

Alternative Water Supply Projects – Haynes Williams 101 Ranch

Location:	Okeechobee County
Subwatershed:	Lower Kissimmee
Basin:	-
Purpose:	Assess, plan, design, and construct water storage/disposal projects on public, private, and tribal lands
Project Construction Completion Date:	Between 2007 and 2010
Considerations/Update:	<ol style="list-style-type: none"> 1. It is unknown if this project is still operational as operational entities are not required to report on project status. The assumption is made that since the project required at least a 50% cost-share by the landowner, that it remains operational. 2. The SFWMD provided cost-share funding for construction of the project only. 3. Submittal of performance data and/or ongoing monitoring of the project is not required. Thus, the SFWMD is unable to verify water quality and quantity estimates.
