SFWMD Hosts Caloosahatchee Community Forum

Collaboration will help develop science and projects to benefit the river and estuary

WHAT: The South Florida Water Management District (SFWMD) is hosting agencies, non-governmental organizations, academic institutions, local governments and other interested stakeholders to collaborate on science and projects that will benefit the Caloosahatchee River and Estuary.

The meeting will focus on prioritizing regional and local projects, along with identifying mechanisms for implementation.

For more information:

- www.sfwmd.gov/caloosahatchee.
- Contact Phil Flood (pflood@sfwmd.gov), the District's local representative, with questions or comments regarding the community forums.

WHEN: Tuesday, December 2, 2014

TIME: 1 p.m.

WHERE: City Pier Building
1300 Hendry Street
Fort Myers, FL 33901

About the South Florida Water Management District

The South Florida Water Management District is a regional, governmental agency that oversees the water resources in the southern half of the state – 16 counties from Orlando to the Keys. It is the oldest and largest of the state's five water management districts. The agency mission is to manage and protect water resources of the region by balancing and improving water quality, flood control, natural systems and water supply. A key initiative is cleanup and restoration of the Everglades.
