

Final Agenda
Technical Oversight Committee
April 23, 2002; 10 a.m. to 3 p.m.

South Florida Water Management District
Headquarters, B-1 Building, Storch Room,
3301 Gun Club Road
West Palm Beach, FL 33416-4680

Introductory Comments: Discussion and review process for minutes; additions or modifications to the agenda.

Garth Redfield and Carrie Trutwin, South Florida Water Management District

1. **Water Quality Conditions Reports to the TOC.** Tim Bechtel, Cheol Mo and Delia Ivanoff, SFWMD
2. **Brief Update on Phosphorus Concentrations in Shark River Slough.** Nick Aumen, ENP
3. **Modifications to monitoring programs; Update on G-211.** Bahram Charkhian and Pete Rawlik, SFWMD
4. **Elimination of Atmospheric Deposition Monitoring.** Garth Redfield and Bahram Charkhian, SFWMD. Continued phosphorus monitoring using wet/dry collectors will not provide any reduction in uncertainty over existing data, and monitoring for wet and dry deposition should therefore be discontinued. A technical document in support of this finding will be placed on DEP's FTP site. Hard copies are available from Mary Skinner at [mskinner@sfwmd.gov](mailto:m Skinner@sfwmd.gov).
5. **Final Report on Phosphorus Criterion Research.** Kenneth Weaver or Frank Nearhoof, DEP. Three documents (WCA-2A, WCA-1 and ENP/WCA-3A) are available for TOC review. These satisfy the Settlement Agreement requirement for a final report on the P criterion, and can be located at the Department's FTP site: ftp://everglades.dep.state.fl.us/phosphorus_criterion/Technical_Documents/.
6. **Update on Advanced Treatment Technology Research and Planning.** Jennifer Jorge, Gary Goforth and Jana Newman, SFWMD. This presentation will highlight current plans to optimize biological treatment systems, forecasting basin specific alternatives and other topics related to ATT research and planning.
7. **Comments needed for development of the 2003 Everglades Consolidated Report.** Garth Redfield, SFWMD. Specific topics for analysis and inclusion in next year's report are requested. Public workshop on the Report is tentatively scheduled for the period of September 24 - 27, 2002 at the West Palm Beach Sheraton. The workshop will be either 2 or 3 days during this period and preferences on dates and areas of emphasis are requested.
8. **Public Comments**
