HD Henry Dean, Executive Director, South Florida Water Management District

Date: March 11, 2005

Re: February 24, 2005 Progress Report

The Principals of the Consent Decree met on March 11, 2005, and reviewed and discussed the TOC's "Progress Report on Remedial Measures to Control Phosphorus Loads to the A.R.M. Loxahatchee National Wildlife Refuge," dated February 24, 2005. We appreciate the time and effort that went into this Progress Report. Based on this Report, we continue to approve and support the course of action outlined in the TOC's July 24, 2003 recommendations and our April 2, 2004 agreement.
