Subject: Extend the U.S. Sugar Contract to Restore the Everglades

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

It would be foolhardy to turn our back now on one of the most important components of Everglades restoration. Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

Sincerely,

Mr. David Reuter

Subject: Keep the River of Grass Alive - Extend the River of Grass land purchase contract

Dear Dear Chairman Buermann:

I urge you to vote to extend the purchase contract deadline for the River of Grass land acquisition in March. The Governing Board, Governor Crist, and countless other stakeholders have dedicated years of focused work to crafting a workable plan and finding funding sources for it.

Florida taxpayers have committed billions of dollars to Everglades restoration projects. The purchase of the U.S. Sugar Corp. land is the most cost-effective way to help move forward with restoration plans.

We need the Governing Board to extend the deadline to accommodate the Florida Supreme Court timeline to work through existing and new questions that will arise when dealing with an issue as complicated and significant as the River of Grass land acquisition.

I commend this Governing Board for its commitment to Everglades restoration and ask that you see this process through and vote to extend the River of Grass land purchase contract.

Please let me know what the Board decides on this issue.

Subject: Keep the River of Grass Alive - Extend the River of Grass land purchase contract

Dear Dear Chairman Buermann:

I urge you to vote to extend the purchase contract deadline for the River of Grass land acquisition in March. The Governing Board, Governor Crist, and countless other stakeholders have dedicated years of focused work to crafting a workable plan and finding funding sources for it.

Florida taxpayers have committed billions of dollars to Everglades restoration projects. The purchase of the U.S. Sugar Corp. land is the most cost-effective way to help move forward with restoration plans.

We need the Governing Board to extend the deadline to accommodate the Florida Supreme Court timeline to work through existing and new questions that will arise when dealing with an issue as complicated and significant as the River of Grass land acquisition.

I commend this Governing Board for its commitment to Everglades restoration and ask that you see this process through and vote to extend the River of Grass land purchase contract.

Please let me know what the Board decides on this issue.

Subject: Extend the U.S. Sugar Contract to Restore the Everglades

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

My family and I love to explore and camp in that area. If there were a way to save even a little more of that natural wonder, do it please. I will do everything in my power to voice my opinion.

Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

Sincerely,

Mr. Graham Masi
300 Belaire Ct
Punta Gorda, FL 33950-5110

Subject: Keep the River of Grass Alive - Extend the River of Grass land purchase contract

Dear Dear Chairman Buermann:

I urge you to vote to extend the purchase contract deadline for the River of Grass land acquisition in March. The Governing Board, Governor Crist, and countless other stakeholders have dedicated years of focused work to crafting a workable plan and finding funding sources for it.

Florida taxpayers have committed billions of dollars to Everglades restoration projects. The purchase of the U.S. Sugar Corp. land is the most cost-effective way to help move forward with restoration plans.

We need the Governing Board to extend the deadline to accommodate the Florida Supreme Court timeline to work through existing and new questions that will arise when dealing with an issue as complicated and significant as the River of Grass land acquisition.

I commend this Governing Board for its commitment to Everglades restoration and ask that you see this process through and vote to extend the River of Grass land purchase contract.

Please let me know what the Board decides on this issue.

Sincerely,

Mrs. Sharon Rich
2834 Regent Crescent

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

It would be foolhardy to turn our back now on one of the most important components of Everglades restoration. Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

It is imperative that we restore the Everglades. It is the only such environment on the planet. Big Sugar has done far enough damage. We must speak and work with our conscience intact to restore and preserve our unique environment. My family has been in Southwest Florida for 51 years. We have always done our part to protect and preserve. My father, Frank Dellabella worked during the mid-1960s to prevent building in a wetlands of Estero Bay. He was successful, thankfully.

This area of mangroves continues to flourish.

Now, do your part so my grandson and others may enjoy the beauty of the Everglades.

Respectfully,
Kay Dellabella

Subject: Extend the U.S. Sugar Contract to Restore the Everglades

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

It would be foolhardy to turn our back now on one of the most important components of Everglades restoration. Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

Sincerely,

Mr. Rick Deluga
7493 SE Teton Dr

Subject: Extend the U.S. Sugar Contract to Restore the Everglades

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

It would be foolhardy to turn our back now on one of the most important components of Everglades restoration. Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

Sincerely,

Ms. C Timmis

Subject: Extend the U.S. Sugar Contract to Restore the Everglades

Mar 5, 2010

Mr. Eric Buermann

Dear Mr. Buermann,

I ask you to extend the U.S. Sugar contract until the Florida Supreme Court can rule on the purchase next month. This purchase is extremely important to me and my family. The State of Florida needs the U.S. Sugar land to protect the Everglades, its estuaries and our water supply. Without it, taxpayers will spend billions on unproven technologies and risk losing our most precious natural resources.

It would be foolhardy to turn our back now on one of the most important components of Everglades restoration. Please honor the State's promise to us and extend the contract until the Florida Supreme Court can rule next month.

Sincerely,

Mr. David Senn
8421 SW 201st St

To: Buermann, Eric
Subject: Keep the River of Grass Alive - Extend the River of Grass land purchase contract

Dear Dear Chairman Buermann:

I urge you to vote to extend the purchase contract deadline for the River of Grass land acquisition in March. The Governing Board, Governor Crist, and countless other stakeholders have dedicated years of focused work to crafting a workable plan and finding funding sources for it.

Florida taxpayers have committed billions of dollars to Everglades restoration projects. The purchase of the U.S. Sugar Corp. land is the most cost-effective way to help move forward with restoration plans.

We need the Governing Board to extend the deadline to accommodate the Florida Supreme Court timeline to work through existing and new questions that will arise when dealing with an issue as complicated and significant as the River of Grass land acquisition.

I commend this Governing Board for its commitment to Everglades restoration and ask that you see this process through and vote to extend the River of Grass land purchase contract.

Please let me know what the Board decides on this issue.

Sincerely,

Letter Carrier Mike Morrison
2042 Monica Ct.
