

John Mitnik, P.E.

Operations, Engineering & Construction

John Mitnik was named Director for Operations, Engineering and Construction in February 2016. He previously served as Engineering and Construction Bureau Chief after working as a section administrator and a supervising engineer with that group. Before joining the District in 2004, he worked as an environmental administrator and engineer for the Florida Department of Environmental Protection.

Mitnik has a Bachelor of Science in Environmental Engineering from the University of Florida and an MBA specializing in Environmental Resource Management from Florida Atlantic University. He is a professional engineer registered in the state of Florida.

Mitnik manages around-the-clock water control operations and monitoring of the regional water management system and coordination with local entities. He also supervises the inspection and refurbishment of existing facilities, along with the design and construction of new projects and infrastructure.
