

South Florida Water Management District's South Miami-Dade Water Issues Coordination Meeting

When:

May 4, 2010
9:30 AM to 4:00 PM

Where:

John D. Campbell
Agricultural Center Auditorium
18710 SW 288th St., Homestead, FL
(map and directions attached)

Purpose:

To present information on the status and upcoming activities associated with the various District projects being undertaken in South Miami-Dade County and to discuss stakeholders concerns and questions associated with these projects.

Agenda:

See attached

Background: The South Florida Water Management District is involved in a number of water resource related activities in South Miami-Dade County that are of interest to citizens and government agencies. The District depends on stakeholder knowledge and input to ensure projects are effective and successful. In the past, the District has worked with stakeholders on a project by project basis which may not have been as effective as providing interested parties with a comprehensive view of all the ongoing projects and how they interact to affect the water resources in South Miami-Dade County. This meeting is being conducted to discuss these regional projects on a comprehensive basis.
