

# 2012 Lower East Coast Water Supply Plan – Next Steps

**Bob Verrastro, P.G.**

**Water Supply Planning**

**Water Resources Advisory Commission**

**February 3, 2012**

# Next Steps

## Coordination

- Review and revise PWS demand and population projections with utilities, cities and counties
- Confirm PWS service area delineations
- Distribute wastewater profiles for review by utilities, cities and counties
- Review and revise agricultural acreage and demand projections with agricultural interests
- Continue analysis of power generation, self-supply and golf courses water demand projections

## Next Steps (cont.)

- **Continue correspondence with local governments through public or individual meetings in LEC area**
- **Ongoing coordination with Central Everglades Planning Project**
  
- **Next WRAC Issues Workshop: April 2012**
  - Summary of issues identified today
  - Population and water demand estimates
