1</sup>
18	Joe Hall, Raulerson & Sons Ranch Stormwater Recycling Project	670	0.033	300	\$167,000 \$557/ac-ft of storage
